FW: EXPLOSIVE ATTACKS IN ARUSHA CHURCH

Further to my last e-mail on this, herewith a statement from TATO..

The latest in the village talk is that 3 people are now dead, 60 injured in hospital, some seriously....and several other unexploded devices were found concealed in various places at the scene.....Am not sure if the latter is true but according to my maid, who was there and sustained minor injuries, the former is true..day

Also, 6 people have been arrested so far the operation to catch the culprits is continuing...

The incident took place close to our offices, in our local village, about 1/4 of a mile from here..

Best,

Subject: EXPLOSIVE ATTACKS IN ARUSHA CHURCH

Dear Members,

500

With deep grief we are informing you that yesterday during inauguration of Olasiti new Catholic Parish, the explosive (not yet established on whether it was a bomb or not) hit the church. The Main Mass Celebrant was The Vatican Ambassador to Tanzania, Archbishop Francisco Montecillo Padilla flanked apart from other clergy, by Bishop Louis Lebulu head of Catholic Dioceses of Arusha.

One person died and several others injured, and are in various Hospitals in Arusha.

High level investigation is still ongoing, we will share any update from the Government as and when we receive it.

Kindly update your agencies wherever they are, that there is no threat to safety and security in Tanzania as this is an isolated incident. Tanzania is still a safe and peaceful country.

Kind regards

15,1

Sirili Miontini Akko.

Executive officer.

Hi4

Well, the letter offering us the Loliondo Ranch for the bid price will be sent out on Monday! Nothing was heard from the other bidder after their initial question on terms of payment.

We will all be on the email on Monday & Tuesday to start discussing details, etc. Have a great weekend!

Reuters: Tanzania opens up more grazing land to drought-hit herders

This has nothing to do with us directly... just an FYI about TZ government trying to proactively resolve further conflict between farmers and pastoralists.

Subject: Soit Sambu school graduation

Dear all,

I have been invited by soit Sambu primary school committee to be a guest of honor at the 7 th grade graduation ceremony.

I am sure partly it's because of the teacher housing built at Sukenya or probably they will have some other request. I could not turn down the invitation so will have to attend.

visited the school one time.

**Thanks**

- PROCEEDINGS 1
- 2 Whereupon:
- 3
- 4 having been satisfactorily identified and duly sworn
- 5 by the Notary Public, was examined and testified as
- 6 follows:
- DIRECT EXAMINATION
- BY MR. KAUFMAN: 8
- 9 Q. So good afternoon. Thank you for coming.
- My name is Jonathan Kaufman. Next to me to my left 10
- are Marissa Vahlsing and Richard Herz. We are with 11
- 12 EarthRights International and we represent Loserian
- Minis, Lotha Nyaru and Joseph Makko in the action 13
- for discovery of documents that you have appeared 14
- here today to respond to.
- So would you please state your name 16
- and address for the record? 17
- 18 A. 3
- 19 🜡
- 20 O. Have you ever been deposed before?

1 A. A legal case against, against -- It was a

4 Q. That's fine. And are you represented by

legal case. What was it called? Yeah. What more

questions and you are to answer them as completely

and as accurately as you can. Do you understand

- 21 A. Yes.
- 22 Q. How many times?

counsel today?

23 A. Once.

6 A. Yes.

8 A. Yes.

that?

24 O. In what kinds of cases?

is there than a legal case?

7 O. And that's Mr. Marx here?

9 Q. I am going to ask you a series of

- will repeat it. If you don't understand a question,
- please tell me and I'll try to rephrase it in a way
- that's more understandable.
- The court reporter is going to take 4
- down everything that we say, so please answer my
- questions audibly. And most importantly, that means
- that nodding your head for a yes or shaking your
- head for a no don't come through on the transcript.
- A. Yeah.
- O. And um-hums and those sorts of things are difficult to transcribe.
- 12 Only one of us can speak at a time.
- So even if you can anticipate the rest of my
- question, please let me finish asking it and then
- you can answer and that way the transcript will be 15
- clear. 16
- 17 If you need a break at any time,
- 18 just let me know and I'll try to find a convenient
- stopping point, just not in the middle of a 19
- question. We'll try to make sure that we take 20
- breaks at regular intervals. So again, if a long 21
- time has gone before a break, just let me know. 22
- 23 Do you understand that the testimony
  - you provide today may be used at trial in Tanzania?

Page 6

1 A. Say that again?

- 2 Q. Do you understand that the testimony that
- you provide today may be used in the trial in
- Tanzania? 4
- 5 A. May be, yes.
- 6 Q. And do you understand the instructions
- that I've just given?
- 8 A. I do.
- 9 Q. Do you have any questions at this time?
- 10 A. Nope.
- Q. Okay. Mr. Marx and I have agreed that
- 12 this deposition will be a combined deposition where
- you will both be speaking in your personal capacity 13
- and in your representative capacity for 14
- 15

Do you understand

- that? 16
- A. Yes. 17
- 18 Q. Because we've agreed that these are
- 19 combined, I will assume that when you answer a
- question, you are speaking both on your personal 20
- 21
- behalf and also in your representative capacity.
- 22 But if you only know something in your personal 23 capacity or if you're answering only as the
- representative of the company, then you should tell

15 an oath to tell the truth? 16 A. I do.

13 A. I understand that.

17 O. Is there any reason you can't testify 18 completely and accurately today?

19 A. No.

12

20 Q. Are you, for example, on any medications

14 Q. Do you understand that you have just taken

- 21 that might impair your judgment?
- 22 A. No.
- 23 Q. So now I'll just give a few instructions.
- 24 If you don't hear a question, please tell me and I

47/47

Page 9 Page 11 me. Do you understand that? 1 A. I'm afraid it's not making it easier. I think you need to tell me who you're talking about 2 A. Yeah. 3 O. I realize that it's not always easy to because -- Yeah, that's too hard. But tell me what draw lines. you were going to say. I don't understand where 5 A. No, you wear two hats. you're going, so help me with that. 6 Q. Over the course of this deposition today Q. I'm just suggesting that when we say and tomorrow both Marissa and I will be asking you we're referring to the 7 questions. When Marissa or I refer to Sukenya farm, 8 which also the land, the property or the land, we are talking which we understand to about the land on which your company currently be doing business as 10 10 So we're referring to that company. operates as 11 11 12 Do you understand? 12 A. But you mentioned that, which was another piece you were using. The 13 A. Yes. 13 MR. MARX: Objection as to form. statement right before this one, you're using 14 14 15 I'm not sure that her company, if you're referring 15 for something else. O. Okay. So let me explain. We would like operates on that property. But 16 16 that's something we can explore. be to able to use a word that refers not just to the 17 1,7 MR. KAUFMAN: Okay. 18 18 19 Q. When Marissa or I refer to group of companies that you own or control that hen 19 20 we're referring to all of the operate --20 any of the with operations related A. But, Jonathan, why I'm confused about 21 21 including, but not to safaris and tours in this, how do you ask me something and it's true for limited to, 23 23 one company and not for the other and this one, but not that one? You want me to say yes because maybe 24 24 Dο Page 10 Page 12 1 you understand? it deals with one of them? So I think you will have 2 A. Well, that's a little bit confusing. You to ask me -- I don't know how it's going to work. will need to say that again. Q. Well, for example, if I were to say, Are O. Sure. then the answer that I you the 5 A. I don't think that's correct. was going for would be if you were the director of 6 Q. So when we refer to generally, we are referring -- Well, you know what? Let's put it then you would say yes. A. That's because that's the word 8 this way. When we say we will be referring Q. Yeah. There are questions for which it to ¥ 9 Do you understand that? will not necessarily matter which of those companies 10 11 A. Yes. we are talking about. 11 12 Q. Okay. When Marissa or I say 12 A. But if it matters, I think you're going to we're referring to have -- I want to do this right. 13 Incorporated. 14 O. Yeah, absolutely. 15 A. Okay. Now you're talking about 15 A. I don't want you to trap me somewhere, you 16 and then it will all get 16 said that was 17 Q. We're talking about mushed. I want you to be very clear with me what 17 18 A. Say again, who is this what I'm supposed you're asking, because I don't know that you 18 to answer through? 19 understand the companies and if you don't understand

Min-U-Script®

easier, then --

23

20 Q. The reason why I'm going through this is

make things easier. If it's not meant things

just so that we don't have to use the long form of

all of the companies. So this is actually meant to

20

21

23

24

dinner of this, so --

22 Q. Well, let's try and explore that in the

different companies separate.

the way I understand them, we can make a real dog's

deposition, but I will make every effort to keep the

Page 16

Page 13

- 1 A. Okay. I think it will help and I
- understand that -- That's fine.
- Q. That's fair. So again, when we say
- we are referring to the
- 5
- MR. MARX: I can't answer for you. 6
- THE WITNESS: I know. 7
- 8 Q. Do you understand that? Does that make
- sense? 9
- 10 A. When you use the world
- 11 you're referring to the
- 12 Q. Yes.
- 13 A. Of I understand now
- that when you say that's who
- you're referring to.
- 16 Q. Yes.
- 17 A. Okay, good.
- 18 Q. And when I say 🖥 I'm referring to the
- 19 20 A. Right, okay.
- 21 Q. Okay. So now we'll begin some of the
- 22 actual questions.
- 23 A. Okay.
- Q. Were you asked to collect any documents in

- 1 used?
- 2 A. I mean, there are a lot of them. Anything
- from cattle to grazing to key people's names to
- arrests, to abandonment, to children, to land use,
- land use change. Those are basic -- There were like
- twelve or fourteen of them that I used. But I
- looked through 1 through 17 to be very clear that I
- had really gone to get what you wanted.
- Q. Did you ask other people to search for
- documents? 10
- 11 A. Yeah, sure.
- 12 Q. Who did you ask?
- 13 A. I spoke with and I spoke with
- Those are employees --14 I spoke with
- 15 Two of those are employees
- asked -- Let me think of who else. That's basically 16
- 17 the key people who really have anything to do with
- this, with 18
- Q. And to be clear, when you say 19
- 20 mean
- 21
- 22 Q. And when you say ou mean
- 23
- 24 A. Yes.

- connection with the subpoenas in this legal action?
- 2 A. Yes.
- 3 Q. And did you do so?
- 4 A. Yes.
- 5 Q. How did you search for those documents?
- 6 A. I searched, the first time I searched we
- looked at some hard files. And then for me, I
- looked at, on my computer I have a folder called 8
- and that is the one I looked in. 9
- 10 Q. Okay.
- 11 A. That's how I began my search.
- Then later I continued my search, 12
- 13 because my daughter told me that there was -- I told
- her that I didn't -- Seemingly, you guys weren't 14
- happy with what I found. I said, Oh, my God, how 15
- 16 else would I find all this? And in the little
- search box I put in key words and used that to then 17
- find what was out there. I had no idea that's what 18
- 19 you could do, but that's when I did then,
- subsequently. Thank goodness for younger daughters.
- 21 Q. I play that same role myself.
- 22 A. Yeah. So, that's how. So I used key
- 23 words to then look that up.
- 24 Q. Do you remember the key words that you

- 1 Q. That's
- 2 A. Yes.
- 3 Q. And so did you ask people to search both
- in Tanzania and in Massachusetts?
- A. I asked the two people from
- o search. So those are in
- And then the other people were asked, and they're in
- Tanzania.
- 9 Q. And you said you looked at paper files, is
- 10 that right?
- 11 A. Yes. Well, we sorted them for you. We
- gave them to you.
- 13 Q. Right.
- 14 A. Yeah.
- 15 Q. And were those paper files both in
- 17 A. I -- They were in
- 18 Q. In addition to your e-mails and the paper
- files, did you search any other sources of 19
- 20 documents?
- 21 A. Paper files and e-mails, did I search any
- 22 other -- Well, you suggested we look at Skype, but
- 23 there's -- that -- I mean, Skype verbally. And I
  - said, well, maybe there's something there. So does

Page 20

Page 17

- that count, Skype? What else is there? Don't make
- me guess. 2
- 3 Q. I think you did produce some text
- messages.
- 5 A. Yeah. Or those were from the phone.
- Right, text messages, yeah. I mean, yes, those.
- 7 Q. So whose phones did you search on for text
- messages? 8
- A. Oh, another person, sorry. Another person 9
- I did talk to is n our office and 10
- phone, she was the one who gave me the text message 11
- 12 from her phone.
- 13 Q. Does have a document
- retention policy? 14
- 15 A. Not really. I mean, not really. It's a
- very broad, very broad piece. When our server was
- full, we were told to dump years and we did. So 17
- that's really our retention. Everybody -- We had 18
- 19 all our people at o do what they
- need to do. Our retention policy is different when 20
- our guests are potentially traveling with me, we
- keep everything from those guests, because we want 22
- to be able to talk with them when we speak with them 23
- 24 on the phone.

- The relationship is pretty distant.
  - 2 ls product to Tanzania. manages
  - property, of which our guests, some of our guests 3
  - might visit. So between the two, there is not a lot
  - between, directly between those two.
  - Q. Would there be contracts signed between --
  - A. Between Between
  - with -- No, I don't
  - think so.
  - Q. How many employers work for 10
  - 11 MR. MARX: I'm sorry, did you
- say employers?
- Q. How many employees?
- 15 A. How many employees work for
- 16 O. For
- 17 A. I think we're now about 22, 21, 22.
- 18 Q. How many employees work for
- 19 A. Oh, my God. I don't know I would know
- that, but can I guess? 20
- MR. MARX: I would ask that you not 21
- 22 guess.
- 23 A. Okay. I'm not going to guess, because I
- literally would not -- I, like I said, the role

- For our employees, otherwise, they 1
- are allowed to do what they need to do. And when 2
- 3 the server gets full, they dump year after year and
- that's basically what they do.
- 5 Q. So would you be aware if documents that
- would have been relevant to these requests had been
- dumped at certain points? 7
- 8 A. Would I be aware that certain documents --
- No. I mean, no. Well, no.
- Q. Okay. What is your title at 10
- 11
- 12 A. 4 and I am a
- director.
- 14 Q. Do you also have a title or role
- 15 A. My role at a sis as a director, as well.
- 16 Q. As the director of lo you manage or
- 17 supervise any of the work at
- 18 A. No.
- Q. Who does manage the work at
- 20 A. The work at managed by our project
- manager.
- 22 Q. What is the relationship between
- 23
- 24 A.

- between these two -- I'm a director, but the role
- between these two is quite distant. And I don't
- know. I actually could answer that wrong.
- Q. Do mployees ever supervise the work of
- mployees?
- A. Do ever
- supervise -- Supervise, no.
- employees ever report directly to
- you?
- 10 A. Report to me? Can you explain what
- 11 report? It's really important, the definition, even
- 12 in a business, report is an important word.
- O. I agree. employees ever directly 13
- provide you information about what is happening at 14
- 15
- A. Yes. 16
- the employer of the general manager 17 Q. 🚛
- the project manager? Sorry. 18
- A. Does employ the project manager? I'm
- not in charge of that relationship, so --20
- 21 Q. Do you know if employs the project
- 22 manager at
- 23 A. I don't know. I would want to tell you
  - absolutely 100% yes if I knew, and because I don't

Page 24

Page 21

- know, I better not. I can't say.
- Q. Do you believe that employs the
- project manager at
- 4 A. Yeah, I believe that that's true.
- 5 Q. Do you know.
- 6 A. Iknow
- 7 Q. Did he ever work for
- 8 A. You're asking me that same question again.
- 9 Unfortunately, I know you're trying to go there,
- but -- Yes. I mean, if the project manager is,
- employee, yes, that would be the 11 reports -- is a
- 12 answer.
- 13 Q. When did he work in that capacity?
- 14 A. He's worked with us, if he worked in that
- capacity under s a project manager, he's worked
- for us twice. And I don't know the dates. A while 16
- back, then he left, and then he came back again. 17
- 18 Q. And is he currently the project manager?
- A. He is currently the project manager.
- 20 Q. Do you know where s from?
- is a M<del>aasai. However,</del> I 21 A.
- believe he lives in Arusha. 22
- Q. Do you know
- 24 A. Iknow

- there's no reason why you should trust me over the
- advice of your attorney.
- 3 A. He didn't tell me not to trust you. I
- just want to make sure I get it right for you.
- 5 O. That's fine.
- A. Because you're going somewhere and I can
- help you get there.
- Q. Honestly, at this point I'm just, I'm
- trying to understand. A number of names come up a
- 10 lot.
- 11 A. Yeah.
- 12 Q. In the allegations and in the documents.
- 13 A. Yes.
- 14 O. And I'm trying to understand who these
- people are, who's responsible for their work.
- 16 A. How about our organization chart, does
- 17 that help you?
- 18 Q. Yes, it does.
- 19 A. Okay. I didn't work on that, so I
- don't -- I know that you have one, but that's
- another reason that I'm not as familiar.
- 22 Q. Who did prepare that organization chart?
- A. I don't know. I think did that. I
- think Rick provided that to you.

- O. Did he ever work as project manager at
- 3 A. No, oh, no, not that I know of.
- 4 Q. What was his position?
- 5 A.
- works with
- Who is his employer? 7 Q.
- is the 9 Q. And
- 10
- 11 A. No.
- 12 Q. It is the Tanzanian company?
- 13 A. Correct.
- 14 O. And what are his roles as a
- 16 A. I'm not his supervisor. I don't look at
- 17 his job description, so I would not be good for me
- to say what he does. You will get that information 18
- 19 from somebody else, but not from me. I mean, I'm
- not his supervisor. Sorry. 20
- 21 Q. No, it's fine. And I do understand that
- you are very concerned, you want to make sure that
- you're always giving answers that comes from your
- personal knowledge. I'm not trying to trap you, but

- Q. Do you know the dates of
- employment with
- 3 A. No, I don't.
- 4 Q. Approximately?
- 5 A. I don't. Sometime in late 2000 until now.
- I don't know if it was 2009, 2010. I'm not his
- supervisor.
- 8 Q. But he's currently with
- 9 A. He is currently with us.
- Q. Do you know.
- 11 A.
- 12 Q. Was he ever employed Do you know, was
- he ever employed by to your knowledge?
- A. Well, I think that what do you mean by 14
- employed? Again, one of those words -- He's not an 15
- 16 17 Q. Let's ask it a different way.
- 18 A. Okay.
- 19 Q. What work has he done at
- 20 A. He's been a sometimes a story
- teller. I think he tells some stories for
- He's a great translator is what he's done for us. 22
- 23 Q. When you say story teller, do you mean
- telling the stories of the Maasai to guests?

Page 28

Page 25

- 1 A. Yeah. He doesn't make up stories. Yeah.
- 2 Actually, he's the translator for the story teller.
- 3 So we have a story teller who tells Maasai tales and
- 4 he translates them for our guests.
- 5 Q. And to your knowledge, where does he come
- 6 from?
- 7 A. He comes from -- I'm going to get this
- 8 wrong. He comes from the Loliondo area. He's
- 9 Maasai.
- 10 Q. And do you know Am
- 11 saying that name\_right?
- 12 A. I know
- 13 Q. How should I pronounce his last name?
- 14 A. I don't know. I never use his last name.
- 15
- 16 Q. What work does he do at
- 17 A. He is was project manager.
- 18 Q. Was he project manager in between the
- 19 times that was working there?
- 20 A. Yes. Just so know -- I mean, yes, he was.
- 21 Q. And where are you from?
- 22 A. Mars -- Don't put that down. I am from, I
- 23 am from where I'm living.
- 24 Q. How long have you been working in Tanzania

- 1 A. I know.
- 2 Q. Would you describe yourself as being
- familiar with Maasai culture?
- 4 A. Yes, relatively familiar after this many
- 5 years, yes.
- 6 Q. How did you come by that familiarity?
- 7 A. By working with them. Our guides are
- 8 Maasai. Our friends are Maasai. We work with them
- 9 side by side. My friends are Maasai and I care
- 10 deeply about them.
- Q. Are you aware of a property in Tanzania
- 12 currently or previously referred to as Sukenya Farm?
- 13 A. I know of the property that is now called
- 14 that some people called the Sukenya Farm
- 15 373. So I don't know if there's another Sukenya
- 16 Farm or not. Okay? You know, I don't know. If
- 17 that's what you're asking. But maybe there's
- 18 another Sukenya Farm.
- 19 Q. Okay. What, if any, is your relationship
- 20 to
- 21 A. My relationship to a piece of land, a
- 22 nature refuge, my relationship to that is that --
- 23 How can I have a relationship with this piece of
- 24 land? I don't know. Do you mean from a business

- 1 tourism?
- 2 A. Which hat am I wearing?
- 3 Q. You can answer either or both.
- 4 A. I have been working in Tanzania since
- 5 1979.
- 6 Q. And that is as
- 7
- 8 A. That is as yes.
- 9 Q. And how did you begin
- 10 working in Tanzania?
- 11 A. I began by operating, I started a company
- 12 called and we took people
- 13 to East Africa and that's how that began. Is that
- 14 your question?
- 15 Q. Yes.
- 16 A. Okay.
- 17 Q. And how did you come to found
- 18 A.
- 19 was founded under a
- 20 different name, but had a name change in 1981. Did
- 21 you say how did I come to do that? I met
- 22 and together we founded
- 23 See, it's getting confusing.
- 24 Q. I agree. That why we're asking questions.

- 1 point of view or from a personal point of view?
- 2 Q. What is your understanding of your legal
- 3 relationship to
- 4 A. Oh, my understanding about the legal
- 5 relationship is that this piece of land came up for
- 6 sale and people bid on it. We didn't win the bid.
- 7 We ended up -- A month later or so the land came
- s available again and we put our bid in. They
- 9 accepted our bid. And it was a titled deed that we
- 10 purchased, not from the Maasai, but from Tanzania
- 11 Breweries Limited, who had owned it for twenty years
- 12 before us.
- 13 Q. And how did you first learn about the
- 14 availability of
- 15 A. I learned about it from
- 16 Q. When you entered a bid for what
- 17 was your understanding of the land rights that
- 18 would receive if you won the bid?
- 19 A. What I remember -- This question is best
- 20 pushed elsewhere, but all I knew and still know is
- 21 that we bought a piece of land that had a titled
- 22 deed.
- 23 Q. So to be clear, your understanding was
- that you were buying land, you were buying a piece

Page 29

- of land?
- 2 A. We were buying a piece of titled land,
- 3 which is very, very important. It's not just buying
- 4 a piece of land. In Tanzania it's very different.
- 5 So we bought a titled piece of land. Can't be said
- 6 separately.
- 7 Q. Titled land?
- 8 A. Titled land.
- 9 Q. And I'm sorry. You said this question is
- 10 better pushed elsewhere, so what did you mean by
- 11 that?
- 12 A. I wasn't really part of that whole
- 13 purchasing piece or the whole negotiation that was
- 14 done. That was actually who's handled that, so
- 15 I don't want to misrepresent -- He will know better
- 16 when you talk to him a lot better than I would. So
- 17 I'm giving you my, what I know, what I think I know.
- 18 Q. Thank you. Before you purchased
- 19 did anyone visit the land on your behalf?
- 20 A. On behalf of one of my companies, on
- 21 behalf of yes.
- 22 O. Who did that?
- 23 A. and a few other
- 24 people went up there. And our guides went up. I

- 1 Q. Did you receive any reports about the land
  - 2 after those people went there prior to purchasing
  - 3 the land?
  - 4 A. Yeah, I think in that e-mail -- Somebody
  - 5 wrote that e-mail where the guides were very, very
  - 6 keen and liked it. Maasai were friendly and
  - welcoming. The land was beautiful. But this place,
  - s this area here where sits is so far away
  - 9 from the national parks, far, far away, so to invest
  - 10 and be out in the middle of nowhere, we wanted to
  - 11 make sure that everybody was on board. And with our
  - 12 relationship with the Maasai and their acceptance of
  - 13 us being there, it was a winner.
  - 14 Q. Sorry. So when you say you wanted to make
  - 15 sure everybody was on board, you mean?
  - 16 A. Our staff.
  - 17 Q. Your staff?
  - 18 A. And the Maasai there, who were very happy.
  - 19 They were very pleased, welcomed us.
  - 20 Q. So to be clear, when the people that you
  - 21 have just mentioned went out to they spoke
  - 22 to local Maasai?
  - 23 A. Well, I'm not privy to that, because I
    - 4 wasn't there. I think may have been on that

Page 30

- 1 don't know if our guides saw it before or after we
- 2 purchased it. I think -- I don't remember this. I
- 3 just remember at the very initial stages that our
- 4 guides were also very keen -- I think you have the
- 5 e-mail that showed that our guides were very keen to
- 6 be a part of this endeavor.
- 7 Q. Sorry. Do you remember the names of any
- 8 of those guides?
- 9 A. I remember being one of them. You
- 10 will see the e-mail has that on there. Maybe
- 11 January Iso, because he's Maasai.
- 12 Q. We came across an e-mail from somebody
- named Was that another guide, as well?
- 4 A. Oh, Actually, yeah, was our
- 15 at one point and was also knew about
- 16 this land. And but I don't remember if he went up,
- 17 if went with him or not. Remember, I'm in the
- 18
- 19 Q. Sorry. When you say our general manager?
- 20 A. The general manager
- 21
- 22 Q. The Tanzanian company?
- 23 A.; was a general
- 24 manager at one point with us.

- 1 trip, I don't know, or somebody else was on that --
- 2 I'm not really sure who was on that trip, but I'm
- 3 actually referring back to that e-mail that
- 4 clarified that for us and for you and for all of us
- 5 here.
- 6 Q. So your understanding is that you did get
- 7 a report in the e-mail that you're talking about?
- 8 A. Yeah. You can pull up the e-mail again,
- 9 but I believe from was -- I remember the
- 10 header was talking about the fact that it was a
- 11 great place. The Maasai were accepting and that the
- 12 land was great. Wildlife could happen. So that's
- 13 what I remember.
- 14 Q. And just so there's some predictability
- 15 for you, we certainly will turn to the documents,
- but I want to ask you some general questions first
- 17 --
- 18 A. Okay, sure.
- 19 Q. But then we'll move to the documents.
- 20 A. Okay.
- 21 Q. Did you make any inquiries into the
- 22 existence of any conflicting claims to
- 23 before you bought it?
- 24 A. Say that question again.

Page 33

- 1 Q. Did you check whether there were any
- 2 conflicting claims to before you bought it?
- 3 A. I wasn't the person who was responsible
- 4 for buying the property. We worked with our lawyer
- 5 and there were -- Nothing, I remember there was no
- 6 conflict. There was no mention of conflict.
- 7 Q. So if someone had done a check for
- 8 conflicts, it would have been your lawyer, is that
- 9 right?
- 10 A. I don't know. Who does a check for
- conflicts? I don't know if it would have been my
- 12 lawyer or if it would have been I don't know who
- 13 would have done that. Most likely our lawyer told
- 14 us it was a free and clear and titled, deeded piece
- 15 of property.
- 16 Q. Did you check whether any people were
- 17 using the land before you bought it?
- 18 A. I'm the wrong person to ask. I'm sorry.
- 19 Q. Who would be the right person to ask?
- 20 A. Probably when you talk to him.
- 21 Q. Did you ever hear anything about anyone
- other than Tanzania Breweries Limited using the land
- 23 before you bought it?
- 24 A. No. I mean, again, I'm third party to all

- 1 is that right?
- 2 A. Yes.
- 3 Q. And how do the Maasai pastoralists
- 4 traditionally make their living?
- 5 A. You mean as in do they make money?
- 6 Q. I'm sorry. How do they, what is their
- 7 livelihood, traditionally?
- B A. Their livelihood is as pastoralists who
- 9 feed their children milk, who live -- They are
- 10 actually not free -- they're not moving like they
- used to, as we used to use the word pastoralists.
- 12 They're usually kind of somewhat more stationary.
- 13 They cross borders, cross out of areas at certain
- times, but they are cattle dependent. But not all
   Massai are cattle dependent. A lot of Massai now
- 16 are becoming agriculturalists. So they're changing.
- 15 are becoming agriculturalists. So they're changing.
  17 They've been changing for a long, long time. And we
- 18 have Maasai who are actually on our staff, who make
- 19 a living being guides. And there are many Maasai in
- a niving being guides. And there are many waasan
- 20 Arusha running shops. So all Maasai aren't
- 21 pastoralists.
- 22 Q. The communities that surround
- how would you describe the livelihoods of those
- 24 communities that surround

Page 34

- of this, but that does not -- No, I don't remember
- 2 personally ever hearing anything like that.
- 3 Q. Now, you said you have been operating in
- 4 Tanzania personally yourself since 1979, is that
- 5 right?
- 6 A. No. I had a relationship with Tanzania.
- 7 I don't know if you asked me if I was operating.
- 8 Operating means that you are literally running
- 9 safaris on the ground. In 1979 I was using some
- other company to do that. I personally had been offering safaris since 1979 in Tanzania, in East
- 12 Africa. So I don't believe I said I was operating.
- 13 It's a very different word in the travel business.
- 14 Q. Thank you for clarifying.
- 15 And during all of that time have
- 16 those safaris been in the Maasai area?
- 17 A. You are asking a question that have they
- 18 all been in Maasai area?
- 19 Q. Let me rephrase the question.
- 20 A. Yeah.
- 21 Q. During that time have you always been
- 22 involved with tours in the Maasai area?
- 23 A. I would say most of the time.
- 24 Q. The Maasai are traditionally pastoralists,

- 1 A. Those are, those are pastoralists around
- They are, I mean, yes.
- 3 Q. And does that mean that those communities,
- 4 the members of those communities move around over
- 5 the course of the year?
- 6 A. I am not there to witness where they're
- 7 moving to and from, so I don't -- There seem to be
- 8 very different -- I look at a large group that are
- 9 up in Loliondo, up by the village of Loliondo are
- 10 quite different than the ones that are in
- 11 Ololosokwan, who depend on tourism. They don't move
- 12 as much. Some of are moving -- I can't actually
- 13 answer that, because I see them when the Maasai who
- 14 are our friends are there, they are coming into
- 15 camp. So they're not moving and changing, so I
- 16 don't know.
- 17 Q. Would you say that some of the families in
- 18 the communities that are closest to
- 19 around with their cattle?
- 20 A. They move their cattle around. I don't
- 21 know if they're as sedentary as other groups, but
- 22 they move their cattle oftentimes from place to
- 23 place.
- 24 Q. And how far are we talking about?

Page 37

- 1 A. You know, I don't know. I don't go out
- 2 and see what they're doing. I mean, granted, you're
- 3 saying you have known Maasai all your life, but I
- 4 don't know in this area how far they move their
- 5 cattle. Remember, we're on the border of Kenya. I
- 6 don't know if they go across the border of Kenya
- 7 with their cattle. It's hard for me to know where
- 8 they're going with their cattle.
- 9 Q. So from your time with you're
- 10 not familiar with their grazing patterns?
- 11 A. Not with their grazing patterns as to
- where they're going. I don't know where they're
- 13 taking their cattle. I don't know where they're
- 14 taking their cattle. Not only that -- Yeah, how
- 15 would I know? No, I don't know that.
- 16 Q. Has anyone ever told you?
- 17 A. Nope.
- 18 Q. Are there Maasai communities on all sides
- 19 of To ask in a more specific way, if I
- 20 were to say, north, south, east and west, are there
- 21 communities within, are there Maasai communities
- 22 within thirty miles in each direction?
- 23 A. Thirty miles in each direction, Maasai.
- 24 Well, there are also Sonjo. So I don't know which

- 1 in the area around in dry season?
- 2 A. I don't -- I can't answer that. I
- 3 don't -- Are there cattle around
- 4 season? If there are grasses for some reason,
- 5 perhaps there are, or they would take them further
- 6 away.
- 7 Q. What are the approximate dates of dry
- 8 season and rainy season in the Enashiva area?
- 9 A.
- 10 Q. Yeah.
- 11 A. I'm going to give it to you for Tanzania,
- because I think it's generally the same thing,
- 13 northern Tanzania. So we have our big rains in
- 14 April and May and then we start drying up until
- 15 November. We have short rains and then short rains
- 16 continue on to the heavy, basically, until the heavy
- 17 rains in April, May. Our dry season is kind of what
- 18 you and I consider our summertime, October.
- 19 Including September, October.
- 20 Q. When to your
- 21 knowledge were there any existing structures on the
- 22 land?
- 23 A. Yes.
- 24 Q. What structures were there?

Page 38

- ones are Sonjo and which ones are Maasai.
- 2 O. Are there communities, local communities
- 3 within thirty miles of each direction?
- 4 A. Yeah.
- 5 MR. MARX: Meaning of either group
- 6 of people?
- 7 MR. KAUFMAN: Yeah, of either.
- 8 A. Just communities you're asking. I mean,
- 9 there's a village. There's a city. There's a city
- 10 by us. Not that close, but so there's a community
- 11 right there that's within thirty miles. So that
- 12 answers the question right there.
- 13 Q. And are there cattle grazing in the areas
- 14 surrounding all year round?
- 15 A. Are they there all year round?
- 16 Q. What I'm trying to get at is whether the
- cattle grazing around is seasonal or if it
- 18 is --
- 19 A. I think cattle grazing is seasonal any
- 20 how. You know, if there's no grass, the cattle
- 21 aren't there. If there's no water, they take their
- 22 cattle to grass and water. They're always moving in
- 23 terms of what's best for their cattle.
- 24 Q. In a typical year are there cattle grazing

- 1 A. There were TBL structures where the TBL
- 2 staff was living that was on the land.
- 3 O. And were there any other human made, any
- 4 other things built by humans?
- 5 A. Other things built by humans? From what I
- 6 hear there were some old thorny fences that were on
- 7 the land at some point. But otherwise, I'm looking
- 8 around, no, that I know of.
- O. When was the first time that you visited
- 10
- 11 A. That's a great question. I don't know. I
- 12 really don't know. I don't even know when the thing
- 13 closed. So I think that's -- Tell me. 2006?
- 14 Shortly after. Maybe within six months.
- 15 Q. Who told you about there being old thorny
- 16 fences at
- 17 A. The first time I heard that there were old
- 18 thorny fences at was when -- I don't know
- 19 if it was contacted us to say that
- 20 the regional commissioner had flown up to see,
- 21 because somebody in the neighborhood, Maanda, was
- telling everybody that we were burning down homes onour land that belonged to Maasai. He flew up.
- our land that belonged to Maasai. He flew up,
  pissed as a rat, that she had done this, because it

- was not. It was thorny brushes and he looked at
- that. And then he wrote to me -- He wrote to us, 2
- actually, cc'd to me, about this happening. And 3
- that was the first time I even knew they were on the 4
- property. You wouldn't, you probably wouldn't be
- able to tell what they were if you saw them, you and
- I. They're not like, they're not that obvious. And
- so that's the first time I heard they were even
- there.
- 10 Q. So when you say they're not that obvious?
- 11 A. I mean, in other words, if you were
- 12 driving across the land, you might not notice that
- there were thorny brush lying there that needed to 13
- be burned.
- 15 Q. You mean that it would not be obvious?
- 16 A. Yes.
- 17 O. That they had been put there on purpose by
- people?
- 19 A. I don't know if they were put there on
- purpose. At one point they may have been put there 20
- on purpose, but I'm just saying that they were 21
- really hard to understand. And when he arrived he 22
- was not happy that suddenly the word was out that 24
  - made him actually leave his business, fly up there

- land when acquired it?
- 2 A. It's a long time ago. The state of the
- land? I don't know. I just remember it being quite
- dry, hilly. There were wildlife, some wildlife on
- the property, very little bit, but there were a few.
- That's all I remember. I honestly don't remember
- very much.
- Q. So at the time the area was not very rich
- in wildlife?
- A. No, not as rich as it is now, I mean, 10
- comparatively speaking, but it had wildlife on
- 12 there, some.
- Q. Did you have a sense that the land was
- degraded in some way?
- 15 A. I wouldn't be the right person to ask
- about that. I wouldn't, I wouldn't have known. I 16
- 17 really wouldn't have known. You know
- and people like that who are out in the bush a lot more would know that. 19
- Remember, I'm at home trying to get people to go 20
- safari and counting heads and putting bums in seats.
- 22 I am not thinking about how long the grass is at
- 24 Q. And taking care of your children?

Page 42

- and see that these were just thorn bushes.
- 2 Q. This was
- 3 A. I don't know if it was You have to
- ask that when you have a chance. I don't actually
- remember. I just remember the e-mail coming. And
- when he first was with us. it may have been 6
- I think he was there when that all happened. So 7
- that was the first -- You asked how did I first find
- out about it. That was how I first found out about
- it was through that altercation.
- 11 Q. And was burning those thorny
- obstacles? 12
- 13 A. Yes, I hear that they did. Note
- You weren't trying to trick me, right? You 14 (
- just made a mistake.
- 16 Q. Do I look like I'm trying to trick you?
- 17 A. Just making sure.
- 18 Q. From your experience when those sorts of
- 19 things are burned, how long is there a trace, how
- long can you see that? 20
- 21 A. I've never -- I have no idea. Where did
- you get that one from? I have no idea, honestly. I
- do not know.
- 24 Q. How would you describe the state of the

- 1 A. And taking care of my children.
- 2 Q. How old are your children?
- 3 A. Now they're 27 and 25 and pregnant. So
- look out. Be nice to me.
- 5 Q. Will this be your first grandchild?
- 6 A. It is.
- O. Congratulations.
- 8 A. Thank you.
- Q. So you said the area wasn't as rich in
- wildlife then as it is now. To your understanding, 10
- what has changed since then? 11
- 12 A. I wish I knew more about wildlife
- behavior, but the wildebeest -- I'm not sure -- The 13
- wildebeest kind of come and go anyhow. And the 14
- giraffe have multiplied, so there's more because 15
- there are more animals that are now having babies 16
- and staying there. It's become kind of a place for 17
- them to be and to stay. So I don't know whether 18 19 it's just from increased population due to making
- and having more and more, or whether it has to do 20 21 with the fact that the grass is better now, richer
- 22 for them and better for them.
- Q. Did you have a sense of why the grass was
- not as rich when you bought it?

Page 44

Page 48

Page 45

- 1 A. Are you trying to find out if there were
- cattle on the property?
- 3 O. I'm trying to find out -- I mean, I asked
- you if the land as degraded and you don't really
- know.
- 6 A. I don't know what degraded really kind of
- means to all of us, but all I know is -- And I
- wouldn't be somebody to say if it was degraded or it 8
- wasn't degraded. I'm not the right person to ask 9
- about that. So I could guess why there are more, 10
- 11 but I don't know.
- 12 Q. Did you have a sense that a lot of cattle
- had been grazing on that property before you bought 13
- 14
- 15 A. It would like to say yes or no, but I'm,
- I'm, I'm really sorry, Jonathan. I'm really not the
- 17 right person to know the reasoning for all of this.
- I am really a very people -- I'm a people person, so 18
- when I go into a village, that's kind of what I do.
- I really don't know enough about wildlife behavior 20
- and biomass and how much they eat and who can eat 21
- and what they can eat and whether giraffes or 22
- wildebeest eat more of this or whatever. That's
- something that's much harder for me to understand.

- 1 pololet?
- 2 A. There's water in there during rainy season
- when there's water everywhere. In other words, it
- doesn't hold water where other people don't have
- water.
- Q. After the rains stop does it hold water
- for a time?
- A. I don't think so, but clarify that with
- . It's not, it's not a place where
- anything is going to come to drink except for during 10
- the time where there's water everywhere.
- Q. When you acquired the land were there any
- bore holes on the land?
- 14 A. No.
- 15 Q. When you acquired the land were there any
- cattle dips on the land?
- 17 A. I think no.
- 18 Q. Since acquired the land, to your
- knowledge has, have any members of the surrounding
- communities built structures on the land itself?
- 21 A. Since what happened?
- 22 Q. Since bought it.
- 23 A. Has anybody built structures? No. Not
  - that I know of. Not to my knowledge. Do you know

something I don't know?

2 Q. I mostly know what's in the documents that

- you have given us.
- 4 A. Okay. Yeah, no.
- 5 Q. According to your knowledge, do people
- from the surrounding communities bring their cattle
- to graze on the land?
- 8 A. Yes.
- Q. And do you know if they were doing that
- before bought it? 10
- 11 A. I've asked that. I don't know the answer
- to that. I don't know if they were or they were 12
- not. I was never there to see that. Again, I think 13
- might be able to help you a lot more with this, 14
- but I don't know.
- 16 Q. When did you first hear about members of
- the local surrounding communities bringing their 17
- 18 cattle to graze on the land?
- 19 A. Well, first time I was there, I met with a
- lot of Maasai elders, because we wanted to let them 20
- 21 know what we were thinking about for the future and
- 22 to clue them in on that. And they wanted to talk to
- us about bringing some of their cattle onto the 23
- land. And we wanted to explain So that was my 24

But might be able to help you with that, for 1 sure.

- 3 O. But I'm just asking, and to the extent
- that you understand it, did you have a sense that
- the land was overgrazed when you bought it?
- 6 A. I wouldn't have known.
- 7 O. Are there water sources on the land?
- 8 A. Okay. What's a water source? Help me
- with that, because that's a real sticky thing, as
- you and I know. What to you is a water source? So
- you and I are on the same page.
- 12 O. Are there natural bodies of water on the
- 13 land?
- 14 A. There is a spring and there is a catchment
- that is called a pololet, but it's not like a
- raging, running river. And the spring is only there
- occasionally. So that's it. 17
- **18** Q. What's the name of the spring?
- 19 A. I can't -- I'd love to make it up, but it
- has a name and I can't remember it. Engagayenia --
- 21 did you get that? I don't know that. I'm sorry.
- You have really got the wrong person going first.
- 23 Q. And the river, the pololet or the
- 24 catchment, as you said, when is there water in the

Page 49

- 1 first time to kind of realize that they wanted to
- 2 bring some of their cattle on the land. But when we
- 3 explained what we were trying to do and how that
- 4 would benefit them, that group of elders we didn't
- 5 hear from again. And they've, you know, they've
- 6 been very respectful. So that was the first time
- 7 that I heard about people wanting to put cattle,
- 8 have cattle on the property.
- 9 Q. And was that first time that you visited?
- 10 A. That was the first time I visited, yeah,
- 11 and talked to the elders.
- 12 Q. When you said that group of elders, how
- 13 would you identify them?
- 14 A. I don't remember who all of these guys
- 15 were. There was one from Mondorosi, from Sukenya
- 16 somebody from Ololosokwan I think was even there.
- 17 Because remember, Sukenya Village was not a village
- 18 at that time. So there were a group of maybe six of
- 19 these elders that came to sit with us.
- 20 Q. And they were asking permission
- 21 specifically for the cattle, to bring some cattle to
- 22 graze?
- 23 A. Just to bring into certain areas.
- 24 Q. And were they also asking permission to

- 1 because there's no water there if they're bringing
- 2 their cattle on.
- 3 Q. You did say that there are times when
- 4 there is water on the land.
- 5 A. And they bring their cattle on.
- 6 Q. I feel that this is a pretty simple
- 7 question.
- 8 A. I don't think it's simple at all.
- 9 Q. Well, I recognize that there are a lot of
- issues with water on the land, but my question is
- 11 just do people --
- 12 A. There are not a lot of issues with water
  - 3 on the land. Remember, there's either water there
- 14 and there's water everywhere else.
- 15 Q. My question is just do people bring their
- 16 cattle onto the land to drink water?
- 17 MR. MARX: Objection as to form.
- 18 She's also already answered.
- 19 A. They don't drink the water. There
- 20 isn't -- My point is they'd like to get on the land
- 21 to bring their cattle, for whatever reason, as a
- 22 harassment. Do they get to a water source? I don't
- 23 think they're there for water. So no, they don't
- 24 come for water.

Page 50

.

Page 52

- 1 bring their cattle onto the land for water, as well?
- 2 A. I don't know that. Maybe. I mean, you
- 3 know, I don't know.
- 4 O. And do members of the surrounding
- 5 communities bring their cattle onto the land to use
- 6 the water?
- 7 A. Let me just repeat. There is not water on
- 8 our land when there's water elsewhere. So if they,
- 9 if they are coming to bring their cattle for water,
- they're coming to give us trouble, because there is
- 11 no water on our land when there's no water anywhere
- 12 else. There's water on our land when there's water
- 13 everywhere.
- 14 So if they're saying, the few of
- 15 them that say, Oh, we need to bring our cattle here
- 16 for water, that is not why they're bringing their
- 17 cattle there. There is no water. Or if there's
- 18 water, they would get it somewhere else.
- 19 Q. But just to ask the question as, I mean,
- 20 you could answer it yes or no. Do people from the
- 21 surrounding communities bring cattle onto the land
- 22 to drink water?
- 23 A. I'm not going to answer that yes or no,
- 24 because do they bring the cattle on for water? No,

- 1 Q. Okay, thank you. Was there ever a time --
- 2 You did say that there are members of the local
- 3 communities do come to bring their cattle to graze.
- 4 A. They also would like to bring their cattle
- to graze, if they get permission.
- Q. So was there ever a time, in your
- 7 knowledge, when the members of the local community
- were not bringing their cattle to graze on the land?
- 9 A. I think the problem here has to deal with
- 10 what you're calling the local community. And this
- 11 is where I think EarthRights and Minority Rights and
- 12 all of you maybe have missed the mark. And that is,
- 13 the community is of many different clans. So there
- 14 is a particular group of people who harass us and
- 15 who you're zoning in on.
  - The rest of our friends, until
- 17 recently, have been very, very honorable. They know
- 18 what we're doing. They're part of the plan. And if
- 19 they needed to bring their cattle on, then they come
- 20 on. If it's drought, they definitely bring, and if
- 21 you need to come on during a drought situation, of
- 22 course, you come on. But the rest of them have been
- 23 very honorable.
  - So now ask me the question again.

24

Page 53

- 1 Q. I'm not asking you about, at this point
- I'm not asking about whether they need permission,
- whether they ask for permission first or not. I'm
- 4 just asking if -- I'm trying to get a sense of
- whether this has changed over time with the number 5
- of cattle that come onto the land have changed over
- 7
- 8 A. It has changed over time. And it depends
- on what the political movement is by PWC and our 9
- adversaries as to what they want to accomplish. So 10
- sometimes we'll have three or four thousand heads of 11
- 12 cattle on the property by one particular group with
- the same brand, or similar brands, brandings, and 13
- 14
- then the rest there will be none, because the rest
- of the community is quite honorable. 15
- 16 So it has changed. It used to be
- 17 little and then it got, it grew. And then it went
- 18 away and it grew and it went away and of course, it
- keeps changing depending on, you know, the flavor. 19
- 20 O. So there are other times when there are.
- 21 as far as you know, there are no cattle on the land?
- 22 A. Sure. I mean, this is -- Can I just say,
- that's a pretty broad statement. I mean, generally,
- no. Is there one cow that's down there in the far

- do that. They decided. So that kind of was the
- beginning of our grazing policy that was set forth 2
- 3 by that grazing committee at that time. And then as
- 4 you will notice, we just kept on adding and thinking
- and trying to work with the neighbors how this was 5
- going to work with them.
- Q. And so do you remember when the grazing-
- committee was first created?
- A. Yeah. It was right after we started. It
- was probably within a year of when we were there.
- 2007, 2008, because, remember, we didn't go str -- I
- mean, I'd say it was 2007, end of 2007, but I'm 12
- somewhat guessing. 13
- Q. You started to say you didn't go straight? 14
- A. I didn't go -- I wasn't the first person
- to go off into the land, so I can't remember. And
- 17 that grazing committee was the second time I was
- 18 there. So I would say that may have been 2007, 2008
- when the grazing committee kind of was formed. We
- may have it in those documents. But they were 20
- 21 great. I just want you to know, that they were
- really into it and they were great people.
- And the grazing committee's function was

1 A. Help us, help us decide how this was going

to work, how was it going to be that we could make,

tourism to come, allow the community to benefit.

How are we going to do this? And their thing was

first, you know for them, was let's think about how

we're going to do this with their cattle. So they

were saying, We believe we'll keep the cattle off

until we see how it works with wildlife. And so

they would come on. We would have them come on

give them what they needed, if we could, allow

24 to?

7

9

10

11

Page 54

Page 56

- left-hand corner that's, you know -- I have no idea,
- but because the boundaries are -- So I don't know if 2
- there's one or two or three or four. But the 3
- question you're asking is sometimes our property is 4
- flooded with cattle. And it may not be in a 5
- 6 drought. It may not be at any time, it's just
- flooded, for whatever reason. So yes, it's changed, 7
- 11 A. Yes. You have a copy of that.
- 12 Q. When was that policy written?
- 13 A. The policy is always being written,
- written and rewritten, written and rewritten. I
- think it started in about 2006 and 2007 and it's 15
- kind of a live document. It's probably even more 16
- 17 recently we've added things to it. But anyhow, that
- 18 probably started way at the very beginning. And a 19
- lot of that --
- We had a grazing committee. We had 20
- 21 Maasai and ourselves working on how we can best make
- 22 this work for the Maasai. We had a very wonderful
- grazing committee, beautiful group of people that 23 say you come in, you don't come in, you do this, you

- unfortunately. 8 9 Q. So does have a policy on how and when cattle can come to graze on their land?
  - - this. They'll be on, they'll be off, but then --12 13 Q. They, meaning?
      - 14 A. The locals, the particular neighbors, who
      - would then move their cattle on. So they were very 15
      - 16 respectful, because they wanted to see if wildlife
      - would come back onto this property. And they've 17
      - been watching and they're seeing that that's 18
      - 19 happening. And so that's what was that grazing
      - committee was set up for initially.

occasionally. You will see

- Q. So just so that I'm clear, because I'm not
- 22 sure that I entirely understand. The grazing
- committee was set up to decide with the local 23
- communities to keep cattle off the land to allow

alking about

Page 60

Page 57

- wildlife to come on?
- 2 A. Or on, or on. We weren't really sure what
- that would look like in terms of how many cattle,
- how few cattle. And so they kind of regulated.
- They actually were the people that were regulating
- what was happening with the cattle at the very 6
- beginning. 7

8

- And what was interesting about what
- you're asking me, and I think it's just coming even 9
- clearer to me, was that they weren't there just to 10
- 1.1 say we want the cattle to be across this property
- and everything else. That's actually not what they 12
- were doing. They were just trying to help us work 13
- 14 out how many cattle could we kind of keep along the
- edge of the property and still have wildlife 15
- continue so we could go forward with this plan. 16
- 17 They were part of it.
- 18 O. And so if, to your understanding, they
- would work with their own groups to, if someone
- wanted to bring cattle, they would --20
- 21 A. They'd ask first, though. That would
- 22 always -- That was part of the thing. And
- correct me tomorrow, because again, I'm second hand 23
  - to a lot of this. But I remember this basically as

- they all were.
- 2 Q. And was it kind of representative?
- 3 A. Of all clans, yes, yes, absolutely.
- That's the only way this can ever work if all clans
- weren't part of this.
- Q. And do you know how those representatives
- were chosen?
- 8 A. They chose them. They chose them and
- there was an elderly guy, who I can't remember his
- name, who kind of was the head honcho. And I think
- he rounded these up, but they were basically from
- 12 the various communities.
- Q. If people from the surrounding cattle --13
- Sorry. If people from the surrounding communities
- 15 bring their cattle onto the farm without first
- seeking permission, what does 16
- the scouts would go talk to them and 17
- 18 ask them to leave, which usually happened, always.
- I mean, not always, but a lot. Then they would turn 19
- 20 around. Some of them weren't really clear about
- where the borders were. Everything in Maasai can be 21
- quite porous, as you'd imagine. There's no border 22
- between Tanzania and Kenya. So we would just go,
  - the guides would go and ask them to leave and they

Page 58

- being that they also wanted to, they wanted to make 1
- sure that we were asked, or whoever was the 2
- project manager at the time, who could bring their
- cattle on or whether they wouldn't bring their
- cattle on. It also depended on how many. Most of
- the time there weren't, they tried to keep the 6
- cattle off for a lot of the time.
- 8 Q. And when that grazing committee was in
- effect was that one of the times when there were
- generally fewer cattle on the land? 10
- 11 A. Fewer, that's true. There was. There
- were fewer. 12
- 13 Q. And when did the grazing committee end?
- 14 A. Well, I knew you were going to ask me that
- and I don't know when the grazing committee ended.
- And I can't remember why the grazing committee 16
- maybe will remember this better than I ended. 17
- did, but I'm not sure -- I forget what happened. 18
- 19 Q. And who was on the grazing committee?
- 20 A. I don't know. I can see them, but I don't
- 21 know their names. I can see these older, they're
- elder, elderly guys who we met quite a few times. 22
- Again, we're going to Tanzania twice a year, so we 23
  - would see them twice a year and I don't remember who

- would leave. But they would come in and eat as much
- grass as they could until they got caught and then
- they would leave.
- 4 Q. I think you have already addressed this to
- a certain extent, but does the general policy on
- grazing change during droughts?
- 7 A. Yeah.
- 8 Q. And what's the change policy during
- 9 drought?
- A. We, we're still -- This is always in flux, 10
- and I'll say that in all honesty, but the thing here 11
- is that we've been listening to a person up in 12
- 13 Kenya, David Western talk about how to have grass
- banks so that -- The most important thing is that
- Maasai and their cattle don't die. I mean, that's
- 16 all we care about is our community. The wildlife
- will disappear and they'll come back again. But so 17
- 18 during a drought, we invite them to come on. And
- you've see the videos where the Maasai are thanking 19 us for letting them use the land doing during a 20
- 21 drought.
- 22 And we're in the middle of a drought
- right now. The problem is there's no grass 23

anywhere. And so as we talked to David Western

Page 64

- about this, our problem was if there's a drought,
- there's not going to be grass anywhere. Maasai are
- probably going to have to move probably twenty,
- thirty, forty miles away. They might have to go up
- to Kenya. People talk about they'll go to OBC, 5
- whatever. It's not easy to find grass when there's
- a drought and it's unfortunate.
- So we've decided to solve that by 8
- putting in a bore hole. Not on our property, but 9
- next to our property, because we thought, well, if 10
- there's going to be a brought, at least we'll have
- water for their cattle. And you know what happened.
- 13 O. Sorry?
- 14 A. And you know what happened to that bore
- hole.
- 16 Q. What did happen to that bore hole?
- 17 A. It was ruined by our adversaries.
- 18 O. Ruined how?
- 19 A. Pardon me?
- 20 O. Ruined how?
- 21 A. We built, for \$30,000 we put in the bore
- hole. We had to put in the pump and before we could
- put in the pump, they threw stones down it and
- ruined the whole thing. To this day they don't have

- agriculture on that land, you would be allowed to do
- that. If you wanted to do tourism on that land, we
- have permission to do tourism on that land.
- 4 Q. Do you know what the original authorized k
- use of that land was when you purchased it?
- 6 A. Well, it would have been from the brewery,
- so it probably would have been agriculture or
- farming, farming.
- Q. And to your knowledge what steps have you
- taken to obtain authorization to use the land for
- 11 tourism?
- 12 A. Every step perfectly.
- 13 Q. Do you know what those steps are?
- 14 A. No, because they're really -- No. I'd
- have to be a lawyer. No.
- 16 O. So did you engage legal counsel to take --
- 17 A. Yeah.
- 18 Q. The land through that process?
- 19 A. Yeah.
- 20 O. And so --
- 21 A. It's a legal, legal steps that have to be
- taken.
- 23 Q. To your knowledge has obtained all the
- 24 necessary authorizations to use tourism on the land?

- water because of that. So that was a water source 1 A. Yes.
- which would have been a great water source for all
- the Maasai in that area. 3
- What we had said to them was that,
- Okay, guys. This was the people of Sukenya. You 5
- didn't really protect this water hole very well, so
- if we're ever going to do this again, then you have
- got to come up with a plan to protect this water
- hole. And they've come up with a plan of how this
- would happen in the future. So that was
- 11 unfortunate.
- 12 Q. I'm just going to ask a few more questions
- and then I think maybe we'll take a short break.
- 14 A. Okav.
- 15 Q. And then we can go through some of the
- 16 documents.
- 17 A. Okay.
- 18 Q. To your understanding what are the legally
- 19 authorized uses of the land that ▶sits on?
- 20 A. It's a combination of agriculture and
- 21 tourism.
- 22 Q. What do you mean by it's a combination of
- 23 agriculture and tourism?
- 24 A. I think that if you wanted to do

- 2 Q. All right. Those are the questions that I
- 3 have without documents, so would you like to take a
- short break now?
- 5 A. Sure. That would be great.
- MR. KAUFMAN: Okay, so I guess we're
- off the record.
- (Brief recess.) 8
- MR. KAUFMAN: I would like to show
- you a document that I will ask the court reporter to 10
- 11 label as Exhibit W-1.
- (Exhibit W-1 marked for 12
- identification.) 13
- 14 (Document handed to the witness.)
- 15 Q. Is this a copy of the final version of the
- lease between Tanzania Breweries Limited and
- 17 A. I don't know.
- 18 Q. Have you ever seen it before?
- 19 A. Probably in paperwork we handed over to
- you, it was one of the documents, but otherwise, no.
- 21 Q. Did you negotiate with Tanzania Breweries
- Limited about the terms of the lease? 22
  - MR. MARX: When you say you, do you
- 23 personally, or 24 mean

Page 68

Page 65

- 1 Q. Well, let's say you in terms of either you
- 2 or in your personal capacity or in your capacity of
- 3 representing
- 4 A. Okay. Ask me the question about again.
- 5 Q. Did you negotiate over the terms of this
- 6 lease?
- 7 A. I don't know. I don't know.
- 8 Q. Do you know if negotiated the terms of
- 9 this lease?
- 10 A. Why does that say lease? Because I don't
- 11 know what this is I'm looking at. Maybe you could
- 12 explain what I'm looking at.
- 13 Q. Well, I have to ask you, and if you don't
- 14 know what it is, then --
- 15 A. So you will continue then.
- 16 O. We'll move on.
- 17 A. Okay, let's continue then. No.
- 18 Q. Okay, let's move on. All right.
- MR. KAUFMAN: I'm going to ask the
- 20 court reporter to label this document as <u>W-2</u>?
- 21 (Exhibit W-2 marked for
- 22 identification.)
- 23 (Document handed to the witness.)
- 24 Q. Is this Tanzania Brewery Limited's

1 Q. Do you know if, did you ever, do you know

- 2 if Tanzania Brewery Limited got the prior approval
- 3 of the commissioner of lands to assign the right of
- 4 the land to before they showed sold it to you?
- 5 A. My guess would be whatever legal things
- 6 needed to be done were done.
- 7 Q. But you never, you don't have any
- 8 knowledge of that?
- 9 A. Yeah, no. I'm not part of that. Sorry.
- 10 Q. Okay. No problem.
  - MR. KAUFMAN: So I'd like to ask the
- court reporter to label this document as W-3?
- 13 (Exhibit W-3 marked for
- 14 identification.)
- 15 (Document handed to the witness.)
- 16 Q. Is this the organizational chart that we
- 17 were discussing earlier?
- 18 A. It looks like that.
- Q. And you said that prepared this
- 20 document, you think?
- 21 A. Yes.

11

- 22 Q. Have you read it before?
- 23 A. Yeah, yeah, I think I did. Sorry to be so
  - wishy-washy, but yes. I just want to make sure it's

- 1 certificate of occupancy for the land?
- 2 A. It says that.
- 3 Q. Have you ever seen it before?
- 4 A. I saw it in a pile of papers, if we sent
- 5 this to you. Did we send this to you?
- б Q. Yes.
- 7 A. Okay. That would have been my, otherwise,
- 8 no.
- 9 Q. Have you ever read it before?
- 10 A. No.
- 11 Q. Let's take a look at the second page. So
- 12 on the back of the first page --
- 13 A. Yeah.
- 14 Q. And Paragraph Number 5 it says, The
- 15 occupier shall not assign the right within
- 16 three years of the date hereof without the prior
- approval of the Commissioner for Lands. And on the
- 18 front page this is labeled May 2004.
- 19 When did you, when did buy
- 20 Enashiva?
- 21 A. I don't know the exact date.
- 22 Q. What year?
- 23 A. Somewhere in 2006? 2005, 2006? I don't
  - 4 know.

- 1 the same one.
  - 2 Q. Absolutely.
  - 3 A. Okay.
- 4 Q. And would you agree that the information
- 5 on this accurately represents the ownership and
- descriptions of the
- 7 A. Yes, pretty good.
- 8 Q. According to Exhibit 3, who owns TCL?
- 9 A. sowned by, as it mentioned here,
- 10 it's owned by our
- 11 and
- 12 Q. Who are
- 13 A. It's a limited company that holds 51% of
- 14 the shares of the trust.
- 15 O. In trust for whom?
- 16 A. That is, we're the beneficiaries, but that
- 17 is to be decided.
- 18 Q. Can you explain the arrangement, to the
- 19 extent that you understand it?
- 20 A. Yeah. The arrangement is that we have
- 21 always, as you will see in everything we've done,
- 22 had the important and a very important idea that the
- 23 community in which we are working should have
  - 4 involvement in what we do. Like the grazing

Page 72

Page 69

10

16

- committee, that they would be involved in that,
- 2 share in the benefits. And so this land, part of
- 3 this land was put into trust that we would hope at
- 4 some point in time to pass over to our, to the
- 5 community, once this whole thing is over and the
- 6 court case is finished. That is our goal. That's
- 7 always been our goal. You will see it from the very
- 8 beginning when we started talking about this.
- 9 Q. So just to make sure that I understand it
- 10 clearly, at the moment the holds the shares
- in trust for you and a second as beneficiaries,
- but the plan is once all hostilities are sorted out
- and once the arrangements are sorted out, to
- 14 transfer that beneficiary arrangement?
- 15 A. Well, I know you guys went up to Loliondo,
- which is actually great, because I think you will
- 17 understand this. The plan, the forever plan of all
- 18 of this was that we would buy this piece of
- 19 property. We would bring the wildlife on, bring
- 20 tourists there. And they would give gifts to,
- 21 donate money to
- 22 there would be this symbiotic relationship. The
- 23 most important thing is we can't do this forever.
- 24 We don't plan on doing this forever. We are just

We really would like the Maasai to

learn how to take over this land, take care of this land, protect the wildlife, keep the poachers off,

they're eating, because that is a natural resource

that the Maasai should actually have benefit to and

be careful of their cattle and how much grass

- 1 those shares when the time comes?
- 2 A. That's a really great question. I think
- for us, that will become clear. You know, perhaps
- 4 it will be the three communities or four communities
- around us, that they will appoint a member to
- 6 actually to do this. We had initially come up with
- 7 some ideas and they included all of these community
- 8 members and they include women, because women need
- 9 to have a voice, as well.
  - So I don't know who they will be,
- .1 but they will be community members and they will
- 12 probably also be a member of a conservation,
- 13 conservation group, as well. And that's in
- 14 question. Maybe it will be many maybe it
- 15 will be Maybe it will be
  - But as this plays out, we wanted to
- 17 set that aside so we that could easily already have
  - taken that part of our land and make sure that it's
- 19 going in the right direction.
- 20 Q. But just so I'm clear, your understanding
- 21 is that when that time comes, you will be able to
- 22 pass it on, you will be able to make the decision to
- 23 pass it to the --
- 24 A. To some, to a group of community members

Page 70

- the kind of the trustees, the stake holders at the 1 who will actually be in charge of this, in charge of
  - 2 this land. However, they will have bylaws.
  - 3 Everything will be in place so they can't -- I mean,
  - 4 this land is in trust for the refuge. And we do
  - 5 trust that the Maasai, our Maasai friends will
  - 6 continue what we've been doing.
  - 7 MR. KAUFMAN: I'd like to ask the
  - s court reporter to label this as Exhibit W-4.
  - 9 (Exhibit <u>W-4</u> marked for
  - 10 identification.)
  - (Document handed to the witness.)
  - 12 A. Oh, 2005.
  - 13 Q. When it all began, right?
  - 14 A. Yeah. I couldn't remember that date was,
  - but it was the end of 2005.
  - 16 Q. Is this the e-mail exchange that you and I
  - 17 were discussing where some folks who visited the
  - 18 land prior to your purchase reported to you?
  - 19 A. Yeah.
  - 20 Q. Who is

He owns

- 23 Q. That's
- 24 And was he the one who first alerted

be able to use that.

- 10 We bought this land. It's titled
- 11 land. It's our land to do what we felt. And we
- 12 feel that's what it's all about. So in preparation
- of that, we have put this land in trust. But it
- can't be passed over. If you know anything about sustainability, you can't just pass over a piece of
- 16 land to Maasai or anybody, anybody in Tanzania. It
- has a project. It has goals. We have to get there.
- 18 And we have to get this court case passed so that we
- 19 can move forward. But that has always been, and
- 20 we've been very clear about that all along.
- So we are not land grabbers. Sorry.
  I thought I'd mention that at the end of my
- 23 statement.

2

3

5

6

9

moment.

24 Q. So who, who will decide the disposition of

Page 73

- 1 you that there was this land that was available?
- 2 A. I think so. I believe so.
- 3 Q. He knew that you were interested in --
- 4 A. No, we weren't interested. No. He just
- 5 mentioned it to us. No. We weren't looking. We
- 6 weren't out searching. So he mentioned it to us.
- 7 Q. And it gave you the idea that you could do
- something along the lines of what you described?
- 9 A. Yeah, I think it was a possibility for us,
- 10 yeah, to do what we were thinking.
- 11 Q. So went to the land to check
- 12 it out for you?
- 13 A. Remember, this is where I lose a little
- 14 bit of when all all
- 15 kind of did their thing. I don't know. You don't
- 16 count on me for that.
- 17 Q. It would be was more involved in
- 18 arranging this?
- 19 A. All of this.
- 20 Q. Did you talk to about their
- 21 visit beyond what you see in this e-mail?
- 22 A. Me? I don't think so. I don't remember.
- 23 I mean, I don't know. I talk to all the time.
- 4 And I use his properties. So you know, were

- 1 now that a vacuum is not good.
- 2 Did you understand what he was
- 3 referring to when he was worried about a vacuum?
- 4 A. No. I think will be able to help you
- 5 with that a little bit more, because, no, I
- s wouldn't. Sorry, I don't know.
- 7 Q. Some loes say in the e-mail to you, He
- 8 does raise a good point about vacuum as we take
- 9 over.
- 10 Did you have a discussion with
- 11 about that?
- 12 A. I don't even know what this -- Let me,
- 13 just bear with me for just a second.
- 14 Q. Yeah, take a minute to look and review the
- 15 document.
- 6 A. Well, wait. This is where -- I believe
- 17 what they're talking about is you don't want to
- 18 leave a piece of land unattended. You got Tanzania
- 19 Breweries in there and we need to move in and come
- 20 in with our camps or come in with our staff. I
- 21 think that's the vacuum that we're looking at here.
- 22 But I'll lef confirm that, because I'm just
- 23 cc'd or forwarded on this one.
  - 4 MR. KAUFMAN: I'd ask the court

Page 74

- we talking about -- I don't know. Ask me more,
- 2 because where are you trying to go?
- 3 Q. I'm just trying to understand if you heard
- 4 more about this visit than is in this e-mail?
- 5 A. That's all I know. I'm lucky I have that.
- 6 Q. That's fine. We can move on.
- 7 A. Okay.
- 8 MR. KAUFMAN: I'd like to ask the
- 9 court reporter to label this as <u>W-5</u>.
- 10 (Exhibit W-5 marked for
- 11 identification.)
- (Document handed to the witness.)
- 13 Q. Is this an e-mail that forwarded to
- 14 you from about the land?
- 15 A. This is actually not about the land. This
- 16 is about coming on to be the manager, I
- 17 believe, the project manager.
- 18 Q. Project manager for
- 19 A. Yeah. I think this is him saying, Yes, I
- 20 am all fired up to get started.
- 21 Q. In there e-mail he says, I'm anxious that
- there is no gap between the brewery stating that the
- 23 farm has been sold and us being in place. I've
- 4 learned from having taken over a few different farms

- 1 reporter to label this document as W-6.
- 2 (Exhibit W-6 marked for
- 3 identification.)
- 4 (Document handed to the witness.)
- 5 Q. Is this document a declaration that
- submitted in the
- 7 libel litigation?
- 8 A. Yes, looks like it, yes.
- 9 Q. Have you seen it before? Have you seen
- 10 <u>Exhibit 6</u>?
- 11 A. Yes, I've seen it. I haven't read it
- 12 thoroughly. I've seen it.
- 13 O. On the fourth page of W-6?
- 14 A. Is that 414? Which number at the bottom,
- 15 by your thumb?
- 16 Q. Yeah. Actually, let's look at the page
- 17 that's marked
- 18 A. 412, okay.
- 19 Q. writes that there were
- 20 temporary/seasonal -- Okay, I'm sorry.
- Are you aware of the 2007 meeting
- that talks about at the bottom of
- 412?
- 24 A. Oh, yeah. This is what I'm telling you

Page 80

Page 77

- 1 about.
- 2 Q. So who was at that meeting again?
- 3 A. I don't remember. I was saying I don't,
- 4 wasn't sure who was there, but it looks like
- 5 was there. Remember, before I said I
- 6 wasn't sure whether it was pr whether it was
- 7 but it looks like was there.
- 8 Q. And he says a local government official
- 9 came to investigate?
- 10 A. Yeah. This was --
- 11 Q. Do you know who the local government
- 12 official was?
- 13 A. Yeah, I think it was the regional
- 14 commissioner. I think it was the regional
- 15 commissioner.
- 16 Q. And when he mentions the ronjo that he
- 17 says is a Maasai word for an abandoned cattle
- 18 enclosure, is that the thorn bushes that you were
- 19 talking about?
- 20 A. Yes, I believe that's correct.
- 21 Q. And it's your understanding that those
- 22 thorn bushes were not in use at the time?
- 23 A. That's my understanding.
- 24 Q. How, how do you know that they were not in

- 1 let's take a look at the fourth page, the back of
- 2 the second page.
- 3 A. Oh, back of the second page, okay.
- 4 Q. Yeah, sorry. It's double sided.
- 5 A. Yeah.
- 6 O. At the bottom here, take a second to read
- 7 that?
- 8 A. This one, the whole second?
- Q. The large paragraph, yeah.
- 10 A. Okay.
- 11 MR. MARX: I'm sorry. Where on the
- 12 page?
- 13 THE WITNESS: He wants me to read
- 14 this piece here, starting with, I was working ---
- 15 Q. I was working with
- 16 A. Took me a long time, but I'm done.
- 17 THE WITNESS: How are you?
- 18 MR. MARX: I'm good.
- 19 Q. So describes the structures that
- 20 were burned as temporary seasonal enclosures. As
- 21 far as you know, is that an accurate description?
- 22 A. When they're being used, they would be
- 23 temporary seasonal structures. When they're not
- 4 being used, they would be abandoned ronjos or

Page 78

- use any more?
- 2 A. I was told that. I wasn't there. I was
- 3 told that.
- 4 Q. By
- 5 A. I was told that by many people, because
- 6 Maanda made such a big deal of this that we had to
- 7 get to the bottom of this and that's what I was
- s told.
- 9 MR. KAUFMAN: I'm going to ask the
- court reporter to mark the next document as W-7.
- 11 (Exhibit W-7 marked for
- 12 identification.)
- 13 O. Is this a document that was prepared from
- 14 responses to the allegations against
- 15 hat was used in preparing that declaration
- 16 that we've just shown you?
- 17 A. I don't know if this is what was used. I
- 18 can't answer. I don't know.
- 19 Q. So --
- 20 A. I don't know how the process worked.
- 21 Q. So this was attached to an e-mail that you
- 22 produced ---
- 23 A. Yeah.
- 24 Q. Together with that declaration. And so

- 1 whatever. They would be abandoned structures, thorn
- 2 bushes.
- 3 Q. Is that what ronjo, is it ronjo, is that
- 4 what you're saying?
- 5 A. I don't know, ronjo, rojo.
- 6 Q. If they're Spanish in style.
- 7 Do you know how would have
- 8 known\_that they were abandoned?
- 9 A. Lives in Sukenya. On my
- 10 imagination -- I don't know how he would know. I
- 11 mean, Maasai would know. If they're all over the
- 12 place, if they're not structures that are in use,
- 13 you would have to have an entrance and it would be
- 4 round. It would be perfect. I mean he would know
- 15 if it's abandoned. He's a Maasai, taking cattle
- 16 places.
- 17 Q. I hope you understand and it may be that
- 18 you don't have direct knowledge, but what would be
- 19 the difference between a structure like this and a
- 20 permanent structure? How would you, if you were
- looking at that, how would you know the difference?
- 22 A. A permanent structure would be something
- 23 that is much more organized and an abandoned one is
- 24 not organized at all. It's falling apart. It's a

Min-U-Script®

Page 81

- wreck.
- 2 O. And do you know if the Maasai come back to
- their seasonal temporarily structures?
- 4 A. No. They put them up all over the places.
- As they move their cattle, they just put them up
- that day, that night to hold them. And the seasonal 6
- ones I don't know, because that means they're going
- much further away from where they are. Is that what 8
- you're asking?
- 10 Q. Yeah, I'm -- There's no special trick to
- the question. I'm just trying to understand how --
- 12 A. He would know. I mean, he would know if
- they were in use or not. He's been very clear here
- that they were not -- that they were abandoned. 14
- 15 Q. Did you have any conversations with the
- regional commissioner about his findings after that 16
- 17 meeting?
- A. I spoke with the regional commissioner in
- Arusha where he did a press release and invited the 19
- press in to clear our name of this ridiculousness 20
- and I met him then and he did a very big speech for 21
- everybody about how he had gone up there and exactly
- what we've talked about. 23
- 24 was there. He had it on his

- identification.) 1
- 2 (Document handed to the witness.)
- Q. Is Exhibit W-8 an e-mail from you to Dr.
- Carrell?
- 5 A. No, her name is Carrell.
- 6 Q. Carrell.
- 7 A. Her last name is Dammann, right? Her last
- name is Dammann.
- O. The name makes it hard to, but I see --
- 10 A. So no, it's not. It's to Carrell, to Dr.
- Dammann. 11
- 12 O. To Dr. Dammann?
- 13 A. We're calling her Carrell.
- 14 O. Who is Carrell?
- 15 A. Carrell is a friend of Maanda's and
- somebody who has supported Maanda who wanted to talk 16
- to me and lived in Portland, I believe. It was 1,7
- 18 during when got graduated. We
- met to go over, with her husband, to talk about what 19
- was happening, how we might try to make this all
- work between all of us. That's how all of this --
- That's who she is.
- O. At the bottom of the first page and the
- top of the second page you talk about, you speculate

- flip phone -- not flip phone, I-flip? Flip video? Do you remember those little flip videos? You guys
- 3
- don't remember that. Anyhow, there's a little flip
- video that you can use. And so he took a picture of
- that. I don't have that. I wish I did.
- 6 Q. Did he tell you how he did his
- investigation?
- 8 A. No. The question is was there?
- will be able to tell us more of that tomorrow,
- as there. That's how he would have 10 whether
- done his investigation or how the RC did it. 11
- 12 Q. No, how the RC did it.
- 13 A. The RC flew up. He went to the property.
- He went and said, You have got to be kidding. This
- 15 is not a Maasai home and he was very mad.
- 16 O. He went to see?
- 17 A. He went onto the property.
- 18 O. And to see the structures that --
- 19 A. Yeah.
- 20 Q. That were said to have been burned?
- 21 A. Yes, that's what I have heard.
- MR. KAUFMAN: I'd like to ask the 22
- 23 court reporter to label this as W-8. 24
  - (Exhibit W-8 marked for

- Page 84
- that possibly, although you did a title search the way Americans do, you possibly should have done a 2
- clan search or community search. What did you mean
- when you talked about that?
- A. Well, Carrell was suggesting that, she was
- suggesting that we didn't know what we got ourselves
- into. And so I said, How would you figure that out? 7
- She said when you go and buy into a neighborhood,
- then you have an idea. You go through
- 10 you kind of get an idea of who's in the
- neighborhood. I said, Oh, you're suggesting that 11
- perhaps we should have done a clan search or 12
- community search and figured it out. That was all. 13
- 14 Q. I mean, do you feel that way? Do you feel
- that you could have somehow learned more about the 15
- clans and their dynamics before getting involved in 16
- 17 Enashiva?
- 18 A. I'm sure I could have learned more. I'm
- sure I could have learned more. Everybody could
- 20 learn more if you just learn more.
- 21 Q. Do you feel that you did make an attempt
- to learn about the different clans and dynamics 22
- before you bought the land?
- 24 A. I wasn't the person who was really on the

Page 85

- ground, but if you take our history and look at our 1
- friends that are Maasai from all different clans, 2
- there would have been no reason for me to really 3
- have thought that this was going to be anything 4
- different than my thirty some odd years already in 5
- Tanzania with Maasai. There would be no reason to 6
- have thought that. 7
- And to this day, without Maanda, I 8
- believe that the clan issues, this whole thing would 9
- not be as it is today. So I don't think I would 10
- have needed to do that. 11
- I realize there are clan issues 12
- everywhere. You know, there are Sonjo. Look at 13
- what's happening with the Sonjo and the Maasai right 14
- now in our backyard in Loliondo. So it's the same 15
- thing that's happening today. It's all Maasai 16
- 17 culture.

24

- 18 So I could have learned more. What
- would I have learned? I probably would have learned 19
- that this was some different, disparate groups of 20
- people powered by Purko in particular, but I would 21
- have still believed in my own that way that our 22
- model was a good model. 23
  - MR. MARX: Is this a convenient time

- names for Cynthia. Loita is L-o-i-t-a and Laitayok
  - 2 is L-a-i-t-a-y-o-k.
  - A. So anyhow, this land is actually, this
  - land actually belonged to them. And this land, when
  - this land ended up with Tanzania Breweries, it was 5
  - the Purko who made that decision. This is what we 6
  - 7 hear, so I'll just tell you what we hear. So it was
  - Purko who made the decision for this land, that
  - belonged to the people of Sukenya, to go to Tanzania

  - 10 Breweries. Not their land, but the people of
  - 11 Sukenya.
  - So I think what I'm saying here is 1,2
  - that the Sukenya people, the people of Mondorosi,
  - when we first came along, and some of the Purko,
  - were very supportive. And then it basically was 15
  - Maanda, and I don't even know if it was the Purko
  - 17 people as much as I could say it was Maanda, for
  - some reason, and I still don't know to this day why 18
  - she decided that she would begin to demonize us. I 19
  - know it feels like we demonize her, but she decided 20
  - to demonize us and say we were doing terrible 21
  - things. 22

1

2

- And I went to see her. I think you 23
- 24 know the story. I went to see her on my second trip

Page 86

because I bring women's groups to

Page 88

Tanzania -- And let me just back up.

- The first thing that happened with 3
- the elders when we met with them when we told them
- about this model, was that they wanted schools for
- their children and they wanted empowerment for their
- women. That gave me a great opportunity to go and
- meet what I heard was the powerful woman in the
- community, Maanda, and I went to her house and she
- wasn't there. But I wanted to tell her that we were 10
  - coming her way. We would bring women who would be
  - very supportive of what she was doing and we could 12
  - together work on empowering women if that's what the
  - 14 women wanted. And her retort was what you have seen
  - 15 in the e-mail back, was that you don't own this
  - land. It doesn't belong to you. Leave us alone and
  - 17 all those other things.
  - So that was what -- That's a piece
    - of the thing that I didn't know that Maanda was going to head up a hate campaign against us. That's
  - 20 what I didn't know. And I'm not sure if I would 21
  - have known that even if I had -- When I met 22 everything everybody there and I met the elders, I 23
  - felt that we were moving in a really nice direction. 24

to take a short, two, three minute break? 1. MR. KAUFMAN: Sure. Let's go off 2

- 3 the record for five minutes.
  - (Brief recess.)
- 5 O. So just before break you mentioned that if
- you had done more clan searching or whatever you
- want to call it, likely the only thing you would 7
- have discovered was what you discovered, which is 8
- that what you discovered eventually was that the 9
- Maasai, there are clan issues and things are complex 10
- there, and but that in the end, really, the only
- 11 problem is with the Purko clan. So can you tell us 12
- a little bit about the troubles with the Purko clan 13
- around 14
- 15 A. Well, actually, it's not -- I mean, it's
- not -- Yeah, sure. I'm just wondering how much you 16 17 know. When, a long time ago when this was all one
- big village, what was the Soitsambu village, there 18
- were three subvillages. And the land that 19
- 20 sits on at the moment belonged to the Sukenya, the
- Loita, Loita, Laitayok? not allowed to tell 21 me which one they are. Remind me. Anyhow, it's 22
- 24 Q: One second. I just want to spell those

lang.

Page 89

- So that's truly --
- 2 Q. And at this point do you feel that the
- 3 Purko clan at large has hostility towards Enashiva?
- 4 A. The only -- I don't know if I want to
- generalize like that, because it may not be just the
- Purko. It could be just, basically, Maanda and some
- of the people that have cows that she can bring onto
- our property or her young lawyers that come onto our я
- property illegally. So I don't know if it's only
- Purko or if it's, you know -- I don't know. This is 10
- 11 what I'm told.
- 12 O. And but the lawsuit in Tanzania is on
- behalf of three separate communities, Mondorosi,
- Soitsambu and Sukenya against ---
- 15 A. Yes.
- and others. 16 Q.
- 17 A. Uh-hum.
- 18 Q. So that doesn't sound like a small group.
- 19 A. It's a small group. It's a small group.
- 20 Q. Can you explain?
- 21 A. Yeah. You would not, you would not see
- very many Sukenyan people that are against us in any
- way. Loserian had made a decision, for whatever 23
- reason, which I will not say here, but whatever 24

- didn't really see whether he signed or his attorney
- 2 or whoever signed this, the injunction or whoever
- signed this thing here now to have you guys come 3
- here and do what you're doing. I don't know if he
- signed it or not. In the end, it should actually be 5
- finalized. We should just say, let's get this thing 6
- 7 moved forward. EarthRights, Minority Rights groups
- and all of us should work together to try and figure
- out how we can move forward. 9
- Q. So I'm really just trying to understand 10
- what you think is really happening there. And I
- know that you don't, you know, everything, a lot is 12
- hearsay. 13
- A. Yeah. 14
- Q. But I'm trying to understand what you 15
- think is actually happening to cause Loserian --16
- A. I think that I very much appreciate a 17
- 18 chance, Jonathan, to answer that, because this is me
- 19 and this is what I think.
- There was a movement, when we were 20
- first on this property and we were working together
- with the elders. We were putting up a teacher 22
- houses, we were putting up a bore hole. We started 23
  - to see some things that a few people were very

Page 90

Page 92

- reason, to sign this court case. I would say under 1 duress, but that's okay. 2
- You know what? Maybe it's good for 3
- it all to be settled and everybody will figure out 4
- who this land really belongs to, because we have a
- titled deed piece of land. We have a title. We 6
- have bought a titled piece of land with good 7
- 8 intentions.
- And do I think the rest of the
- community is against us? No. When were you guys 10
- last there? You haven't been there to find out 11
- 12 whether they're really against us. I know you're
- probably talking to a few of the leaders, a few
- 13
- people, a few of the lawyers. I don't feel that way 14
- or I wouldn't be there. 15
- 16 Q. Why did you say that Loserian may have
- signed under duress? 17
- 18 A. Because we were told by Loserian himself
- and I don't know, you know, who to believe. I was 19
- told by the women that know him that were there 20
- that, you know, we have women who are part of 21

forward and he's continued to do whatever he needs

- council who were there. But Loserian's moved 22
- to be. Perhaps he signed this. I don't know. I

- upset, came and ruined the bore hole, brought a lot of cattle on the property, and that was, that we now
- know was Maanda giving -- I can't even say that for
- sure -- Maanda giving directives that that was 4
- happening. 5

6

- What I do know is that as African
- Initiatives and a lot of people got wind of horrific 7
- things that we had maybe done, the bankroll did get
- a lot larger for PWC. And we see it every year. We
- know that Minority Rights Group -- I don't know if 10
- 11 EarthRights does this or not, I haven't looked at
- who's supporting. We see people supporting that
- went, it's now \$717,000 that PWC brings in. There's
- got to be a reason for keeping the conflict going 14
- and there's got to be a reason why -- Show me 15
- anywhere here where there's harassment, where 16
- 17 there's murder, where there's these terrible things
- that all of you are saying about us, where is it? 18
- Why are we not in jail? Why would the communities 19
- 20 allow us to stay?
- There's a lot of conflict and people 21
- 22 make money off conflict, a lot of money. And I think that's really why it's happening. And I don't 23
- think it's about the land. I think it's about the 24

Page 93

- conflict.
- 2 Q. So to be clear, again, you think that PWC
- is using the conflict to raise money?
- 4 A. I think that's one of their agendas, along
- with a lot of other groups.
- 6 Q. What other groups?
- 7 A. UCRT, Minority Rights Group, African
- Initiatives, perhaps EarthRights, perhaps Cultural R
- Survival. People believe this. People believe we 9
- have done these things. And I can't believe we're 10
- sitting here -- You guys, if I asked do you think 11
- that we did these things, Jonathan, do you think 12
- that we did these things?
- 14 Q. I'm not going to answer the question. But
- please do understand that the reason why I'm asking 15
- 16 you these questions today is to really understand as
- best I can and as best we can about what the truth 17
- is here. 18
- 19 A. Well, the truth is, I can tell you. We
- would -- My life is in Tanzania. Why would we hurt 20
- 21 anybody? Why wouldn't the community, as Robert
- Aswani said who does artwork in Tanzania and he read 22
- the Boston Globe article. He said, What? What do 23
- people think about us? Are we foolish Tanzanians, 24

- O. How do you know that the elders thought
- that they were proposing that --
- A. This is, well, you know, there's no
- written, as you know, in Tanzania, Maasai, there's
- no written anything. So this is all oral. And I
- mean, that's -- You don't know. I don't know. You
- don't know. I don't know. So that's what I'm
- hearing and that's what I'm reporting to you. I'm
- hoping to help you put the puzzle together a little
- bit better, sincerely, because I think that you may 10
- not have the truth. And I have no reason to not
- tell you the truth. No reason. 12
- 13 Q. You seem to feel that, from what I'm
- hearing from you, is that Maanda has the ability to 14
- exert a fair amount of power. Where does that come 15
- from? Why is Maanda, why do you believe that Maanda
- is able to mobilize this? 17
- A. Why is she able to mobilize this? She has 18
- 19 a lot of power and power works very well with
- people. And I think that they believe that this 20
- very small piece of land -- although to you and I 21
- 22 and all of us, our houses are not on 12,000 acres,
- but this is a peanut, a little, teeny piece of
  - Loliondo.

2

Page 96

- we would keep you in our community if you were doing
- these terrible things? Why do people think so 2
- little of us as Tanzanians? They don't even do 3
- lawlessness like this in Somalia. Why would they
- think that we would allow a lawless group of 5
- Americans to come to our country and do this? And I 6
- think that's --7
- 8 The point is we haven't done any of
- 9 it. Loserian is on record after record after record
- that I have given to you saying we did not do these 10
- things. He has talked to Focus on Tanzania and 11
- 12 Communities. The DC and all their people just
- recently said, They did not do these things. So why 1.3
- would you believe anything else? 14
- 15 Q. Can we get back to why -- What did
- Loserian tell you about being under duress?
- 17 A. Loserian mentioned that he did not want to
- actually do the court case, but that the elders, the 18
- Maasai elders suggested that he do that, that he do 19
- the court case. But it wasn't the court case that 20
- they were suggesting. They thought that Loserian 21
- 22 was signing something to come to agreement with Thomson Safaris. And he ended up signing whatever
- he signed. 24

- I think that they have rallied
- around the fact that perhaps this land will come
- back to them. I'm not even sure that -- That's what
- I think. And why does Maanda think that? She told
- me in a meeting, the only meeting that we had
- together was that she was sorry that this had taken 6
- off and other people, young lawyers and other people 7
- were jumping on the band wagon and they were moving
- this thing along and she didn't have control of it
- any more. So that was, whether it's true or not, I
- don't know whether she still has control of it. I 11
- 12 don't know.
- 13 I think what's most important is
- that we move forward, get this taken care of, the 14
- 15 court case taken care of, and move on.
- 16 Q. Let's move back to some of these
- 17 documents, then, so that we can understand them.
  - MR. KAUFMAN: I'd like to ask the
- court reporter to label this as W-9. 19
- 20 (Exhibit W-9 marked for
- identification.) 21
  - (Document handed to the witness.)
- 23 Q. Is this an e-mail from Daniel Yamat to
- Rick, with you copied?

Page 97

- 1 A. Yes.
- 2 Q. Have you read this e-mail before?
- 3 A. Yes, I've read it, but I might have to
- read it again, but go ahead.
- 5 Q. In the e-mail alks about a
- meeting with villagers, as well as some government 6
- members and Loserian Minis. And he comes out of it
- suggesting that, We should only allow locals to 8
- bring cattle for water to come in and straight back 9
- and that for grazing, they would only discuss it 10
- during a severe drought. 11
- Did you agree with that suggestion? 12
- 13 A. I wouldn't be the person to agree with
- that. I'm cc'd on this. It would not, it would not
- be me.
- 16 Q. Would it have been
- A. It probably would have been weah.
- 18 Q. Was that of the policy of TCL, to your
- knowledge, that people would able come on for water
- and not for grazing except in drought?
- 21 A. The -- As we worked with the grazing
- committee and as we worked with our neighbors, the 22
- grazing policy was pretty standard, but we added
- drought times, this time, what happens if this

- 1 O. It certainly sounds like over the years
- you had that discussion many times.
- 3 A. Yeah, we did. You didn't want to talk
- about the district police officer saying that it's
- against the law to go onto somebody else's property.
- Q. I think the decision was that we'll talk
- about some of the sort of interactions with police
- officers tomorrow.
- 9 A. Okav.
- O. Or you will talk about them in course. 10
- MR. KAUFMAN: I'd like to ask the 11
- 12 court reporter to label this document as W-10?
- (Exhibit W-10 marked for 13
- identification.)
- (Document handed to the witness.) 15
- 16 Q. Is this an e-mail from to you
- 17 and and to again about
- 18 A. Yes.
- Q. Have you read this e-mail?
- A. Yes. I don't remember it, but I've
- probably read through this.
- Q. At the top of the e-mail, again, sorry, in
- the second paragraph he says, I know the main agenda
  - will be water, but in reality it is grazing. We

Page 98

- happens, what happens if that happens. So I don't
- really know. I mean, this is 2008. This is at the 2
- very beginning. 3

- We're having a conversation here 4
- about grazing and water and what we should do and 5
- what works. I mean, I think that's wonderful. 6
- That's how it all happens.
- 8 Q. And what I'm trying to understand is,
- again, how access changed over time. And I'm trying 9
- to understand if that was ever actually a policy at 10
- that --
- 12 A. In one of the iterations of the grazing
- 13 policy. I don't know, because what's interesting to
- me as I read this is, and will have to actually 14
- speak to this, is that, like I said to you before,
- to bring cattle or on for water, there's a line to
- bring them on for water, which would mean that he's 17
- bringing on cattle that don't want to walk as far 18
- for water, so -- And then he doesn't want them to 19 stay very long. 20
- So I don't really know. I don't 21
- 22 really know what this is. But will be able to
- shed light on that, because we were always having 23
  - these discussions. How do we do this?

- Page 100
- have allowed them in the past to access some water
- holes which don't give them any room for grazing.
- Now I am sure they are focusing on the water holes
- which are far inside that will give them access to 4
- grazing, too.
- Do you know which water holes he's
- talking about?
- A. Nope. But will be able to help you
- with that. You know, as far as I know, we've got
- the pololet and the spring. What might happen --10
- You should ask tomorrow, because I think it 11
- will become clearer as to -- So there's a lot of 12
- water on the property. If there's water because 13
- there are holes because it rained. The question
- would be do you let the Maasai onto those watering
- 16 holes when there's water elsewhere. And I think
- that's what you're reading here. 17
- This isn't like this is the only 18
- place that has water in the world. The question is 19
- should we bring the cows on and let them eat the 20
- grass on the way to getting the water. But 21
- will be able to clarify that bitter.
- Q. I do want to pick up on one thing that you 23

Page 101

- 1 A. Sure.
- 2 Q. -- a couple of, one or two questions ago,
- 3 that some in some ways another one of the questions
- was that the cattle would not want to go as -- they
- wouldn't want to make their cattle go as far for
- 6 water. So was that an issue? Were those things
- 7 that you talked about, whether there was a problem
- 8 with making cattle go further to get to water by not
- 9 allowing them to certain places?
- 10 A. You know, that's a great question. I'm
  - 1 not privy to that. That's a little bit deeper. I'm
- 12 kind of here where you and I are reading, but it's a
- 13 good question. Again, I'd have nswer that.
- 14 Sorry to keep saying that, because as you will see
- 15 most of this I'm cc'd on, but I'm really not making
- 16 the decisions. And I think will probably talk
- to you about the fact that the Maasai travel a lot,
- as we talked about today, to get to what they need
- 19 as they move around. So he can answer that.
- 20 MR. KAUFMAN: I would like to ask
- 21 the court reporter to label this as W-11.
- 22 (Exhibit W-11 marked for
- 23 identification.)
- 24 (Document handed to the witness.)

- 1 sentence in the first paragraph.
- 2 Q. The committee is also insisting that we
- 3 should allow people to graze.
- 4 A. Let me see the date. This is October, dry
- 5 season. Okay.
- 6 Q. So would that have been the grazing
- 7 committee that he's talking about?
- 8 A. Can I read it? Let me just read through
- 9 this. Oh. That would be the grazing committee
- talking about the cattle from Kenya.
- 11 Q. Yeah. says that most of the
- cattle that would come in were from Kenya at that
  - time. How could they be identified as being from
- 14 Kenya?
- 15 A. These guys know their branding. They
- 16 would, they know who, what -- They totally know what
- 17 cow belongs to whom.
- 18 Q. That's because cattle are wealth for these
- 19 guys.
- 20 A. I know. They know it all.
- 21 Q. says, It is a bad coincidence
- because it's a bad time of the year for them and
- 23 this is the time that we have clients who want to
- 24 see wildlife, too.

Page 102

- 1 Q. Is this an e-mail from 2 and to you, again, about --
- and to you, again, about --
- 3 A. I don't know what it's about.
- 4 Q. About
- 5 A. Something about yeah.
- 6 Q. Have you read this e-mail before?
- 7 A. I read -- I looked at it, read through it.
- 8 Don't remember too much of it.
- 9 Q. The third page of this document, it's
- 10 double-sided, so the front of the second paper
- 11 there's a section called Grazing Problem.
- 12 A. Oh. That's not what you have got on the
- 13 top of yours. This one?
- 14 Q. Yeah.
- 15 A. Okay, got it. Okay.
- 16 Q. Says that the committee is
- asking permission to, for permission to graze
- 18 cattle.
- 19 MR. MARX: I'm sorry, which
- 20 paragraph are you on?
- 21 MR. KAUFMAN: It says --
- MR. MARX: The first paragraph under
- 23 Grazing Problem?
- MR. KAUFMAN: Yes. The last full

- 1 A. Yeah, this is October. This is dry
- 2 season. So not only do we have Kenyan cattle trying
- 3 to come through. The committee is feeling the
- 4 pressure to have them come on during dry season.
- 5 And he's suggesting, as we're talking about the
- 6 problem, that this is unfortunate. This is going to
- 7 be really difficult. I totally get that, because it
- 8 would be really hard at that time.
- 9 Q. Because this is also high tourist time?
- 10 A. Actually, it's not high tourist time, but
- 11 they had clients there. So, you know, he's toying
- with the idea, what do we do? It's dry season, not
- 13 drought season, but it's dry season. Should we let
- 14 them come on? We've got this Kenyan pressure that's
- 15 coming down, as well. And we've got wageni who are
- there to see the wildlife. If the cattle come in,
- 17 the wildlife disappear, we're up a creek. So he's
- 18 trying to figure all of this out is what I'm seeing
- 19 here and that's it.
- 20 Q. I know you said that you're not a
- 21 specialist in the science of it.
- 22 A. Yeah.
- 23 Q. But to your understanding there is some
- balance at which cattle and wildlife can coexist?

Page 105

- 1 A. No, I don't know that. Jonathan, I think
- that's -- You see later on in e-mails that I have 2
- 3 sent, we have been talking about doing a biomass
- study. We have gone to Kenya. We have talked to
- We have done a lot of research to 5
- figure out how much, what does this land hold? What 6
- can it hold? So that when the land is finally, the 7
- court case is over and hopefully it comes our way, 8
- then we can say, yes, we can balance cattle with 9
- these amount of grazers. We can do -- But we are 10 not there. It's not that easy to do that. 11
- And all of these e-mails, other 12
- ones -- This is 2008. You will see us talking 13
- about, how will we figure this out? Because
- everybody, like you and everybody else says, Oh, 15
- cattle and wildlife can live together happily ever 16
- after. We're not sure that's true, because as we
- saw that 3,000 come onto our property and totally destroy the land, we lost our wildlife. We had very 19
- little wildlife on the land. So we could see that 20
- that wasn't going to work.
- 22 Q. Do you know how the pressure was resolved
- at this time?
- 24 A. I would -- I don't know. I don't know the

- it being an altercation or anything. No.
- 2 Q. Do you know if that person --
- 3 A. It's still there or not?
- 4 O. Moved his boma?
- 5 A. No, I don't know. Sorry about that.
- 6 Q. Are you aware of other times when people
- from the surrounding communities built bomas very
- close to the property boundary?
- A. Not from the surrounding communities, no.
- Q. But from other places? 10
- A. There was a Kenyan who was, had
- unfortunately had part of his boma, his engagi on
- the property and that had nothing to do with
- anything from us. Engagi, e-n-g-a-g-i. And the 14
- government asked him as a Kenyan to please move on.
- And we weren't even part of all this. That's the 16
- 17 only one I know about.
  - The only thing I know about in terms
- of people on the, that are -- Your question was did 19
- 20 I know about people putting their bomas on, engagis
- on our property.
- Q. I asked close to the property.
- 23 A. Close to the property, yeah. He was right
- up on the edge, but unfortunately, he was partly in

Page 106

18

Page 108

- answer to that.
- 2 Q. In the third paragraph on that page.
- 3 A. Yeah.
- 4 Q. You might want to take time to read it.
- 5 A. Yeah.
- 6 Q. It's discussing an incident where someone
- built his boma just outside the property boundary.
- 8 A. Yeah, I see that. I don't remember this
- very well. I kind of remember them talking about
- 10 it. Go ahead.
- 11 Q. Why was it a problem for someone from the
- surrounding communities to build a boma just outside
- the property boundary?
- 14 A. Because it's pretty hard to control your
- cattle. I mean, it would be just be that much more 15
- difficult to control the cattle in that area.
- says, The committee decided
- that we report to the village administration to come
- to push him away, as he has no reason whatsoever to 19 20
- Do you remember that resolution?
- 22 A. No. I have no idea.
- 23 Q. So do you --
- 24 A. I don't remember that. I don't remember

- there. But that wasn't the issue. The issue was he
- was a Kenyan and the government asked him to go 3 home.
- 4 Q. What's an engagi?
- A. Engagi is actually what you call a boma,
- that people mistakenly call a boma.
- MR. KAUFMAN: I'd like to ask the
- 8 court reporter to label this as W-12.
- (Exhibit W-12 marked for 9
- identification.) 10
  - (Document handed to the witness.)
- 12 Q. Is this an exchange from 2009 between you
- about matters at and
- 14 A. Yes.

- 15 Q. Look at the second page, so the back of
- the first page for you.
- 17 A. Yeah, is that -- Wait. June 2009. Okay.
- 18 Q. At the top of the page
- talking about meeting with the new DC. He told the 19 20 DC that we only have one seasonal natural spring in
- the area and we have never restricted anyone from 21
- using it. 22
- 23 To your knowledge is that true?
- 24 A. I don't know. Seasonal natural spring is

Page 109

- the operating word here, so I don't know. When the
- 2 spring is in use, when there's water in that spring,
- 3 my recollection would be there's water everywhere.
- 4 We have had people come in and use the natural
- 5 spring at the very beginning and probably even now,
- 6 but I don't really know how often that happens.
- 7 Q. And the natural spring we're talking to is
- 8 not the pololet?
- 9 A. No, it's that other one.
- 10 Q. Whose name you couldn't remember?
- 11 A. Right.
- 12 Q. So you're not sure if that's true, whether
- 13 people have ever been restricted from using it?
- 14 A. If there's no water in the spring, I would
- 15 imagine people would be restricted from using it.
- 16 Q. If there's no water in the spring?
- 17 A. Yeah.
- 18 Q. But if there is water in the spring?
- 19 A. I would imagine that occasionally we would
- 20 allow them to come and use that. For whatever
- 21 reason, I don't know.
- MR. KAUFMAN: I'd like to ask the
- 23 court reporter to label this document as W-13?
- 24 (Exhibit W-13 marked for

- 1 (Document handed to the witness.)
  - 2 Q. Is this an e-mail chain between you and
- a ind others talking about a cattle
- 4 grazing incident at Enashiva?
- 5 A. Yeah.
- 6 Q. Looking at the very bottom, the first
- 7 e-mail at the bottom of the chain?
- 8 A. This is 2010.
- 9 Q. This is 2010. You are asking
- the situation is for patrolling the
- area. I take it this means on the far side of the
- 12 pololet river?
- 13 A. On the opposite side, yeah.
- 14 Q. And that's on the opposite side from the
- 15 camp, from the safari camp or the base camp?
- 16 A. It's on the other side of the pololet,
- 17 yeah, away from, away from the camp.
- 18 Q. And you are saying that we've been letting
- cattle onto the other side, since we can't get rid
- 20 of them when there's water in the river. What was
- 21 the situation there?
- 22 A. This is telling us this.
- 23 Q. You are asking him.
- 24 A. Oh, I'm asking him at the bottom here.

Page 110

- 1 identification.)
- 2 (Document handed to the witness.)
- 3 Q. Is W-13 an e-mail chain between you,
- 4 again about matters at
- 5 A. Looks like it, yes.
- 6 Q. Have you read it before?
- 7 A. Yes. I think it's a duplicate. Yes. I
- 8 think you maybe gave me two. Do you have one?
- 9 MR. MARX: I have one. It's four
- 10 pages.
- 11 THE WITNESS: I've got one that's
- 12 eight pages. I think I've got yours.
- 13 MR. KAUFMAN: I gave you an extra
- 14 one.
- 15 A. Okay, good.
- 16 Q. This doesn't actually seem to be the one
- 17 that I wanted to talk to you about.
- 18 A. Okay.
- 19 Q. We'll move so. I'll get back to those
- 20 questions when I can get it sorted.
- 21 MR. KAUFMAN: I'd like to ask the
- 22 court reporter to label this document as W-14.
- 23 (Exhibit W-14 marked for
- 24 identification.)

- I'm asking him. That's my confusion is asking them to clarify this, because they're talking about there
- 3 were hundreds of cattle near the pololet. That's up
- 4 top, when it says on Friday, July 23rd. There were
- 5 hundreds of cattle near the pololet. There's not
- 6 water in the river bed. So I'm saying, What's going
- on here? And we can't cross it? There's no water
- s in the river and we can't cross it? We can't get
- 9 rid of them? We can't cross the river if there's no
- 10 water. I'm asking what the policy is and how this
- To water, I in asking what the policy is and now this
- all happens and you, like me, I do not have the answer.
- 13 Because these things get themselves
- 14 sorted out. I mean, I hope you're seeing a theme
- 15 here, that we're trying to figure out -- This is
- 16 land that's titled, deeded land. We're trying to
- 17 work this out somehow. And six always trying
- 18 to figure this out. And I'm, and I'm calling them
- 19 out. I'm saying, Look, I don't understand what's
- going on, what's happening here. And I promise you,
   I do not know what happened. And it's just one of
- I do not know what happened. And it's just one of the, as you have been reading, one of the many
- 23 things that's happened.
- 4 Q. So at this point you're not sure what the

Page 116

Page 113

- answers to those questions were?
- 2 A. I don't think -- I think I just stirred it
- up to ask them, because this goes up 28th,
- July 28th, July 28th at 12:54. They come back at
- 1:14. He's answering this. This is going upward.
- 6 Q. But he doesn't appear to actually answer
- 7 it?
- 8 A. No, he doesn't appear to totally answering
- it. He is just telling me that they are not
- accompanied by anyone. The herder escorts them in
- and then leaves them, which happens quite often. So 11
- 12 I'm asking them what's going on. And that's just
- 13 one of the many. So I don't have the answer.
- 14 O. So you don't know if it was the case that
- when the river was running, they weren't --
- 16 A. No, because -- No, I don't. Sorry.
- 17 Q. And you never, as far as you can remember.
- you never got that answer offline?
- 19 A. Yeah, you know, in July, maybe I'm headed
- there. So we talk about it when I'm there. I don't
- have it -- I'm sorry. Because it's funny, he didn't 21
- answer it up here. 22
- 23 MR. MARX: I'm sorry. I need to ask
- for another quick break.

- we? So we decided -- So we then had our
  - conversation and I went back and forth and said,
    - aid there's no water in the pololet. I
  - think we did this one by phone. I can't remember. 4
  - It might be. It might not be. It's August.
  - There's no water in the pololet. I said, Look,
  - let's hire or call in the district or whatever we
  - had to do, call in the district water board and
  - everybody gathers around and we take pictures if
  - there's water in the pololet. And you see what
  - happened. She didn't show up, she didn't come and
  - there was no water in the pololet. That's the
  - harassment I've been getting, we've been getting
  - forever and ever and ever.
  - O. And so in this case the district water 15
  - officer came?
  - 17 A. This fellow whose name -- I think it's in
  - here. I actually tried to find this for you guys,
  - Wait. It's over here on the back. His name is in
  - here, I think. I tried to find this for you so I
  - could show it to you, but he came. I'm just trying
  - to see where this is. I don't see his name here,
  - but his name is in one of the pieces that I've given
  - to you, because I was curious as to how I could get 24

Page 114

- a copy of that for you.
  - There's the name of the spring, 2
  - e-l-o-t-i-m. I'm on Page 4.
  - 4 Q. Where are you?
  - 5 A. Just in case we want to use that again.
  - 6 Q. Elotim?
  - 7 A. Yeah. These will roll off of
  - tongue, but not me.
  - 9 Q. So mid-August is dry season?
  - 10 A. Yeah, it is dry season.
  - 11 Q. When does dry season start again?
  - 12 A. Rains are April and maybe May, so it
  - starts drying up after that. So by August, 13
  - September. And you get another set of rains in
  - November. So by August, September, we're looking 15
  - pretty dry. 16
  - 17 Q. And July also would be pretty dry?
  - 18 A. I would say that July, I would think July
  - is pretty dry. It depends on what the rains were
  - like that year. Sorry. I mean, yes, I would have 20
  - 21 thought that.
  - 22 Q. And at the top of Page 4, you say --
  - 23 A. Four, one, two, three, four.
  - 24 Q. The one that's actually labeled 4?

1 MR. KAUFMAN: Sure, no problem.

- 2 (Brief recess.)
- MR. KAUFMAN: I would like for the 3
- court reporter to label this document as W-15? 4
- 5 (Exhibit W-15 marked for
- identification.) 6
- (Document handed to the witness.) 7
- 8 A. Rosie.
- 9 Q. So is this a correspondence that you had
- with Rosie where you forwarded and discussed your
- conversation with Maanda? 1.1.
- 12 A. Yes.
- 13 O. So this correspondence discusses an
- incident where Maanda contacted you and asked to
- bring cattle on to get water at the pololet river.
- And you, I believe, responded that there wasn't any 16
- water in the pololet river? 17
- 19 Q. And how did you know that there was any
- water in the pololet river at the time?
- 21 A. Well, I was asked -- asked. I said to
- everybody, What do you think? I mean, it's August 22
- and they need water and there's water in the
- pololet, which didn't make sense to me, why wouldn't

Page 117

- 1 A. The one that's actually labeled 4. Roger
- 2 that.

19

- 3 Q. So at the top of Page 4 you said that you
- 4 heard that it rained over the past weekend?
- 5 A. Yes. Now, wait. This is in July. Yeah.
- 6 There's like, yeah, there's like a small gift from
- 7 God. It rained.
- 8 Q. But even after a rain in July, there would
- 9 not have been water in the pololet?
- 10 A. Okay. After a rain in July -- Because
- 11 that was in August -- She was asking me --
- 12 Q. At the end of July.
- 13 A. I think she was asking me at the end of
- 14 July. So I wrote back to an and I'm trying to
- 15 see if it's here to say, Is there water in the
- 16 pololet. And he wrote back and said no. So there
- 17 was no water in the pololet.
- 18 Now, those rains would probably not
  - cause a lot of water to be there. And the second
- 20 thing would be, which is a question that we all
- 21 would have sitting at the table, if there's water
- 22 in the pololet, there's water everywhere. There's
- 23 water encatchments when it rains. Why do you have
- to come across our property to go to the pololet,

- 1 was no water in the pololet.
- 2 Q. At that time would there have been water
- 3 in elotim spring?
- 4 A. Idon't know. Good question. Idon't
- 5 know. I wish was here. He could answer all
- σ of this. I don't know. will know. He'll have
- 7 a better idea.
  - Wait. Could I -- I offered -- I
- forgot to mention to you this as my addendum to what
- 10 I just said. I offered to have the well fixed so
- 11 they could get water. And you saw what she said.
- 12 No, we don't want your help on that. We just want
- 13 to get water at the pololet. We actually offered to
- 14 actually get that well fixed, because that didn't
- 15 exist. And I'm just bringing that, I want that on
- 16 record, that we offered to get water to all her
- 17 cattle and she refused it. Think about that. Why
  - s would you do that? So, sorry. I'm done now.
- 19 MR. KAUFMAN: I'd like to ask the
- 20 court reporter to label this document as W-16.
- 21 (Exhibit <u>W-16</u> marked for
- 22 identification.)
- 23 Q. Is this an e-mail chain between you,
- and others?

Page 118

Page 120

- unless you're harassing me? Seriously. There's
- 2 water everywhere if it just rained. Or there's no
- 3 water anywhere and there's no water in the pololet.
- 4 Q. The pololet, does it cross the property?
- 5 A. No. No. I don't know. It's at the end
- 6 of our, it's at the end of our property, toward the
- 7 end of our property before it goes up a hill.
- 8 Q. What I mean is there parts of the pololet
- 9 outside of your property?
- 10 A. Yes.
- 11 Q. And is the section of the pololet in the
- 12 property a long section?
- 13 A. I can't answer this. You're going to
- 14 catch me. I'm really sorry. Ask
- 15 to aski
- 16 Q. In the end did you decide to allow
- 17 Maanda's request to have cattle grazed?
- 18 A. No, because she was harassing me again,
- 19 us. There was no water in the pololet. Why come
- 20 across the property with 500 cattle? You know, I
- 21 wrote back to her. I mean, I thought, wow, good
- 22 that we're starting the conversation again, but it
- 23 made no sense that she wanted to do that. In the
- 24 end, you know, so -- It didn't happen. And there

- 1 A. And yeah.
- 2 Q. The name
  - In the second paragraph of this
- 4 e-mail on the first page you say, I also understand
- 5 that our no grazing policy has been difficult for
- 6 them to swallow.
- 7 What do you mean when you say no
- 8 grazing policy?
- 9 A. Remember, the grazing policy, the no
- 10 grazing policy is you didn't automatically have the
- 11 right to come on the property to graze. You have to
- 12 ask. If it's a drought, you have to ask and we'll
- 13 help you or do whatever we can at the time or assess
- 14 what we can do, but no grazing means that you
- 15 automatically don't have the right to bring your
- 25 Automaticany don't have the right to bi
- 16 cattle onto the property.
- 17 Q. So no grazing policy means no grazing
- 18 policy?
- 19 A. No. There's a grazing policy that has no
- 20 grazing unless you ask. So it doesn't really mean
- 21 no grazing all the time. I think I've been clear
- 22 that if there's a drought, things are different.
  - We're being so liberal, we even say,
- 4 So we may need to actually help find someone to help

Page 124

Page 121

- them advocate for themselves. 1
- MR. KAUFMAN: I'd like to ask the 2
- court reporter to label this document as W-17? 3
- (Exhibit W-17 marked for 4
- identification.) 5
- (Document handed to the witness.) 6
- Q. Is this an e-mail from you to
- others sharing your draft e-mail to Noni
- Verbiscar-Brown? 9
- 10 A. Yeah. Could you remind me who that is?
- 11 O. Verbiscar is V-e-r-b-i-s-c-a-r. You can
- take a moment to refresh your memory.
- 13 A. She is -- Yeah, this is from what I
- remember -- Oh. Okay. I still can't place Noni for
- some reason, but go ahead.
- 16 O. So you don't actually remember this?
- 17 A. I remember this, but this is out of
- context for me at the moment. This is October and 1.8
- August. And I think I gave this to you and I have 19
- to think. August. So she came to me in August,
- asking me how this would all work and this is my 21
- retort. Okay. 22
- 23 Q. In the draft that you start just below
- your signature on the first page, you say in the

- need to go up there and meet with the elders and
- talk to them and get them on board and just explain
- what your model is, what you're trying to do here. 3
- And so, but he said that your conflict is not the
- land. The conflict already exists, because it's 5
- these three groups of Maasai who are having a
- hard -- they're in conflict. So that's what he's, 7
- that's what I believe he's saying that I was
- repeating here, that the land was not -- The land 9
- and the ownership of the land maybe would be the 10
- pivotal point, but the problem and the conflict was
- more about the clan conflict. 12
- O. And when you wrote again -- You know what?
- Actually, I think we can move on.
- 15 A. Okay.

16

19

- MR. KAUFMAN: I'd ask the court
- 17 reporter to label this document as W-18.
- 18 (Exhibit W-18 marked for
  - identification.)
- (Document handed to the witness.)
- Is this an e-mail to you from 21 O.
- alking about the carrying capacity study 22
- that we discussed earlier?
- 24 A. Let me just see. I'm just seeing if

Page 122

- first paragraph that you worked with a conflict
- resolution specialist, only to have them agree that 2
- the conflict about who owns this piece of land was
- actually not a conflict.
- Who was the conflict resolution 5
- specialist? 6

1

- 7 A. I don't -- In August or whenever this is
- happening -- In October of 2008. I believe at that
- point in time I'm working with Eamon Brehmony.
- 10 Q. Can you spell that?
- 11 A. He's in one of these, but E-a-m-o-n, last
- name B-r-e-h-m-o-n-y. That's close enough. 12
- 13 Q. Can you tell us about how you worked with
- Eamon on conflict resolution? 14
- 15 A. Sure. I met with Eamon. I met with
- Eamon. who was our thought
- that Eamon might be able to help us. He knew Maanda 17
- 18 very well. I think he supported or taught her at
- school, knew her from Ireland, knew Brian 1.9
- MacCormiac, knew a lot of people that were kind of 20
- 21 rea, not happy with those two
- people or three people in particular who weren't 22
- happy with us having this piece of land. So we 23
- wanted to speak with Eamon. And Eamon said, You

that's what this is about. What's the, what's the

subject? Draft Invitation to the ECHO East African

- Symposium on Best Practices in Pastoral Areas.
- Yeah. Looks like this is basically about carrying
- capacities. This is the thing we were talking about
- before. Yeah, yeah.
- Q. At the bottom of the first page he writes,
- See attached pictures, one of the whole farm and one
- showing the northeast corner where we have bomas and
- 10 farms inside
  - So in your understanding is he
- saying that at this point people actually had built 12
- 13 structures inside

11

- A. Good question. Good sleuthing. No. We
- found out that there are, there's a boma inside our 15
- property that we didn't know about. And there is 16
- one, but it's not -- So it's not been built. All 17
- 18 the questions you have asked me. It's been there
- all along. We just didn't know that our land went 19
- to the far corner where this place is.
- 21 Q. Do you know who lives in those bomas?
- 22 A. I'm trying to give you a name, but the
- family of a fellow who ended up in the hospital.

I'm sorry, I can't remember his name.

1/2

Page 125

- able to tell you very quickly tomorrow.
- 2 Q. Was that the man who was shot?
- 3 A. Somewhere, yeah. Not on our property, but
- 4 somewhere.
- 5 Q. Lesingo Ole Nanyoy?
- 6 A. Nanyoy's family. I think that's who that
- 7 is. Reconfirm with comorrow, if you would,
- 8 please
- 9 Q. Was this e-mail, to your knowledge, the
- 10 first that you had heard that there was actually a
- 11 boma inside roperty?
- 12 A. Oh, I don't know. What is the date? Oh,
- 13 my God. January 2014? No. I don't remember when
- 14 that survey happened. And this would be January of
- this year? There was talk about this, and I don't 15
- 16 know when this survey was done. I don't know when
- 17 that survey was done. So I might have known that.
- 18 This was the survey, the boma survey that he had
- 19 done, because this is talking about the South
- 20 African that was going to help us with this carrying
- 21 capacity. I don't know that this is the first time
- 22 I knew that, Jonathan. I may have known before
- 23 that, but he's mentioning it here.
- 24 O. You mention --

- unfortunate, because what do you do? What do you
- 2 not do? How do we make this work? Blah, blah. It
- 3 stirs up a lot of issues. You can leave them. You
- 4 can ask them to leave. You can either -- There's
- 5 many different things that you can do when you have
- 6 got a problem. It's a problem, you know, just
- 7 because they're on our property and we don't want to
- 8 displace them. It wouldn't be one of the things I
- 9 would choose, but so anyhow, that's where we are.
- 10 Q. So what's happened so far with that?
- 11 A. Nothing, nothing at all.
- 12 Q. Has anyone informed him?
- 13 A. I don't know. That's a really good
- 14 question. I don't know. You know, I don't know.
- 15 Q. But to your knowledge, this is the only
- 16 situation in which you have discovered that there
- 17 were people living on the land?
- 18 A. Yeah. I told you about the Kenyan one.
- 19 That was ages ago, back in 2007. The government
- 20 asked them to move home. Yes. Why? Do you think
- there are more? What do you know that I don't know?
- 22 Q. What do you know that I don't know?
- 23 A. I don't -- That's all I know.
- 24 MR. KAUFMAN: I'd like to ask the

Page 126

Page:128

- 1 A. He's trying to do a boma survey of
- 2 everything outside around the property and he's
- 3 mentioning that there's one inside that corner of
- 4 our property.
- 5 Q. To your knowledge, how was it discovered
- 6 that there actually were bomas inside?
- 7 A. Well. will be able to tell you, but
- 8 the, some district surveyor was on the property,
- 9 because the place hasn't been totally -- all of the
- 10 land, the village land hasn't been surveyed and they
- 11 were looking at our property for, I'm not sure what
- 12 reason. And we, what I heard the story was that
- 13 somebody said, well, you know, it ends here. And
- 14 the guy said, It doesn't end here. It goes to there
- and it goes here and that boma is on your property.
- 16 We said, No, I don't think so. He said, It is.
- 17 Q. Do you think that happened maybe last
- 18 year, or?
- 19 A. I don't know, but will know for you
- 20 for tomorrow.
- 21 Q. And how did you react to the discovery
- 22 that there was someone living on the property?
- 23 A. Well, probably the same way all of you,
- 24 all of us would. It's great and yet it's

- 1 court reporter to label this document as W-19.
- 2 (Exhibit W-19 marked for
- 3 identification.)
- 4 (Document handed to the witness.)
- 5 Q. Is this document, is W-19 a spreadsheet
- 6 that was prepared with
- 7 the allegations against
- 8 A. Yes
- 9 Q. On the first page on the first cell on the
- 10 far right under esponse he writes, On the
- 11 other hand, there are about eight bomas within the
- farm boundaries to date on the northern part which
- have never been asked by
- 14 farm. This includes Maanda Ngoitiko's family boma
- 15 (now two bomas), Ole Nanyoi (now four bomas), Ole
- 16 Naimodu (now one boma), and Meitaya (now one boma).
- 17 Have you ever heard before that
- 18 Maanda, Ole Naimodu and Meitaya, in addition to Ole
- 19 Nanyoi have bomas on the property?
- 20 A. I think you're making a mistake that
- 21 everybody makes. And I think you and I just made it
- 22 a minute ago. A boma is a home. An engagi is how
- he's using this. This is one -- A boma is, as you know, the whole surround. Inside that are the

Page 132

Page 129

- eight pieces to this. So it's Nanyoi's family who's
- related to, I think Maanda's family. They're 2
- together. So when I answered this, it's this 3
- settlement that exists on the far corner, not eight
- different settlements. 5
- 6 Q. Were you aware that Maanda has homes and
- that Ole Naimodu and Meitaya have homes on the 7
- 8
- 9 A. They are telling me here, but I'm not sure
- that I know what that really means. It includes 10
- Maanda Ngoitiko's family. I don't know. That 11
- 12 doesn't mean Maanda's there. Her family, I don't
- know what -- Family is defined as a very large --13
- It's like your brother's sisters wife's husband's 14
- son. I mean, that's all your family. So if you're 15
- asking. I know there's a settlement, an engagi/boma 16
- over on that area. I don't know who's inside all of
- that. I heard it was Nanyoi's family. That's all I 18
- know. 19
- MR. MARX: I'm sorry, and I also 20
- want to object to the question, although belatedly, 21,
- because you used the word "home". Apparently it's 22
- synonymous with boma and I'm not sure that that is 23
- 24 the intention of this paragraph.

- identification.) 1
- (Document handed to the witness.) 2
- O. Is this a letter to the directors of
- from the Acting Director of Wildlife?
- 5 A. Yes.
- 6 Q. Granting permission to use the farm for
- tourism?
- 8 A. Yes.
- 9 O. What do you understand this letter to
- mean?
- 11 A. That we can use the land for tourism
- purposes.
- 13 Q. Is it your understanding that once you
- received this letter, the land had all of the
- permits and authorizations needed to use it for
- tourism? 16
- 17 A. This letter allowed us to use the land for
- tourism. So could you ask me that again?
- 19 Q. I'm wondering if you believe that there
- were any further steps that needed to be taken in
- order to be able to use the land for tourism?
- 22 A. Yes. We would like to have, and that we
- are continuing -- There's a pending piece that we'd
  - like to have, which is a land use change. But this

Page 130

allows us to use the land.

2 Q. Help me understand how that works.

- 3 A. I can't. That's it. That's truly what it
- does. The process, which was finalized, got stopped by our adversaries along the way. And so we have
- this as our, we are able to use it because of this.
- Q. Well, what do you understand the further 7 step would accomplish?
- A. Nothing different. Nothing different,
- except for when you have a land use change, it tells 10
- you on there specifically -- I don't know if you 11
- have seen these in Tanzania, but it specifically 12
- tells you what you can put on this property, what 13
- you're requesting to put on the property, what you 14
- can do with it. Blah, blah. Gives you a lot more 15
- information. This is just generally for tourism 16
- 17
- purposes, which we have very little impact on this land in terms of tourism use. 18

You look at the Ngorongoro, up at

- 20 the rim of Ngorongoro crater. And Ngorongoro Crater
- Lodge wants to build something. Or you look at the 21
- 22 Four Seasons Belila out in the Serengeti. You know,
- 23 you have got a lot of things that you have got to
- ask for. That's the difference. 24

1 A. Well, I think, yeah. I think we're all

- trying to figure out what does boma mean. It's a
- boma if used in the sense of a settlement with many 3
- different little homes in it is what is on the far
- side. I did not know who's in it. I don't really 5
- care who's in it. 6
- 7 Q. But just so I understand it, because we
- are all trying to understand it, you would read this 8
- to mean that there's one engagi, enclosure? 9
- 10 A. One enclosure with a big fence around it
- with a lot of little homes inside. That's how I 11
- read it. 12
- 13 O. And the word boma would refer to each of
- the different residences?
- 15 A. Yes. And it's so interesting that that is
- is using, who's Maasai. So he's 16
- probably thinking as an American, I call them bomas. 17
- Like you call them bomas. Like everyone said we 18
- burned bomas and they really meant fenced 19
- structures. We really should not use that word. A 20 lot of bomas in there.
- MR. KAUFMAN: I'd like to ask the 22
- 23 court reporter to label this document as W-20.
  - (Exhibit W-20 marked for

24

Page 133

- 1 Q. So why continue to pursue the final, that
- final step of the land change?
- 3 A. Well, it would give us the full amount of
- things that we can do with that piece of land. Not
- that we're probably going to do very much more, but 5
- it would allow us to do A, B, C, D, E, F. I mean,
- there's a very long list of things when you use 7
- something for tourism through a land use change can.
- So we would do that.
- 10 O. And without that final piece are there
- things that you can not do because you do not have
- that final piece?
- 13 A. I would say we could not build a gigantic
- hotel. We wouldn't want to do that anyhow, but that
- would be an example of what you wouldn't do. You 15
- wouldn't be able to do with just a letter. This
- letter is just to use it for tourism purposes, but 17
- not like to build a gigantic hotel or three hotels 18
- or ten hotels up there. 19
- O. So earlier I believe you told me that the
- permitted uses of the land are agriculture and
- tourism. And the permitted use for agriculture 22
- comes from that land use permit, is that right? 23
- 24 A. Uh-hum, yes, yes. Although, to tell you

- there was a court case. So it would be, it was
- great -- And a lot of things got lost along the way.
- So anyhow, we are still in the process.
- O. You know I have to ask you for more
- details.
- 6 A. What got lost along the way? Our title
- got lost along the way. You see that we have more
- than one title, because somebody, interestingly
- enough, lost the title. And every time we went down
- to Dar Es Salaam, they would say, Well, you have got 10
- 11 a court case pending and every time there's a court
- case, we're just going to hold off for that land use 12
- change. So our adversaries are suing us and four 13
- 14 others for this, to figure out if this titled deeded
- piece of property is real or not, or legal or not,
- which kept us from getting the land use change.
- Q. So there were actually people in the land
- office that you would visit who would tell you
- that --19
- 20 A. Yeah, we would visit them.
- 21 Q. That the lawsuit was --
- 22 A. It's always different. It depends on who
- you talk to. But you have to push along. There's a
  - way that you have to get your land use change done.

Page 134

- the truth, I don't know, because I'm not part of the 1 legal piece of this, whether that land use is, goes
- from TBL to us or not. So that you'd have to ask
- You know, in other words, I'm making an assumption that we have a land use for agriculture 5
- because TBL had it for farming and therefore, we 6
- have it. I actually don't know if that's true or 7
- 8

- 9 Q. So is it your understanding that this is
- 10 kind of like an exception to that land use
- designation?
- 12 A. I don't know if is an exception. I think
- 13 it's an addition. That's what I don't know.
- 14 O. But if you complete that final step that
- you were mentioning of actually getting a land use
- change, then rather than being an addition, it would
- just switch over to tourism? 17
- 18 A. That's how it works.
- 19 Q. And you said that you have been stopped by
- your adversaries. Can you explain how that
- happened?
- 22 A. Well, we got all the permissions along the
- way and the court case -- The government felt that
- it didn't want to do the land use change because

- So I guess my point being that somebody would say
- it's okay and somebody would say no, that's not
- okay. And that's Tanzania. We realize that's how
- things don't get done in Tanzania.
- 5 Q. So at this point is it your expectation
- that that will not complete until the lawsuit is
- 7 over?
- A. Don't know. That's the thing. It keeps
- changing. 9
- O. Well, I think I'm finished for the moment. 10
- I'd like to take a break for a second so that I can
- see if I can find the e-mail that I thought I was 12
- showing you earlier. 13
- 14 A. That one before? Sure.
- O. But assuming that that's not here, then
- I'm finished for today.
- 17 A. Okay.
- Q. We could break and come back tomorrow or 18
- we could continue with some of the things that :: 19
- Marissa was going to talk to you about. 20
- **THE WITNESS:** What's the time? 21
- MR. MARX: It's 5:00 o'clock. 22
- MR. KAUFMAN: Is it 5:00? Okay. 23
- MR. MARX: Well, how are we in terms

PROCEEDINGS

2 Whereupon:

1

4 having been satisfactorily identified and duly sworn

- having been satisfactory identified and duty sworn
- 5 by the Notary Public, was examined and testified as
- 6 follows:
- 7 DIRECT EXAMINATION
- 8 BY MR. KAUFMAN:
- 9 Q. Hello
- but I'll just state it for the record my name is
- 11 Jonathan Kaufman. To my left is Marissa Vahlsing
- 12 and Richard Herz and we are attorneys with
- 13 EarthRights International and we are representing
- 14 the applicants, Loserian Minis, Lotha Nyaru and
- 15 Joseph Makko in the application for discovery that
- 16 you are sitting here today working with us on.
- Would you please state your name and
- 18 address for the record?
- 19 A.

20

- 21 Q. Have you ever been deposed before?
- 22 A. Yes.
- 23 Q. How many times?
- 24 A. Once.

\_\_\_\_

- 1 Q. In what kind of case?
- 2 A. It was nothing like this. It was really a
- 3 minor thing and it was to do with a disgruntled
- 4 passenger in the early eighties.
- 5 Q. Are you represented by counsel today?
- 6 A. Yes.
- 7 Q. And that's Mr. Marx sitting next to you?
- в A. Yes.
- 9 Q. I'm going to ask you a series of questions
- 10 and you are to answer them as completely and
- 11 accurately as you can. Do you understand that?
- 12 A. Yeah.
- 13 Q. Do you understand that you have just taken
- 14 an oath to take the truth?
- 15 A. Yes.
- 16 Q. Is there any reason you can't testify
- 17 completely and accurately today?
- 18 A. No.
- 19 Q. Are you taking any medication that might
- 20 impair your judgment or your ability to answer?
- 21 A. No.
- 22 Q. If you don't hear a question, please tell
- 23 me and I'll repeat it. If you don't understand a
- 24 question, please tell me and I'll try to rephrase it

- in a way that makes it more understandable.
- 2 The court reporter is going to take
- 3 down everything we say, so please answer my
- 4 questions audibly. Nodding your head or shaking
- 5 your head or uh-hum do not come through on
- 6 transcripts, so please say yes or no in those sorts
- 7 of situations.
- 8 Only one of us can speak at a time,
- 9 so we should try not to speak over each other. Even
- if you can anticipate the rest of my question, let
- me finish and then you can speak. I will let you
- 12 finish even if I can anticipate the rest of your
- answer so the transcript will be clear.
- 14 If you need a break, please let me
- 15 know and we'll try to find a convenient stopping
- point that's not in the middle of a question. And.
- 17 we'll also try to make sure that we'll take regular
- 18 breaks.
- Do you understand that the testimony
- 20 that you provide today may be used at trial in
- 21 Tanzania?
- 22 A. Yes.
- 23 O. Do you understand the rules that we've
  - 4 just gone over?

Page 6

Page 5

1 A. Yes.

- 2 Q. Do you have any questions?
- 3 A. No.
- 4 Q. I'm going to be asking you some questions
- s and then at a certain point I'll turn over to
- 6 Marissa to ask you questions. When Marissa or Lsay
- 7 the land or the property or
- referring to the land where the
- 9 Do you understand?
- 10 A. Yes.
- 11 Q. When Marissa or I refer to
- we will be referring to the
- that is also
- 14 you understand?
- 15 A. Yeah.
- 16 Q. And when we say we'll be referring to
- 17

Do you understand?

we will be

- 18 A. Yes.
- MR. MARX: If I can interject, I
- 20 don't want to testify on behalf of
- 21 I believe that there are various times during her
- 22 testimony when was asked about
- and I think, and because the context was the
- Tanzania operations, I think understood that to

Min-U-Script®

Page 9

- 1 mean the Tanzanian company and
- 2 I think she was talking about their operations. So
- 3 I think --

6

- 4 THE WITNESS: So that's what he's
- 5 referring to.
  - MR. MARX: Yeah, that's why I'm
- bringing it up. I think it would be helpful, maybe,
- 8 to try to clarify that, you know, on a
- 9 question-by-question basis. I don't mean to make
- 10 the questions more difficult than they have to be.
- 11 I'm just saying I don't think when he hears you ask
- 12 questions about he'll understand
- that to mean the entity.
- MR. KAUFMAN: Let's try to be precise about it. I think there may be times when I
- or Marissa are not certain or we may use the wrong
- one, and so let's just try and make sure that if you
- 18 respond, you're responding with what you understand
- me to say so that we can be, so that we can be clear
- 20 about it.
- 21 And after this deposition is
- 22 finished there will be an opportunity for both sides
- 23 to correct the record in any way. So if it seems as
- 24 if there's been any mistakes or any ambiguity, that

- 1 A. Yeah, I mean, the same as that
- 2 mentioned. Grazing, these words that seem
- to matter.
- 4 Q. Do you ask other people to search for
- 5 documents?
- A. Yes, in Tanzania
- 7
- 8 Q. And did you sit with them while they
- 9 searched?
- 10 A. No.
- 11 Q. And did they send you or give you
- 12 documents?
- 13 A. Yes, yes.
- 14 Q. Did you also search paper files in
- 15 Tanzania?
- 16 A. Yes. I did not in Tanzania. In my office
- 17 in Boston.
- 18 Q. Did you search any other sources of
- 19 documents?
- 20 A. Sorry. What do you mean by other sources?
- 21 Q. Did you search your own text messages?
- 22 A. Text messages? What's a text message?
- 23 You mean like an
- 24 Q. A phone SMS.

Page 10

Page 12

- will be an opportunity to do that.
- 2 A. Okay. So do you want to rephrase or
- 3 restate these terms and what they refer to?
- 4 Q. Well, let's forget about what I said about
- 5 when I say? We'll try and be very
- 6 clear which company we're talking about and we'll
- 7 refer to the
- 9 (Brief recess.)
- 10 Q. Were you asked to collect any documents in
- 11 connections with the subpoenas in this legal action?
- 12 A. Yes.
- 13 Q. Did you collect documents?
- 14 A. I did, yes.
- 15 Q. How did you search for them?
- 16 A. I went through my e-mails, through my
- 17 paper files and collected a whole lot of stuff and
- 18 went out to Tanzania while ontinued searching.
- 19 And then when I came back we sat shoulder to
- 20 shoulder in front of my computer, searching again,
- 21 using search terms, looking for e-mails and so on
- 22 and providing those documents.
- 23 Q. And do you remember the search terms that
- 24 you used?

- 1 A. I never use MS, SMS.
- 2 Q. Did you use other forms of written
- 3 communication with Tanzania?
- 4 A. No.
- 5 Q. Have you in the past deleted e-mails that
- 6 may have been responsive to the subpoenas?
- 7 A. Well, you know, the request was to go back
- 8 as far as 2005 and you know, I don't have a lot of
- stuff that's very old, because, yes, they were
- 10 deleted. Our IT people would be on our heads
- 11 looking for space and we had to do that, but you
- 12 know, I kept, I kept a paper, I kept paper files of
- 13 important things that were sent to me. I would just
- 14 print them and then delete, you know, what wasn't
- 15 relevant any more. So I had, I had what I thought
- was a pretty nice paper file collection.
- 17 Q. What is your title at

entity?

- 19 A. Director.
- 20 Q. And --
- 21 A. You're talking about
- 22 Q. Yes.
- 23 A. Yes, director.
- 24 Q. What is your role at

Min-U-Script®

Jones Reporting Company 617-451-8900

(3) Pages 9 - 12

Page 13

- 1 A. I really don't have a role in that office.
- 2 I'm 50% owner of the business, but I don't -- My
- 3 roles don't really -- That's the sales and marketing
- 4 side of so I'm not involved in
- 5 that.
- 6 O. So maybe instead of me going through each
- 7 of the individual companies, can I just ask you as a
- 8 general matter, what is your role in the
- 9 that we've talked about?
- 10 A. The hat I mostly wear is
- 11 for
- 12 Q. That's the
- 13 A. Yes.
- 14 O. And as
- what do you do?
- 16 A. I suppose the short answer is supervise
- 17
- 18 Q. reports directly to you?
- 19 A. Yes.
- 20 Q. Does the project manager at also
- 21 report to you?
- 22 American is his first person, but, yes. I
- 23 mean, work together, but
- 24 Q. Would it be fair to say that often you

- 1 it didn't happen like that. I think it just became
  - 2 talk in the community.
  - 3 Q. But you didn't know about it before the
  - 4 advertisement, is that right?
  - 5 A. No, no.
  - 6 Q. Who told you?
  - 7 A. Well, comes to mind, but I'm
  - 8 not sure he was the very first. You know, it was a
  - 9 bit of a buzz. And then and I talked, because
  - 10 he had bought another property that the breweries
  - had sold. So, you know, he had some firsthand
     information about that and so I suppose the first
  - time I had any real understanding was talking to
  - 14 but I knew about it before that.
  - 15 Q. Before you put in a bid for
  - anyone visiting anyour behalf?
  - 17 A. Yes.
  - 18 O. Who was that?
  - 19 A. Well, I sent a team of our guides to go
  - 20 and have a look and to answer a series of questions
  - 21 that, you know, came to mind. I had ideas about
  - 22 what it could be like and what we could do with it,
  - 23 but I sent them up there to take a look and to give
  - 24 me some feedback on their findings.

Page 14

- 1 would be receiving communications directly from the
- 2 project manager at
- 3 A. I don't know about often, but, yeah, I
- 4 mean, we do communicate, yes.
- Q. Do you also have a role for
- 6 A. Well, I'm
- Q. In your understanding does
- 8
- 9 A. This the owner, yes.
- 10 Q. And how did come to own
- 11 A. It purchased the property from the prior
- 12 owner, which was Tanzania Breweries Limited.
- 13 Q. Was there a competitive bidding process
- 14 for that purchase?
- 15 A. Yeah. It was advertized and, you know, I
- 16 don't know the exact numbers, but it was pretty
- 17 common knowledge in the community that a lot of
- 18 people were interested in that property that TBL was
- 19 selling.
- 20 Q. Was that advertisement the first that you
- 21 had heard about the property?
- 22 A. I think someone told me that it had been
- 23 advertized. So I mean, if you're saying did I first
- know about it by reading about it in the newspaper,

- 1 Q. What questions did you ask them to answer
- 2 for you?
- 3 A. Well, actually, I think I've submitted,
- 4 it's one of the pieces of paper I gave you included
- 5 that e-mail. But, you know, we were interested in
- 6 A lot of what we do involves community and, you
- 7 know, we're really we really sell wildlife safaris
- 8 and that's what people come to us for, but the thing
- 9 that's really powerful to people is not necessarily
- 10 the animals, it's the people, from the guest's point
- 11 of view. So they come home and they're really
- 12 excited about their trip, but if you talk to them it
- 13 soon becomes apparent that it was about the people.
- 14 So, you know, we knew that and we understood that.
- 15 And at the sales point it's not easy to sell that to
- somebody, because they're going for the wildlife and
- 17 they want to see the zebras and elephants and
- 18 everything. So we have to tuck in these things in a
- 19 way that doesn't make them think that they're losing
- 20 a half a day off their safari, you know, watching
- 21 wildlife. But anyway, we knew that this was really
- important, so we started thinking about community
   and tucking these aspects in.
  - So this piece of land was large

ver

'Page 16

Page 20

Page 17

- enough that we felt it's probably got some decent
- wildlife or could have some decent wildlife and had 2
- community all around. And so this became, like, 3
- wow, this is something that we could really create 4
- as a great project, in addition to other offerings
- to people. 6
- So I wanted to know about what kind
- of wildlife was there and, you know, how apparent 8
- that was and the community, you know, who was around
- and what was going on. I was kind of familiar with 10
- the area, because I, you know, back in the day when 11
- 12 I was in the field I used to guide and I'd pass
- through Loliondo. So I had a sense of the area and
- what would be like. 14
- 15 So I sent a team there to figure
- this stuff out. And, you know, if we're going to 16
- put a camp there, how far away is water? Where do 17
- we have to get fuel from? There's an air strip at
- 19 Wasso servicing is Wasso Hospital. How far away is
- that? Can that be used for bringing in tourists and 20
- all of these things that I'm thinking about with my 21
- tour operator hat on. How could we operate in that
- area? Because it's a remote rural part of Tanzania. 23
- It's difficult. 24

- were people saying that they did use that land?
- 2 A. I suppose the first court case.
- 3 Q. So before -- The first court case was
- filed in something like 2010, is that right?
- 5 A. You know, I think that might be right,
- something like that.
- O. And prior to that time you never heard
- anyone saying that they used that land?
- A. Yeah, I suppose there was some lead up to
- that. And there was a really early court case that
- I learned about before we bought the property way
- back in the eighties and I think that was more about
- ownership or, you know, TBL not really being the 13
- owner or something. But anyway, that was settled 14
- 15 and that was years away, years ago. And so that
- actually felt good that they had gone to court and 16
- had that outcome. So does that answer your 17
- question? 18
- 19 Q. Well, so that I'm completely clear on it,
- knowing that there had been a court case and it had
- been settled, that TBL's title --
- 22 A. Yeah.
- 23 Q. -- was valid, that you knew that before
- you put in the bid?

Page 18

- 1 A. Yeah.
  - 2 Q. And that was some comfort to you --
  - 3 A. Yeah.
  - 4 Q. As to the solidity of the land?
  - 5 A. Yes, yes.
  - MR. MARX: Just wait for him to 6
  - 7 finish asking the question before you answer.
  - THE WITNESS: Sorry, sorry.
  - Q. Did you ever hear anything about a
  - controversy over the amount of land that TBL 10
  - legitimately owned? 11
  - 12 A. Yes.
  - 13 Q. When did you hear about that?
  - 14 A. Well, that was after the purchase. You
  - know, and it was about how this was 10,000 acres and
  - suddenly now it's got to 12,000 and, you know, 16
  - you're moving the boundaries and all this kind of 17
  - 18
  - 19 Q. When did you hear that?
  - 20 A. I can't give you a date. Early on. Early
  - on. I mean, so it would have been after 2006, you 21
  - 22 know. I'm not really sure the date.
  - 23 Q. Did you make any inquiries to find out
  - what the truth of that controversy was?

1 Q. And when those guides returned did they

- give a full report to you?
- 3 A. Yeah.
- 4 O. Was that report just by e-mail or did you
- also speak to them?
- 6 A. No, I spoke to them also, yeah, and I
- visited myself.
- 8 Q. Also before you put in a bid?
- 9 A. Yeah.
- 10 Q. When you went to the farm what kinds of
- investigation did you do at that time?
- 12 A. Drove around, sort of got a feel for the
- place, visited the TBL staff and looked at their
- buildings and stuff that they had there. Spent some
- time in Wasso, a nearby town. Talked to people, you 1.5
- know, things like that. 16
- 17 Q. Did you or the guides that you sent
- previously ask any questions about whether or not
- any of the members of a certain community had any 19
- use for the land or were using the land at the time? 20
- 21 A. Well, no. I mean, not really in that
- sense. I mean, it was TBL property. You know, it
- wasn't a huge thought in my mind.
- 24 Q. At what point did you learn that there

Page 24

Page 21

- 1 A. You bet, yeah.
- 2 Q. What did you learn?
- 3 A. Well, you know, this is not an uncommon
- 4 problem, it turns out to be. And what happens is
- 5 that, you know, especially properties that, you
- 6 know, were from those days, those early eighties, I
- 7 mean, people would say, Oh, yeah, you know. You
- 8 want 10,000 acres? We can give it to you to that
- 9 far hill and to that big tree there and across to
- 10 that rock. And, you know, surveyors didn't actually
- 11 go there and actually measure it, but everyone
- 12 agreed that this is the land, this is the area and
- 13 they would write down a number. And years later, as
- 14 things became surveyed and became more legitimate
- 15 and stuff, surveyors would go there and instead of
- 16 8,000, the people had 6,000 or, you know, another
- 17 number other than they all assumed. And, you know,
- 18 that's what happened here. And, you know, it's
- 19 really hard to eyeball an exact number without
- 20 getting a surveyor there and measuring it. So this
- is not uncommon to have this happen.
- 22 Q. So your understanding is that the map
- 23 didn't change. The amount of land that TBL actually
- 24 had in its possession actually never changed?

- 1 we're agreeing to lease this land and this is the
  - 2 amount paid and these four points here.
  - 3 O. And why is it a lease?
  - 4 A. Well, most land in Tanzania is leased
  - 5 and nobody has ownership of land. It's all, it's
  - 6 always a form of lease. You know, there's a term
  - 7 involved. When I say a term, a period of time. So
  - 8 you can never own it forever.
  - 9 Q. In your understanding did TBL retain any
  - 10 rights to the land after this lease was signed?
  - 11 A. Any rights? No, I don't believe so.
  - 12 Q. Did egotiate with TBL over the terms
  - 13 of this lease?
  - 14 A. Did who?
  - 15 Q. Did pegotiate with TBL over the terms
    - 6 of this lease?
  - 17 A. No, no, no. The process was a bidding
  - 18 process, so, you know, everyone made an offer and
  - 19 then, I don't know, at some point they all got
  - 20 together and TBL opened all the offers and chose who
  - 21 they wanted to work with. So there's no room for
  - 22 negotiation.
  - 23 Q. Your understanding is that once the bid
  - 4 was accepted, that the terms of the lease or sale or

Page 22

from

•

- 1 A. Correct.
- 2 Q. It was merely an accurate measurement of
- 3 that land that was taken?
- 4 A. Correct, yes.
- 5 MR. KAUFMAN: I'd like to mark this
- 6 as T-1.
- 7 (Exhibit T-1 marked for
- 8 identification.)
- 9 (Document handed to the witness.)
- 10 Q. Is this a true and correct copy of the
- 11 lease that signed over the rights of
- 12 TBL to
- 13 A. I believe so.
- MR. MARX: I object as to the form,
- 15 but he answered.
- 16 THE WITNESS: So what were you going
- 17 to say?
- 18 MR. MARX: I wasn't objecting to you
- 19 offering an answer. I think he characterized this
- 20 lease in a way that I disagree with and that's all I
- 21 was trying to put on the record.
- 22 Q. What's your understanding of this
- 23 document?
- 24 A. Well, it's what it says, that, you know,

- 1 whatever this is were set?
- 2 A. I guess, yeah.
- 3 O. What I'm trying to understand about this
- 4 document is that in a lease situation, normally you
- 5 have the person who's leasing out the land, which we
- 6 call the lessor, and then you have the person who's
- 7 receiving the lease, which is the lessee. And here
- 8 the first paragraph reads that TBL is leasing the
- and to
- 10 A. Uh-hum, right.
- 11 Q. Not transferring it.
- 12 A. Right, yeah.
- 13 Q. So I'm trying to understand what that
- 14 means.
- 15 A. Are you asking why was there later a
- 16 transfer?
- 17 Q. I'm asking you to help me understand the,
- 18 how the transaction worked, to your understanding.
- 19 A. Yeah. If you're asking why didn't it just
- 20 be an immediate transfer, I am sure about that. I
- 21 don't know how -- Our lawyers talked to their
- 22 lawyers, you know. I'm not exactly sure.
- 23 O. In Paragraph 3 where it says, Subject to
- 24 payment of a token sum as consideration, Tanzania

Page 28

Page 25	Ρ	ac	le	25
---------	---	----	----	----

- 1 Breweries, so on. Do you know what the payment of a
- 2 token sum as consideration refers to?
- 3 A. That has something to do with the
- 4 transfer. Subject to -- Well, it talks about the
- 5 right of transfer of the right of occupancy
- 6 registered under the above reference from Tanzania
- 7 Breweries. So it's saying subject to payment of a
- 8 token sum as consideration, Tanzania Breweries will
- 9 without qualification, pre-condition or
- 10 equivocation, grant to Tanzania a transfer. So it's
- 11 pretty clear what that is about.
- 12 Q. What do you understand it to mean?
- 13 A. Well, it says that if a token sum, a token
- 14 payment is paid, Tanzania Breweries will transfer
- the right of occupancy. I'm not sure what else it
- 16 could mean.
- 17 Q. So do you know if and aid that token sum?
- 18 A. Yes, it did.
- 19 Q. Do you know what the token sum was?
- 20 A. It's in the paperwork there somewhere.
- 21 It's a very small amount.
- 22 Q. A token?
- 23 A. A token sum, yes.
- 24 Q. Thank you.

- 1 Q. Let's look at the second page, which is
- 2 the back of your first page.
- 3 A. Yeah, it's true I do see 2004, but I also
- see stamp duty and revenue with a date of 1999,
- 5 original revenue received. There's two stamps in
- 6 fact with 1999 dates on them, which I'm not sure
- 7 what they refer to. But that is -- I don't know. I
- 8 don't know why that would be so when the other
- 9 date's 2004. But in any event -- And what was your
- 10 next question?
- 11 Q. Let's look at Paragraph 5 on the second
- page where it says, The occupier, which I take to be
- 13 Tanzania Breweries Limited, shall not assign the
  - right within three years of the date hereof.
- Do you know if TBL received the
- prior approval of the Commissioner of Lands to
- 17 transfer the right of occupancy to
- 18 A. I think, I think, by the fact that --
- 19 Well, there's a Commissioner of Lands signature
- 20 right here on this page, whatever page that is. But
- 21 you know, and this is not the complete document, by
- 22 the way. There are lots of pages missing from this.
- 23 And in the other pages you will find that
- 24 stamped in there as the lease and as the transfer.

Page 26

- 1 A. Mind you, you know, you also have to
- 2 remember that it was also paid \$1,200,000, you know.
- 3 Q. And that amount was the lease amount?
- 4 A. Well, you know, I guess, I guess. But,
- 5 you know, and once the transfer was done, I suppose
- it then became the purchase price, didn't it?
- 7 Q. I'm asking you that.
- 8 A. Yeah. I mean, that's how I'm kind of
- 9 reading this. Our lawyers talk to their lawyers.
- 10 MR. KAUFMAN: I'd like to label this
- 11 document as <u>T-2</u>.
- 12 (Exhibit <u>T-2</u> marked for
- 13 identification.)
- 14 (Document handed to the witness.)
- 15 Q. Have you seen T-2 before?
- 16 A. Is this <u>T-2</u>?
- 17 Q. Yes, this is <u>T-2</u>.
- 18 A. Yes. This is the certificate of
- 19 occupancy, or part of it.
- 20 Q. Who held this certificate of occupancy?
- 21 A. Tanzania Breweries Limited.
- 22 Q. Do you agree that it says at the top, the
- 23 date is the 24th of May 2004?
- 24 A. Yes.

- So for all of that to happen and, you know, it seems
- 2 like every official in the country of Tanzania has
- 3 reviewed these documents, including courts, and
- 4 everyone deems it legal and accurate. So, yes, I
- 5 would say that, you know, everything was properly
- 6 done.
- 7 Q. Just to be clear on the question, do you
- 8 know if TBL got a prior approval from the
- 9 Commissioner of Lands?
- 10 A. All I can say is they must have.
- 11 Q. Okay.
- 12 MR. KAUFMAN: The binders get
- 13 somewhat sloppier the second day.
- 14 If you could label this as T-3?
- 15 (Exhibit <u>T-3</u> marked for
- 16 identification.)
- 17 (Document handed to the witness.)
- 18 O. Is this an e-mail chain where you
- 19 forwarded to the report from

the report from

- 20 his trip to
- 21 A. Sure looks like it, yes. Yeah, this is
- 22 about my questions. Right, that we were talking
- 23 about earlier.
- 24 Q. Right. Who is

Page 29

- 1 A. Jives in Tanzania, and during this
- 3 time was
- 4 Q. You said that, did you say that you asked
- 5 learn about the surrounding
- 6 communities and opportunities for including
- 7 community visits in the experience of tourists at
- 8 just earlier when we were speaking?
- 9 A. Yeah. I mean, I was talking about how
- 10 community was important to us, because we know how
- important it is to our guests. So, I mean, part of
- 12 my, you know, request for information from the
- 13 guides would be to find out if the area was friendly
- 14 and, you know, could we do tourism there and what
- 15 was it like with tourism.
- 16 Q. I think that in the, in the e-mail that
- you forwarded, so starting at the bottom of the
- 18 first page, the slightly lighter text was your
- 19 original questions to
- 20 A. Oh, the area is Maasailand, is that what
- 21 you mean?
- 22 Q. I'm actually just talking about just in
- 23 general for the moment, that there's dark black
- 24 text --

- 1 understand you asked him, you said, The area is
- 2 Maasailand so there's a good chances of cultural
- 3 visits, etc., with the people. Are the people
- 4 friendly to tourism and will they welcome wageni to
- 5 their bomas. Perhaps they have had problems and
- 6 don't like tourism.
- 7 esponds: They're friendly.
- 8 poke to some guys who were night watchmen at
- the camp. They were nice and we can work outcultural tourism stuff.
- Did you learn more from at this
- 12 time than just those three sentences about the
- 13 locals?
- 14 A. Yeah, before I went and spent \$1.2
- 15 million, yeah, I kind of tried to figure out as much
- 16 as I could, yes.
- 17 Q. So what did you learn?
- 18 A. That people were very receptive. In fact,
- 19 it was like amazingly receptive. Well, you guys
- 20 know, because you have been to Ololosokwan, but
- 21 Ololosokwan is right up against the Serengeti
- 22 National Park. And all of the tour operators go to
- 23 Ololosokwan village for tourism there. They put up
- camps there. They operate tourism there and they do

Page 30

. 490 02

- 1 MR. MARX: Yeah. Are you able to
- 2 distinguish?
- 3 A. I'm not sure.
- 4 O. So as I understand it, it's hard to see,
- 5 but these are slightly lighter font, can you see
- 6 that? It's kind of a slightly lighter gray. I'm
- 7 just trying to distinguish what was your original ---
- 8 MR. MARX: What he's suggesting is
- 9 that these three paragraphs, for example, are in
- 10 slightly lighter text than this and this.
- 11 THE WITNESS: Yeah, okay. I suppose
- 12 I can give you that. Yes, okay, okay, I see it.
- 13 And it's more prominent on the second page, yeah,
- 14 okay.
- 15 O. So my understanding is that these
- 16 slightly, what's slightly lighter, as hard as that
- 17 is to see, was your original questions to
- 18 A. Yes, yes.
- 19 Q. And then his responses are the darker
- 20 text?
- 21 A. Yes.
- 22 Q. On my computer these are black and blue.
- 23 A. Okay, okay.
- 24 O. But it didn't come out in the copy. So I

- walks in Ololosokwan and they go into the park every
- day and come back to their camp.
- 3 Well, Sukenya is an hour and a half
- 4 from Kleins Camp, so no tour operator has ever been
- 5 interested in doing tourism. So what people were
- 6 telling me was, You mean you're going to come and do
- 7 tourism here? You got to be kidding me. We've been
- 8 so jealous of those guys at Ololosokwan, you know,
- 9 and no one has ever come here. And they were, like,
- 10 welcoming us with open arms. It was really, like,
- 10 welcoming us with open arms. It was really, like
- 11 fantastic.
- 12 Q. And who did you talk to?
- 13 A. You're going back a long way. Old, older,
- 14 older village guys, like -- I don't want to say
- 15 names, but I mean, some names that might come to
- 16 mind are (phon.), older guys in the village
- 17 who had some respect and understanding. Let's say
- 18 from old Mzee from Soitsambu, actually.
- 19 Q. Just to jump in, Mzee is M-z-e-e.
- 20 A. I'm sorry. I should just -- Older man is
- 21 fine. And I really think as much as we can, and
- 22 I'll try my best is to sick to English words rather
- 23 than Swahili and Maa, because it's too confusing to
- 24 everyone.

Page 36

Page 33

- 1 You know, I think, you know, I think
- women. I mean, I don't know, just people. I don't
- 3 know exactly who, but I was -- I mean, that
- 4 statement I made to you about how, you know, Oh,
- 5 we've been jealous of those guys and blah, blah. It
- 6 just was a powerful thing to hear and really
- 7 encouraged me.
- 8 Q. Did you go to several different of the
- 9 settlements around the property at that time?
- 10 A. Well, I think rather than go to all around
- 11 the place, because I wasn't that familiar yet with
- 12 all these places, but somehow we called a meeting
- 13 and I think might have helped with that.
- 14 And so we sort of had a group of elders and, you
- 15 know, chatted to them, talked to them.
- 16 Q. and experience in the area, so
- 17 he was able to call a meeting?
- 18 A. a guy who had bought a
- 19 prior property from Breweries -- not in the area,
- 20 but, you know, and he was our, yeah, he -- I went
- 21 with him to look at the property the first time, you
- 22 know, and have a look around and investigate it
- 23 personally so I could have a look at it. So he kind
- 24 of toured me around.

- 1 O. What might happen if there wasn't anyone
- 2 there during the transition?
- 3 A. Well, I think that, you know, people -- I
- 4 mean, there was a poaching issue there. People
- 5 could come and start making charcoal. I mean, you
- 6 know, it's just those -- I mean, we were concerned.
- 7 It just wouldn't be a good idea.
- 8 Q. In the way things actually turned out did
- 9 TBL actually have personnel on the property up until
- 10 the time they sold it?
- 11 A. It became a problem, because TBL wouldn't
- 2 settle with them, so they had staff hanging out
- 13 waiting for settlement. And they didn't want to
- 14 leave until they got their last pay. And one of the
- 15 first jobs we wanted to do was take down all the old
- 16 farm buildings and stuff, relocate the housing to
- 17 another area, because it was way out in the middle
- 18 of a plain in the middle of nowhere. So it was an
- 19 eyesore for us. So we wanted to relocate to a hill
- 20 that was better. And so we couldn't do that until
- 21 they moved.
- 22 Q. Wherl reported to you about his trip,
- 23 did he mention having seen any Maasai people on the
- 24 land grazing or using it for any purpose?

Page 34

MR. KAUFMAN: I'd like to label this

2 T-4?

- 3 (Exhibit T-4 marked for
- 4 identification.)
- 5 (Document handed to the witness.)
- 6 Q. We talked about this e-mail with
- 7 yesterday, but to confirm, is this an e-mail that
- 8 you forwarded to from
- 9 A. Yeah.
- 10 Q. In the e-mail to our agreed that
- raised a good point about a concern about a
- vacuum once TBL announced they were selling the
- 13 farm. What exactly was that concern about a vacuum?
- 14 A. Well, I think not just in Tanzania, but
- anywhere I think a piece of land of this size, you
- 16 want to have a presence. You wouldn't want to just
- 17 leave it without anyone there. TBL staff were there
- 18 and, you know, I think I was a little concerned or
- and, you know, I think I was a little concerned of
- 19 maybe was concerned, but we were all concerned
- 20 about, you know, figuring out a way to have a
- presence there once we took over the property.Q. What --
- 23 A. So the vacuum was about there being nobody
- 24 there.

- 1 A. I don't recall. I don't recall him
- 2 particularly stating that.
- 3 Q. And when you went did you see anyone
- 4 grazing or being on the land for any purpose who
- 5 wasn't a TBL worker?
- 6 A. No. I mean, I hesitate to say did I see a
- 7 cow, you know. Generally, no. The place was, you
- 8 know, vacant land with no herd of cattle. Like I
- 9 said, I'm not going to say I didn't see a cow. All
- 10 Maasailand, I was driving all over the place. So to
- 11 all intent and purposes, it seemed to be what TBL
- 12 was selling us.
- 13 Q. You don't have any particular memory of
- 14 seeing people or cows or anything like that?
- 15 A. Large herd, no, I don't.
- 16 Q. Did you see or notice on the land any
- 17 structures that --
- 18 A. Yes.
- 19 Q. That had been built by anyone other than
- 20 TBL?
- 21 A. Oh, didn't notice, no.
- 22 Q. We talked yesterday about some ronjo, some
- 23 thorn bush fences. Did you see anything like that?
- 24 A. Not that I recall. I say that just

Page 37

- because later, they were obviously there. But, you
- know, it really wasn't what I was looking for and 2
- 3 they're not a prominent thing on the landscape. So
- I wasn't even looking for such a thing. I, you
- know, and I know that there's been a huge lot of
- talk about us burning Maasai houses, but that did 6
- not happen. And there was a lot of talk yesterday
- 7 with Judi about, you know, how did you know they 8
- were old and questions like that. And it's really 9
- 10 easy to know.
- 11 Q. How can you tell? I honestly have no
- idea. 12
- 13 A. Okay, okay. If you want. You know, these
- things, these temporary cattle enclosures are made
- by, you know, cutting off acacia branches and piling 15
- them in a circle and, you know, with a few for the 16
- 17 gate, kind of thing. And so if cattle are in there
- 18 using it, you know, the dung on the ground is fresh.
- They need maintenance, because they don't last very 19
- 20 long, so, you know, here and there you will find a
- fresh branch poked in. If you come across an old, 21
- 22 disused one, it's like night and day. You know,
- there's holes everywhere in the fences. There's 23
- grass growing, you know, in among the dung and

- that and stop that from happening. And even with
- 2 our best efforts, still, you know, that time we lost
- the 20 Thompson's. So later, once we controlled it
- and people became aware that they couldn't go there
- any more, you know, it really made a real difference
- and wildlife became quite habituated and comfortable 6
- there. And the place has completely turned around.
- Q. Was it your understanding that TBL was not
- making strong efforts to control the perimeters of 10 the property?
- A. You know, I think they probably did their 11
- best, but they weren't really, you know, patrolling 12
- on a regular basis, I think. And, you know, those
- people were coming and hunting there. So, you know,
- who knows what was really going on? You know. It's
- anybody's guess. Maybe they got a gazelle 16
- 17 themselves for the pot. Who knows what was going
- 18
- 19 Q. And were the grasses in good shape on the
- land when you got there?
- 21 A. Yeah, not bad.
- 22 Q. Did it seem as if it had been overgrazed
- at some point?
- 24 A. No, no, no.

Page 40

- everything. The gate area is not even, you know, like not right by the gate to quickly close it for 2
- 3
- access. It's just clearly worn out and disused kind
- of look, you know. Clearly not in use. You know, 4 put a herd of cattle in there, grass is not going to
- be growing in there. It's just very obvious between
- when you see a fresh one and a disused one. 7
- Q. When you first saw the land was it, did
- you have the sense that it was degraded in any way?
- 10 A. It didn't have the wildlife on it that I
- was hoping for. And it turned out, I think, the 11
- 12 main issue with that was poaching. Oh, my God.
- There were, the place was poached to within an inch 13
- of its life, you know. And shortly after we bought 14
- it, people came and shot like 20 Thompson gazelle 15
- and took them away in a pick-up. And it turned out 16
- 17 that locals, if they wanted, like from Loliondo, if
- they wanted to have a party, they would just go 18
- there and get bush meat. And even like, not, like, 19
- 20 hunters from, you know, international hunting, but
- 21 people with a hunting license. They would go to
- 22 Loliondo, pick up a license or whatever they needed
- place to go. So it took as little while to restrict
- and go there and hunt an area. It was kind of a 23

- 1 Q. There was no sense of overgrazing?
- 2 A. No. Parts of Loliondo, oh, my God, it's
- serious erosion. It's really overgrazed, awful and
- this was nothing like that.
- 5 Q. What water sources are there on the land?
- 6 A. Oh, boy.
- 7 Q. Just in your own words, not what other
- people say.
- A. I know, yeah. Well, its water sources are
- seasonal. Very, very limited water sources. 10
- There's no permanent water. At best there are 11
- 12 things that people call springs. I wouldn't even
- give them the title of a spring. I would call them 13
- 14 a seep, at best.
- 15 The pololet river, the way people
- talk about it, it sounds like the 16
- 17 flows through You know, it's just a natural
- drainage area. It's the beginning of a major river 19 way downstream, but in this area there's not enough
- 20 tributaries and things entering that to create good
- flowing water year round or even, you know, for 21 months at a time.
- 23 When it rains that gorge can --
  - Well, I shouldn't even call it a gorge. That water

Page 44

Page 41	
---------	--

- course can fill to a point where you can't, you 1
- wouldn't dare drive in your vehicle across it. It's 2
- a raging torrent. So you wait a couple of hours and 3
- the thing completely drains and becomes dry and then
- you can proceed. So, you know, that's what I'm 5
- talking about. So all that now water has gone 6
- downstream somewhere, off the property. The river
- does cross a small portion of the property. And 8 9 those are the water sources. You know. So they're
- there during certain times of the year. 10
- 11 Q. Is the seep usable for cattle, for
- example? 12
- 13 A. Well, yeah. I mean, the seep can fill
- pools, and yes, it is usable, but in, even -- Well, 14
- there's two seeps and one of them completely dries
- up in the dry season. I'm not sure about the other 16
- one. I think it may dry up, too. I'm not sure, but 17
- it produces very little in the dry season. 18
- O. What are the names of the ones that we're
- talking about? 20
- 21 A. One is oltimi (phon.) and the other one is
- -- I don't know the name of it, but it's not --22
- Oltimi is the most prominent one and it's been
- protected. The Maasai people have put thorn brush

- Ndoland (phon.) in Ngorongoro, because they can see
- what's coming. It's going to be pretty serious, by
- the look of it. 3
- So, you know, I suppose to answer
- your question, in a year like this, you know,
- there's not going to be any water there. That gorge
- I was telling you about, has no water now.
- Q. And in a more typical year?
- A. Well, with April, May rains and stuff, I
- mean, at our base we have huge storage tanks for 10
- roof water collection, 10,000 liter tanks. Normally 11
- 12 they're full. They're dry. So that water would
- 13 normally last the crew into, I don't know, July or
- perhaps, I don't know, maybe August depending if it 14
- was a good year or not.
- Q. So are you talking about the tanks or the 16
- oltimi? 17
- 18 A. The tanks. And I would think it would be
- similar for the spring or the seep.
- Q. So I understand again how the pololet 20
- 21 works, when it rains, when it rains heavily, a
- torrent goes through there and passes and is it. 22
- 23 then -- I'm trying to understand. During the rainy
- season is there water in there constantly or is it
- Page 42
  - - really just for a few hours after it rains each.
    - time? 2
    - 3 A. It's really just for a few hours after it
    - rains each time. And I really would like talk us to
    - talk more and clarify this, so it's certain, because
    - there's been so much talk about this pololet river
    - 7 and I think the impression in people's mind is that
    - it's a flowing river year round, and you know, we
    - want to go there for water. And I just want to make 9
    - it very clear that it's not at all like this picture 10
    - that's being painted.
    - Q. How long is the stretch of the pololet 12
    - river that's actually in the property?
    - A. Oh, I would say -- I mean, I'm guessing,
    - but maybe three kilometers.
    - Q. After those rains pass are there pools in
    - that catchment area that remain? 17
    - 18 A. There, there are a couple of places that
    - 19 have, you know, depressions and things and water can
    - collect after the torrent has gone. They don't last 20
    - long, but, yeah, it's possible. 21
    - 22 Q. Would those provide a water source even
    - into the dry season? 23
    - 24 A. A bit on a good year.

around it to protect those ponds that I mentioned,

- to try to prevent wildlife getting in there and
- drinking. So even in, you know, like, when the 3
- other sources are gone, that water, there might 4
- still be a chance to have water there. The other 5

one -- I don't know its name, but it's like the end

- of a granite gorge and water can seep down through
- that gorge for some time into the dry season, but
- then that, too, dries up.
- 10 Q. Just so I kind of have a picture here, the
- oltimi?

- 12 A. Yeah.
- 13 Q. The oltimi, because it's protected, it can
- 14 last as a moderate water source into the dry season?
- 15 A. Yeah, for a part, yeah.
- 16 Q. How far into the dry season?
- 17 A. It depends on the year. This year, for
- 18 instance, was very strange. There was no April, May
- 19 was in in March and the last rains they had was March. Typically, April, May was 20
- long rains and it didn't get a thing. And I was 21
- 22 there in June and, you know, it was like it was
- October. And so there's serious problems. And already people are moving cattle out of the area to

Page 45

- 1 Q. In a good year, as in a bit, as in like a
- 2 month, or?
- 3 A. Yeah, yeah, perhaps. You know, they're
- not enormous areas. You know, maybe perhaps not
- even the size of this room, you know. Quite small.
- 6 O. And that area, after the rains stop, it's
- not being replenished?
- 8 A. Exactly. It's evaporating and wildlife
- are drinking it and it's mud before you know it.
- And they're not really deep, either.
- 11 Q. According to your knowledge have members
- of the surrounding communities ever built structures 12
- on the lands since acquired it? 13
- 14 A. No.

6

- 15 Q. When did you first start learning or
- hearing about members of the surrounding communities 16
- bringing cattle onto the land? 17
- 18 A. It's really hard to have actual dates, but
- I think it's, you know, it was -- I don't know, 19
- maybe 2008 or something. I mean, I don't know. A 20
- couple of years after we started doing -- Might have 21
- 22 even been a bit later. I'm trying to think, because
- we didn't put our first camp and start the tourism 23
- operation there for a couple of years, because, you 24

- property to try to find a great spot for a camp, for
- the main, you know, tourist camp and had meetings
- with community people on the property, talking to
- them about our plans and what we were going to do.
- It felt good.
- O. And to be clear, my question about people
- bringing their cattle onto the land to graze, I'm
- not talking specifically about the problem grazing,
- confrontational grazing.
- A. Oh. 10
- 11 Q. I'm just talking about whether there were
- times that you knew of people with cattle on the 12
- 13
- 14 A. Um, I think it would be ridiculous for me
- 15 to say that that never happened, you know. I'm sure
- that people, like they do now, they graze around the 16
- periphery and so on. But there was no huge drama. 17
- There was no big problem. I mean, you know what
- we're talking about now is thousands of head of 19
- cattle, you know. I mean, that is, that was
- definitely not happening. 21
- Q. In your policies, I think you make a very
- clear distinction between the dramatic cattle
- grazing that you perceived and what might be maybe

Page 46

Page 48

- 1 know, we needed to organize walking trails and, you
- know, driving routes and figure out, you know, how 2
- long it takes to do trails and what to use for 3
- tourism and to find a place for a camp and, you 4
- know, stop the poaching and give the wildlife a 5
- chance to come back. So, you know, it took a couple of years in preparation to get ready. So I think it 7
- was probably once we started doing some tourism that 8
- this came about. Or it could have even been -- It's 9
- so difficult to think back, but, you know, perhaps 10
- did its first 11
- project, right around that time or something. 12
- 13 O. Which would have been around what?
- 14 A. That would be more like 2009 or '10,
- perhaps. I'm not sure.
- 16 Q. And in those early years when you were
- first getting things set up?
- 18 A. Yeah, seemed great.
- 19 Q. As far as you knew, no sign of people
- bringing in their cattle to graze?
- 21 A. Yeah, yeah, yeah, no, it seemed really
- great. And I'd go there and camp, not in an 22
- elaborate camp like we have now, but small pup tents
- and sleeping bags and we would move around the

- more occasional, or as you say, around the
- periphery. So I'm trying to understand about that 2
- second kind at this point. So it sounds like what
- you're saying to me is your assumption to me is it
- was happening, but it wasn't something that you
- particularly noticed, is that right? 6
- A. Well, you know, you try to be small scale
- and you try to be good neighbors. And you're not --
- I mean, what we're talking about now is really
- aggressive stuff, is bringing huge herds and drive 10
- them right into the camp with tourists there and, 11
- you know, blocking roads with cattle so vehicles 12
- can't move. Just clearly, you know, egregious stuff 13
- 14 and deliberate. We're not talking about some guy
- 15 and a few cows, you know, on a periphery grazing,
- you know. 16
- Q. At that time would you have been surprised 17
- 18 to see a herd of cows in the property, as opposed to
- the periphery? 19
- A. Yeah, I think so, yeah. 20
- Q. But around the edges it would have been 21
- kind of normal? 22
- 23 A. Well, you know, I don't want to give the
  - impression that this is big time and all that.

Page 49

- Like I said, I think it would be silly for me to say
- 2 there was never a cow on the property, you know.
- 3 But it was small time and it was not an issue and no
- 4 one was being really aggressive about it or -- It
- 5 felt whatever I did see and whatever was happening
- 6 felt neighborly and, you know what, this is fine
- 7 kind of feeling.
- 8 Q. And at what point did adopt a policy
- 9 on grazing?
- 10 A. Well, I suppose when we first started
- 11 having problems, when it became apparent that we had
- 12 to do something, so that would have been, you know,
- 13 around this time period we're trying to tie down.
- 14 Q. This time period somewhere between 2008
- 15 and 2010?
- 16 A. 2009, 2010, yeah, in there somewhere, I
- 17 suppose. You know, and at first it was probably
- 18 just a verbal thing, you know. And then eventually
- 19 I'm like, okay, let's write it down and let's make
- 20 this, you know. It just sort of grew out of the
- 21 need because of the change that was coming about.
- 22 Q. Let's take a look at a document to get
- 23 down to this, because I think it would be useful to
- try to see if we can figure out anything about the

- for that would make sense in my mind.
- 2 Q. But from your point of view, there's no
- 3 reason to take this to assume that there was an
- 4 issue in 2006?
- 5 A. Right, no.
- 6 Q. Do you know when this was first put in
- 7 writing, when a version of it was first put in ...
- 8 writing?
- 9 A. No, I'm sorry.
- 10 MR. KAUFMAN: Let's label this as
- 11 <u>T-6</u>.
- 12 (Exhibit <u>T-6</u> marked for
- 13 identification.)
- (Document handed to the witness.)
- 15 Q. Is this an e-mail from Daniel to you from
- 16 February 2008 talking about Enashiva issues?
- 17 A. Yeah. It's pretty old. I'll take a
- 18 moment to read it to catch up on --
- 19 Q. Sure, take your time.
- 20 A. Okay. It's a little confusing, but okay.
- 21 Ask me some questions.
- 22 Q. Do you know what incident they're talking
- 23 about in the first --
- 24 A. The women?

Page 50

- 1 dates.
- 2 MR. KAUFMAN: I'd like to introduce
- 3 any as T-5?
- 4 (Exhibit <u>T-5</u> marked for
- 5 identification.)
- 6 (Document handed to the witness.)
- 7 Q. Is this TCL's grazing policy as of May
- 8 2013?
- 9 A. Yeah, looks like it, yeah.
- 10 Q. At the top here it says, Effective 2006.
- 11 A. Yeah.
- 12 Q. What do you think of that?
- 13 A. Well, I suppose when wrote this that,
- 14 you know, he wanted to make it effective back then,
- 15 to back then.
- 16 Q. So it may have just kind of been an
- 17 assumption since has been here?
- 18 A. I, like I say, we talked about it. I
- mean, initially this wasn't written. This is, guys,
- 20 this is what we have to do and make sure you don't,
- you know, escalate these issues. Be friendly and so
- 22 on. And I suppose when it came down time for
- 23 to actually put this in writing, then, you know,
- 24 just dated it like that. I don't -- I can't speak

- 1 Q. Yeah, the women who went to Loliondo?
- 2 A. That's the confusing part about me. On
- 3 one hand it's about cattle and water access and so
- 4 on. And then there's this bit about the women.
- 5 which doesn't tie, because women don't usually get
- 6 involved with cattle and livestock issues.
- 7 Q. But there is that part in the third
- 8 paragraph that says, it's against the law to go on
- 9 someone else's property.
- 10 A. Yeah, yeah. So it seemed like they got
- 11 together and went on the property to talk about
- cattle and water, which doesn't quite gel for me.
- 13 So I think there's a couple of issues here that I
- don't, that the way written it, they're
- 15 supposed to be separate, but the way it's written it
- 16 doesn't quite make sense to me, knowing Maasai and,
- 17 you know, tasks that women and men have.
- 18 Q. By which you mean that women are not
- 19 usually keeping the cattle?
- 20 A. Correct.
- 21 Q. This was in February, so this would have
- 22 been during the rainy season.
- 23 A. Correct.
- 24 Q. Is that right?

Page 53

- 1 A. Yes.
- 2 O. So whoever their side is, they're saying
- 3 they want to bring in cattle to drink water?
- 4 A. Correct. That's what he's saying here,
- 5 yeah.
- 6 Q. And suggesting that they should
- 7 be allowed to bring in cattle for water, but then
- 8 leave?
- 9 A. Well, he's saying, yeah.
- 10 Q. During the rainy season.
- 11 A. I mean, he's a Maasai. He's a smart guy.
- 12 You know, it's rainy season. They want to come on
- 13 the property for water? I don't think so. They
- 14 want to, you know -- There's another reason and it's
- 15 probably for grazing. And the excuse is, well,
- 16 let's find the water that's the furtherest from
- where I am now and we'll take the longest to get
- 18 there and our cattle can have a nice lunch on the
- 19 way. I think that's kind of what is getting
- to the bettem of here
- 20 to the bottom of here.
- 21 Q. So at least at this point in February 2008
- 22 there was at least talk about locals wanting to
- 23 bring their cattle onto the land?
- 24 A. Yeah, but then goes on to say, you

- 1 Q. I think the only relevant part of this
- 2 document is the first page, but if you want to look
- 3 through it, feel free.
- 4 A. Okay.
- 5 Q. Is this another e-mail from to you,
- 6 this time from May 2008 about various
- 7 issues?
- 8 A. Yes.
- 9 Q. At the top here he says he had a short
- 10 meeting with elders from Irmasilig, Maanda's area
- 11 and another sub village, as well. They want to
- 12 bring their cattle to the water holes in the
- 13 korongo, k-o-r-o-n-g-o. First of all, what's a
- 14 korongo?
- 15 A. It's a gully.
- 16 Q. Would this have been referring to the
- pololet or would this have been something else?
- 18 A. Yeah, I mean, it could have been. Wait a
- 19 minute. Asking to bring their cattle to the water
- 20 holes in the korongo you cross going to the kopjes.
- 21 Yeah, I would say that probably was the pololet.
- 22 Q. And in the next paragraph he sets, I know
- 23 the main agenda will be water, but in reality it is
- 24 grazing. We have allowed them in the past to access

Page 54

- 1 know -- I also don't talk to safari guests about
- 2 cattle problem on the property. And actually, it is
- 3 not a big problem, as it was only caused by one boma
- 4 in the whole neighborhood and we have solved that in
- 5 yesterday's meeting.
- 6 So, you know, maybe this is, like,
- 7 in the beginning, beginning of this or something.
- 8 You know, he's saying it's not really a big problem,
- 9 but obviously, these women came here. I'm not even
- 10 clear they came with cattle, but they came to
- 11 demand, you know, water. Well, it doesn't make,
- 12 really doesn't make sense.
- 13 Q. Okay. I'm just trying to pin down --
- 14 A. Yeah, I know, but what is happening here
- 15 is kind of strange and why women would be gathered
- 16 up to come and demand such a thing -- That would be
- 17 a man's task. You know, he has his suspicions,
- 18 which he mentions here about why this happened. It
- 19 isn't an unusual occurrence.
- 20 MR. KAUFMAN: I'd like to have this
- 21 labeled as T-7.
- 22 (Exhibit <u>T-7</u> marked for
- 23 identification.)
- (Document handed to the witness.)

- some water holes which don't give them any room forgrazing.
- 3 So, State I take this to mean that
  - is saying that at this point at least in
- 5 May 2008 there is some history of allowing cattle to
- 6 come onto the land to use the water, again, being
- 7 careful about the grazing issue. Do you --
- 8 A. Yeah, I mean, I think we have tried to be
- good neighbors with people. And you know, in
- 10 drought times we'll let them come on. We sort of
- 11 think of state of the state of a grass bank. And you
- 12 know, if things get really desperate, they can
- 13 utilize that. And I think the water is a bit the
- 14 same.
- But you know, people just need to
- ask. We need to understand who's on the property,
- 17 why they're there so that we, we have an
- 18 understanding of that. Otherwise, people will be
- 19 all over it willy-nilly, you know.
- 20 So I think this is about that,
- 21 although it's May. I would have thought there'd be
- 22 water, you know, wouldn't have to come on.
- 23 necessarily, for water. But anyway, that was his
- 24 decision, so --

In Re: Application of Loserian Minis, et al. v. Page 57 Page 59 MR. KAUFMAN: I'd like to label this 1 O. So again, I really just kind of trying to 1 as T-8? establish the time line of how this, how the various 2 (Exhibit T-8 marked for issues between the company and people who were in 3 identification.) conflict with the company developed. So it seems as 4 (Document handed to the witness.) if at this point, at least, grazing was on the 6 Q. There's a lot of stuff here, but I'm agenda? hoping to focus on the bottom of the second page A. Well, this reminds me that Nanyoi was, talking about the committee. Obviously, a lot of must have been shot, you know, prior to this, 8 contentious stuff in this e-mail, but that's not the because it talks about how his father joined the 9 point of these questions. 10 committee. So if I had to have guessed, I would 10 11 A. So bottom of the second page. have guessed Nanyoi, that incident happened after 11 12 Q. Bottom of the second page, top of the this, but apparently not. So that helps me, too. 12 So -third. 13 13 14 A. In addition, you formed a committee? 14 O. Again, for the moment, just again focusing Q. Is this an e-mail chain between you and on the grazing issues, was this committee, among and eventually as well, talking about a other things, concerned by requests by community security allegation and also about the grazing members to use part of the land for grazing? 17 1,7 18 A. Sorry. Could you state that again? 18 committee? 19 A. I'm sorry, can you ask that question? 19 Q. Was this committee, among other things, dealing with requests to use for grazing? 20 Q. Yeah, sure. Well, starting from the top, is this an e-mail chain between you, A. I think so, ves. 21 Q. Okay, thank you. At this point how would talking about 22 22 23 A. Yeah, I guess it looks like that way, you describe the policy at 23 on grazing? yeah. What was the policy for local community members to Page 58 Page 60 1 Q. And the earliest e-mail in the chain, use the land for grazing? which is the last one, you are asking about 2 A. Thev -the formation of a committee. What is this 3 MR. MARX: I'm sorry. First, you're committee? speaking in the present tense and in the past tense. 4 So are you talking about the current policy? 5 A. Well, if I'm not mistaken, this was requested by the DC to try and create some MR. KAUFMAN: At that time. stability. So, you know, does that answer your A. Before anyone could come on the property question? they would seek permission. 9 Q. So you asked you formed a Q. And typically, under what circumstances 9 committee. would permission be granted? 11 A. Yeah. 11 A. If the need was seen as necessary, I 12 Q. Please give me the name of the committee suppose is the best answer. You know, so if they 12 13 and what its task is? came with a legitimate need that made sense and, you 13 14 A. Yeah. would agree to that. And maybe he 14

15

17

18

19

20

617-451-8900

the need be there.

21 Q. So there was not like -- Was there a

15 Q. And his response was that it would manage

- 16 the conflict between the community and the company,
- 17 act as a liaison, and if the community needs a
- grazing area, it would be a channel for those 18
- requests. Is that right? 19
- 20 A. Yeah. I think the idea was that the
- community, these people, these leaders or this
- committee that's formed from the community would 22
- help with some of these decisions rather than it all 23
- landing on the bead or -- That's it.
  - Jones Reporting Company

would limit them in some way or they would discuss,

where they could go. Maybe he would assign one of

his scouts to go with them or something, you know,

but that would be all discussed, you know, should

general policy on rainy season versus dry season?

would come to us wanting to take their cattle on the

23 A. Well, it's a crazy thing, you know, people

you know, what the full visit was all about and

Page 64

Page 61

- property during the rainy season and they wanted to
- go there for water. So you know, it's like, well, 2
- is that a legitimate reason? It doesn't make sense. 3
- And you're coming from where? Why would you want to
- walk all your cattle that far where you have water
- where you are? So when people come to us with those 6
- things, it feels like it's just harassing us, you 7
- know, trying to prove a point or something is going 8
- on. There's some agenda.
- 10 Q. So I understand the pretextual issue, the
- feeling that there were times when people were 11
- asking to come onto the land either for grazing or 12
- for water and judgment was this was 13
- really a pretext, because in fact there was land --14
- there was grass and water elsewhere. But in a 15
- situation like that, would 16
- 17 A. In a situation like the one I --
- Q. A situation where he believed it was a
- pretext. 19
- 20 A. Yes.
- 21 Q. So if someone came in and said I'd like to
- bring my cattle on to use a water source and
- looked around and felt there was plenty of 23
- water elsewhere, there was plenty of grass 24

- MR. KAUFMAN: <u>T-9</u>. 1
  - 2 (Exhibit T-9 marked for
  - identification.) 3
  - (Document handed to the witness.) 4
  - 5 Q. I'm just going to focus at the top above
  - Wildlife. Is the second e-mail in this chain, the
  - one that starts just around the quarter page of the 7
  - first page, is this an e-mail from 1
  - bout {
  - 10 A. Yes, it's titled, subject is
  - Report. 11
  - 12 Q. Thanks for the confirmation.
  - 13 A. Okav.
  - 14 Q. Up at the top here talking about
  - a celebration that, a New Year's celebration with 15
  - 16 people from the surrounding communities in which
  - they talked about how they benefited from the grass 17
  - during the drought. Can you tell me a 18
  - 19 little bit about that drought, what happened?
  - A. Yeah, there was a -- I think it must have 20
  - been in 2009, so I suppose I'm guessing a bit, but I 21
  - would assume August, September, October time was 22
  - probably when it was really bad and, you know, it 23
  - 24 was one of those times when cattle, livestock were

- elsewhere, he would say no?
- 2 A. Yeah, that's correct, yeah.
- 3 Q. Were there other times when
- would say no?
- 5 A. Well, I mean, I can just sit and dream up
- a situation, but any situation where it seemed the б
- request seemed to not make sense, I would expect him 7
- to say, I'm sorry, no, we have to say no. 8
- O. If they wanted to use water when there was
- no water, for example? 10
- 11 A. Well, no, yeah. Like I said, earlier we
- try to be good neighbors and people in dire need, 12
- gosh, you know, we've trucked tons of grain to the 13
- area when there was a drought. You know, we help 14
- 15 people. We're in the community, you know, doing
- community tourism. We're there to help people. And 16
- 17 we take them to hospital when they're sick and
- stuff. And, you know, so the only way we're going
- to have a hope of doing community tourism where our 19 20 guests are feeling welcomed and happy is by being
- good neighbors. 21
- MR. KAUFMAN: Can we have this 22
- 23 marked T-8?
- MR. MARX: We're up to 9. 24

- dying all over Loliondo and that was the time that
- we trucked in the maize into Wasso to help people.
- So I know it says here we're speaking of a grass 3
- bank, so do you --
- Q. Actually, I wanted to kind of understand a
- little bit. I think yesterday, actually,
- 7 mentioned that one of the issues with the drought,
- of course, is that you want to be able to give an
- opportunity for surrounding community members to
- graze, but of course, the drought hits 10
- 11 well. So during that time was there grass at
- 12 for people to come and use?
- 13 A. Well, I think we have a video of a guy
- thanking us for helping him out during that time, you know. I think what he was implying was that, 15
- as a resource during those 16 you know, having
- 17 bad times really helped.
- Q. So the answer is yes, there was at least 18
- some grass at during the drought that 19
- 20 people could use?
- 21 A. Yeah.
- 22 Q. So why does put in parentheses
- after people were thanking him, he says, (though we 23
- never allowed them). What does that refer to? 24

Page 68

Page 65

- 1 A. Yeah, that's a kind of unfortunate, I
- suppose, way to write things. I think what he might
- be saying is that he might have turned a blind eye. 3
- 4 Q. People maybe didn't ask for permission the
- way they were supposed to, so they may have just 5
- come on? 6
- 7 A. You know, that's the way I'm reading it,
- yeah. He was being a good neighbor. You know, and
- even though he goes on to say that those people said 9
- that they would help protect 10 **F**rom people
- 11 who bring cattle from far away to come and graze
- there. And, you know, just because -- That was a 12
- 13 particularly bad time and people in Kenya were hard
- hit, too. So the way that they solved their problem
- was just drive their herds over the border and came
- 15 into Loliondo, floods and floods right into the OBC.
- 16
- Arab hunting block. And you can imagine how that 17
- happens is, No, you can't come here. I've got all 18
- 19 my cattle. Things are bad enough. Go that way, pointing to OBC or, you know -- And that place must 20
- have been a haven for them, because no one was 21
- 22 allowed to go there. It was an Arab hunting block
- and those Kenyans were just pouring in with their 23
- cattle. You know, I mean, and that, I suppose the 24

- 1 A. I'm not sure I understand what you mean.
  - 2 Q. Yesterday aid, for example,
  - felt that she thought that there was one
  - large enclosure with a number of different bomas in
  - it. Is that right?
  - A. Yeah. It's a settlement with a number of
  - houses in the settlement.
  - Q. How big would that settlement be, roughly?
- A. Like square feet or something or? It's,
- you know, if I can use -- Well, it's a Maasai -- I
- 11 hate to use the word boma, because it's just such a
- funny term in this setting, but you know, it's a 12
- thorn brush enclosure and you go through the 13
- entrance and, you know, the guy's first wife is on 14
- one side and the second wife is the other side and
- it's laid out and, you know, it's one of those. And
- it probably has, I don't know, I don't know, half a 17
- dozen, seven houses or something. I'm not really 18
- 19
- Q. Typically, just knowing what you know 20
- about the Maasai, would it be an extended family, a
- 22 single extended family or a single set of relations
- inside one enclosure?
- 24 A. Yeah, I would think it would be.

- OBC hunting block became a grass bank for them.
- They were definitely steered there by Tanzanians, 2
- because the Tanzanians didn't want them coming 3
- eating what little grass they have.
- Q. In their normal range land? 5
- A. Yeah. I don't know why they didn't find 6
- 7 but if they had, I'm not sure we could
- have done too much about it. 8
- 9 Q. Are you familiar with the discovery
- recently take there were actually bomas inside the 10
- boundaries at 11
- 12 A. Yeah.

1

- 13 Q. How did that happen?
- 14 A. That happened -- A government official
- 15 told us. We thought we had the boundary lines all
- figured out and he corrected us. We've never 16
- 17 actually, actually gone and had an official survey.
- I mean, we thought we knew and he told us otherwise.
- And I suppose it would be prudent to find out once 19
- and for all, you know, if he was even correct, but 20
- he seemed pretty, pretty knowledgeable.
- 22 Q. What's your extent -- What is your
- 23 understanding of the extent of that occupation in
- that corner of the farm?

1 Q. And again, just trying to understand the

- extent, this is something, would this be a mile
- across or would it be a hundred feet across or less? 3
- A. Oh, yeah. You know, it's, I mean,
- it's thirty, forty feet or something across.
- 6 Q. With a number of small huts?
- A. Yeah, houses around, yeah. I mean, you
- know when I say houses, I'm talking about really
- traditional Maasai dwelling, you know, mud dung roof
- house. You know, this is a very rural, you know, 10
- remote community. And these Maasai are living --11
- 12 It's really hard to find Maasai live a traditional
- way of life like they do in this area. Not that 13
- many do that any more, but, you know, it's that kind 14 15 of thing.
- MR. KAUFMAN: I'd like to label this 16
- 17 <u>T-10</u>.

19

- (Exhibit T-10 marked for 18
  - identification.)
- 120 (Document handed to the witness.)
  - These are maps that were attached to an
  - e-mail from Do you recognize them?
- Not sure that I do.
- Q. You don't remember seeing these before?

Page 69

- 1 A. I see it's got a date of 2011 on it and it
- 2 kind of indicates that there are one, two, three,
- 3 three bomas -- Is that our property line? Looks
- 4 like it.
- 5 Q. Is that polygon in T-10, is that more or
- 6 less the shape of
- 7 A. Yeah, it is, yeah.
- 8 Q. I see a label that seems to suggest that
- 9 the is kind of right there in the
- 10 middle. Would that be right?
- 11 A. No. The camp is way down here on the
- 12 left-hand edge. See where it says Camp?
- 13 O. The icon?
- 14 A. Wait a minute. No, that -- Sorry. That
- is, where it says Camp with that little house thing,
- that's the, that's and his team's spot. Then
- 17 above that is something, there's an S and it says
- 18 right?
- 19 Q. Yeah.
- 20 A. So I think, I think right by the P there's
- 21 another sign. There's an another little triangle
- 22 there. I think that's the
- this map doesn't make sense. There are no bomas
- 24 over here in this area.

- 1 right-hand side, the ones opposite Luguru, they
- 2 don't make any sense to me at all. The one above it
- all by itself there, if that was further north and
- 4 close to the line, I would think that could be the
- 5 Nanyoi thing that we've been talking about.
- 6 Now, I don't know how these were
- placed, how this is, what -- how people plotted
- 8 this, but I don't think this is accurate. And there
- 9 certainly were not these two bomas on the land in
- 2011, or even to this day. There's only one area
- 11 and that's in that northeast part. That really
- 12 isn't depicted well here.
- 13 O. Could you show me, and we'll try and
- 14 describe it for the record, where, in your
- 15 understanding, that boma that was discovered
- 16 recently is?
- 17 A. Okay. If you see Mawe Tatu at the top of
- 18 the page, there's like a corner of the property
- 19 there. If you follow that line down and to the
- 20 right, the corner there, and then to the left of
- 21 that is the little boma all by itself, right? So I
- think that that little boma should be up the page
- 23 and a bit to the left, close to the boundary line is
- and a bit to the left, close to the boundary fine i
- 24 where I would put it.

Page 70

- 1 MR. MARX: Which, just so the
- 2 record's clear, could you describe what areas you're
- 3 talking about?
- 4 A. See where it says Luguru, to the right of
- 5 that there's one, two, three bomas listed there.
- 6 That doesn't make any sense to me at all. That's a
- 7 huge hillside along there.
- 8 Q. And the lone boma labeled that's a bit
- 9 above that, would that be the one that was
- 10 discovered?
- 11 A. I don't think so. That seems to be too
- 12 far inside the boundary. Where did you get this?
- 13 Q. You produced it.
- 14 A. Oh, I gave it to you. Oh, my goodness.
- 15 Hmm. Well, um, I agree that it says 2011. I agree
- 16 that it looks like the shape of the land and I can
- 17 see But the
- 18 placement of these bomas doesn't make sense to me.
- 19 Q. So from your understanding, this does not
- 20 represent any actual reality on the ground at
- 21
- 22 A. Yeah.
- 23 Q. Any time that you know of?
- 24 A. These two, these two bomas on the

- 1 Q. So just to be clear for the record, the
- 2 boma that is listed as being off by itself in the
- 3 upper right portion of the property, if you move
- 4 that icon up and to the left close to the boundary
- 5 line, somewhere along that edge of the property,
- 6 that would be where it is?
- 7 A. Yeah. In my mind, that's kind of where
- 8 it's placed, yeah.
- 9 O. When ---
- 10 A. And like I said, you know, this whole
- 11 thing is just, you know, came about when this
- official told us, you know -- And I mean, I don't
- know if it's a moot point or not. It hasn't even
- 14 been proven. It hasn't been surveyed. This is just
- 15 his understanding of where he thought the beacon
- 16 was, the beacons were and where we thought they
- 17 were.
- 18 Q. Maybe could you explain that to us,
- 19 because we haven't heard how that happened. So when
- 20 did this official come to you?
- 21 A. You know, when the villages all changed,
- 22 people, a team came to resurvey the villages, which
- 23 kind of went nowhere. There was kind of an uproar.
- 24 because people were, you know, I don't know, angling

Page 73

- for where their property lines should be and so on.
- And it became, you know, a bit crazy. So the team 2
- ended up pulling out and going back to Dar Es 3
- Salaam. But during that process these surveyors
- were on the property and, you know, they pointed
- this out. 6
- 7 Q. When was that, more or less?
- 8 A. Oh, gosh. Well, it was after the, after
- Sukenya became a village in its own right and it was
- a long time after we were expecting those village 10
- 11 boundaries to be marked, you know, for a long, long
- time. So maybe a year later -- I don't, I'm not 12
- really sure on the dates, I'm sorry. But well after 13
- the village, Sukenya village became its own village
- the team came to do the survey. And whenever that 15
- was is when this was figured out. 16
- Q. Do you think it was last year or would it
- have been earlier than that? Just trying to
- triangulate. 19

1

4

- 20 A. Yeah, yeah. I'm really not sure.
- 21 Q. After you found out that that boma might
- actually be inside the property lines, did anyone 22
- from go to talk to the owner? 23
- 24 A. No, no. I about had a heart attack. I

- 1 Q. It was just the recent discovery was --
- 2 A. Yeah.
- 3 O. That it might actually be on your side of
- the line?

8

- MR. MARX: Just, you nodded, but you 5
- didn't give an affirmative answer.
- A. Yes, yes, I agree with that.
  - (Discussion off the record.)
- Was there something else that you wanted
- to say about it? 10
- MR. MARX: I have no objection if 11
- you want to --12
- 13 A. You know, while you were looking up the
- next thing, you were just looking at these and you
- 15 know, this is an enlargement of this.
- Q. Right. 1.6
- A. And you know, this one here on the
- boundary line is obviously this one here, but then 18
- there are these two and there are not two here. And 19
- 20 the distance from here to here just doesn't look
- right. So it's all a bit off, you know. So I think 21
- it's just, you know, I don't think this is an 22
- accurate drawing of where these things are located. 23
- MR. MARX: Just so the record is 24

Page 74

2

11

Page 76

was comparing the

- mean, you know. And on top of it all, it's Nanyoi's
- boma, of all people. You know, it's like, give me a 2
- break. So what do we do about this now? 3 And by the way, if you go there -- I
- mean, I used to think thank God this is not on our
- property, because it's like a bomb's gone off. It's 6
- erosion, horrific erosion, overgrazing down to bare 7
- earth that the water has washed into -- You know, 8
- it's just one of the worst cases of, you know, 9
- erosion and bad management of land that you could
- find. You know, it's what people talk about. And 11
- that whole area is like been bombed. It's just --12
- And now there's a potential that it 13
- even could be part of the farm. I mean, that's 14
- 15 pretty awful.
- So there are a lot of issues going 16
- on here and, man, we've got enough things going on 17
- 18 without going knocking on his door saying, Hey, this
- is what we hear is going on. Maybe you don't have a 19
- farm. I mean, I really am not sure what we're going 20
- to do about this. 21
- 22 Q. But so it's your sense that he's been
- 23 there a while. It was only --
- 24 A. Yes, yeah.

clear on that point,

two pages of T-10.

- Q. Maybe something that would be useful and
- that we could put into the record of this deposition
- is would you like to kind of freehand a map of what
- you think it actually, how it actually did work,
- just so that it's clear on the record where you're:
- saying you think things are, or?
- A. The trouble is, I think, you know, it's 9
- not going to being accurate yet again, is it? 10
  - MR. HERZ: It might be easier just
- 12 to draw it on the exhibit.
- 13 O. Yeah, if you wanted to make put an X.
- 14 A. Yeah, but it's still an inaccuracy. It's
- my best guess.
- 16 Q. I think we've described it well enough.
- 17 A. Yeah, okay.
- 18 Q. If we're reading this, we can know what
- your best estimate is. 19
- 20 A. Sure, yeah.
- 21 MR. KAUFMAN: That's all the
- questions that I have about the land issues. So 22
- maybe now would be a good time to take a break and 2.3
- in ten minutes we can come back and Marissa can ask 24

P	'aq	е	7	7

- 1 you some questions and hopefully we'll be out of
- 2 here in a timely way.
- 3 (Brief recess.)
- 4 CROSS EXAMINATION
- 5 BY MS. VAHLSING:
- 6 O. Good afternoon. My name is
- 7 Marissa Vahlsing and I will be asking you the
- 8 remainder of the questions for the afternoon in this
- 9 deposition. I just wanted to pick up on a few
- topics that came up at the end of Jonathan's
- 11 questions to you.
- And returning to the discussion
- about the map and the existence of this additional
- settlement that you have only recently discovered
- us perhaps within the property lines, I just wanted
- to ask when did you first become aware that that
- 17 settlement was where it is? I should say, rather,
- that it existed, not that it was on the property.
- 19 A. I think, I think it was always there.
- 20 Q. Do you remember when you first learned
- 21 that it existed?
- 22 A. I suppose in the early days of taking over
- 23 the property. I mean, if you want a date from me, I
- can't give you that, but early on.

- house, their houses, they have some maize that they
- 2 plant there periodically and it's a small area
- 3 that's completely environmentally damaged. There's
- 4 no available grass to be had. So if they wanted to
- 5 take livestock for grazing, they would have to go
- 6 north, you know, into that area I described.
- 7 Q. What would happen if they came southwest?
- 8 A. Well, because of where their dwellings are
- 9 against the boundary of the property, they would
- 10 have to come onto the farm.
- 11 Q. Have you seen that happen?
- 12 A. Personally, no.
- 13 Q. Has it been reported to you that those
- 14 individuals' cows have come onto the property?
- 15 A. I don't get individual reports, you know,
- about who has done what and where they're from.
- 17 Q. Okay.
- 18 A. So I can't really answer that.
- 19 Q. Okay. This might be a difficult question
- 20 to answer, but if you can, I'd like you to try. How
- 21 often would you say that cattle are brought from
- outside the property onto the property to graze? Is
- 23 this something that happens every day, every week,
- 24 every month? With what consistency?

- 1 Q. So would it be correct to say that you
- were aware it existed before you were aware that it
- 3 might potentially be within the property boundaries?
- 4 A. Yes.
- 5 Q. And that would be a few to several years
- 6 before you learned that it could perhaps be within
- 7 the property boundaries?
- 8 A. Yes.
- 9 Q. Okay. Do you know if the individuals that
- 10 live in that settlement are accustomed to grazing
- 11 their cattle in the environs of the settlement,
- which is to say on the outskirts of the settlement?
- 13 A. They wouldn't be doing that. There's no
- 14 grazing to be had.
- 15 Q. Do you know where they take the cattle to
- 16 graze?
- 17 A. Well, north of them would be available
- 18 grazing and, you know, those plains extend all the
- 19 way to the Kenyan border. So my assumption would be
- 20 somewhere in that area.
- 21 Q. You say that there's no grazing to be had.
- Just so I'm sure I understand correctly, is that
- 23 because it's been overgrazed?
- 24 A. Well, the immediate area around their

- 1 A. I suppose in any given week there would be
- 2 some form of number of cattle on the property to
- 3 some degree. You know, our scouts are, one of the
- 4 daily tasks are to do foot patrols and to, you know,
- 5 control neighbors and grazing. So, yeah.
- 6 Q. Do the scouts patrol for anything other
- 7 than grazers?
- 8 A. Yes.
- 9 Q. What else do they patrol for?
- 10 A. Well, they're always on their lookout for
- 11 potential poachers, who surprisingly will come with
- 12 a vehicle. Generally, they just don't know. Wood
- 13 cutters. They might hear them chopping stuff. Not
- 14 so much charcoal makers, because we find them
- 15 cutting the stuff before they -- You know, it's an
- 16 elaborate process before they get into making
- 17 charcoal, but they can often be the reason people
- 18 cut wood. And there, you know, as they drive around
- 19 the property, they're looking for, you know,
- 20 branches and growth encroaching onto trails and
- walking trails and things. So they might, you know,lop them back and just keep them open. They're
- doing wildlife counts and various activities.
- 24 They're scouts in the field.

Page 84

## Page 81

- 1 Q. Just because you mentioned wood chopping,
- I'm wondering do you have any knowledge about an
- alleged incident in which a man named Mr. Meitaya
- was arrested on the property for having cut down
- wood?
- 6 A. Yes.
- 7 Q. Can you tell me what you know about that
- 9 A. He was discovered with, you know, a
- surprisingly large amount of cut wood. And I don't 10
- think he had a whole lot to say about it. And I 11
- believe he was taken to court. 12
- 13 O. Do you know what kind of wood he cut?
- 14 A. No. I've seen photographs, but I'm not
- sure of the name of the trees or whatever, if that's
- 16 what you're asking.
- 17 O. I guess I'm also wondering why he cut the
- wood, if you happen to know. Is it for personal
- 19 use?
- 20 A. I don't know. I mean, I don't know why he
- cut the wood.
- 22 O. When did you first --
- 23 A. It was a lot. It wasn't, you know, just a
- couple of pieces.

- grazing for a second. And would you agree with me
- that we could use the term confrontational grazing
- to describe grazing that isn't accidental or, you
- know, with permission?
- A. Yeah, I would say that's a fair term.
- Q. Okay. I'm wondering could you tell me
- 7 what policy is when somebody comes
- onto the land to graze and they don't have
- permission and yet they don't use violence, what
- happens?
- 11 A. Well, you know, that happens, you know,
- reasonably frequently. People just choose to, you 12
- know, dream up some excuse and everything from, Oh, 13
- I got lost, I don't realize, or fell asleep and my, 14
- you know, livestock wandered over there and, you 15
- know. So the scouts are dealing with this by saying 16
- 17 to them nicely, Hey, you know, you're inside the
- farm boundaries. Can you, you know, move your 18
- livestock, you know, off the farm? And generally, 19
- they're fine and they'll apologize and offer some 20
- excuse. And you know, which is often a bit equal 21
- to, well, the dog ate my homework kind of thing. 22
- You know, they're very weak excuses, but they're 23
- just accepted as, okay, well, try not to do it next 24

Page 82

- 1 Q. Have you ever spoken to Mr. Meitaya?
- 2 A. No.
- 3 Q. Do you know if Mr. Meitaya happens to live
- in the settlement in the northeastern corner that we
- just discussed?
- 6 A. I think I've learned that he does.
- 7 Q. Do you know where on the property he was
- found cutting the wood?
- 9 A. No, I don't.
- 10 Q. Okay. Do you know what charges, if any,
- were brought against Mr. Meitaya after he was found
- 12 cutting wood?
- 13 A. I'd have to review -- There are some
- documents about this. I'd have to review them to
- 15 refresh myself.
- 16 Q. I unfortunately don't have the charge
- 17 sheet for him, so I would show it to you if I did to
- remind you. Do you have any information about what
- happened when he was found chopping the wood and the 19
- calling of the police? Do you know who called the 20
- police, if anyone? 21
- 22 A. No. I think I'd have to review some
- paperwork about that to refresh myself.
- 24 Q. I just wanted to return to the issue of

- time and off they go. And I think they feel the
- owners of the cattle feel like, you know, maybe this
- is -- Who knows. So it works, it goes like that. 3
- Q. Have you ever heard of an incident in
- which a herder came onto the property to graze and
- didn't use violence, but was still arrested?
- 7 A. I think before the police would be called
- there would have to be some confrontational event
- happen. I cannot imagine someone being arrested by
- 10 the police for, you know, just entering the
- property. I think it would have to have escalated 11
- into something. 12
- 13 Q. I'll try to get your help with something,
- then, that said you might know about. One 14
- second. So this is was introduced as an exhibit 15
- before, but let's give you extra copies. This was 16
- 17 marked as W-23 and I would like to mark it as T-11.
- (Exhibit <u>T-11</u> marked for 18
- 19 identification.)
  - (Document handed to the witness.)
- 21 Q. Have you seen this document before:
- 23 A. Yeah, I have.
- 24 Q. Can you tell me what it is?

20

Page 88

Page 85

- 1 A. Yeah. It's this case of five people being
- 2 charged for or arrested and charged. And, you know,
- 3 I mean, I understand why you pulled this, because it
- 4 took the charges that they unlawfully did enter and
- 5 graze cattle in the said area.
- 6 O. Do you read Swahili?
- 7 A. No.
- 8 Q. Hoping you might be able to help me read
- 9 the second half of the document.
- 10 A. No.
- 11 O. That's okay. Yeah, so that's exactly why
- 12 I am showing this to you. I'm wondering if you know
- 13 of anything special about this case that would have
- 14 precipitated charges?
- 15 A. No. I don't know anything special. And
- 16 again, you know, we have people, you know, our
- 17 scouts are telling people to move their cattle, you
- 18 know -- It does not make sense that someone would go
- 19 to all the trouble of calling the police and having
- 20 these five arrested for what it says here on this
- 21 paperwork, you know. There must have been something
- 22 else going on that enabled it to escalate this
- 23 degree.

1

24 You know, generally speaking, if

- 1 charge sheet?
  - 2 A. I don't know. I have no idea.
  - Q. Do you know if you took any steps after
  - 4 seeing this charge sheet to investigate the
  - 5 incident?
  - 6 A. When you say investigate, no, I didn't do
  - 7 any investigation. I'm sure it was a topic of
  - 8 conversation at the time, but I didn't deeply probe
  - 9 it.
  - 10 Q. Did you talk to your staff to try to find
  - 11 out what had happened?
  - 12 A. Whenever these things happen, and there's
  - 13 been a few, you know, I, you know, I'm made aware of
  - 14 them and discuss it and --
  - 15 Q. Do you know if police who are called to
  - 16 come to the land to assist with an issue of
- 17 confrontational grazing follow
- 18 for, you know, deciding whether or not to make an
- 19 arrest or whether to call the chairman first? Do
- 20 they follow, take any directives from
- 21 about how to handle the situation? Or once they
- come in, is it however the police choose to deal
- 23 with the situation?
- 24 A. If a situation escalated where it was felt

- someone, if a situation escalates, it's not
- 2 automatic call the police. You know, it's call the
- 3 chairman of their village, you know. Try to get him
- 4 to intervene, have him talk to them. It's, you
- 5 know, it's, we try to work this stuff out, you know.
- 6 The last resource is to call the police. And the
- 7 police are only called when the situation is
- 8 escalating and people are feeling like they're being
- 9 threatened or something of that nature.
- 10 Q. This might seem like an unusual question,
- but have you ever heard of anyone paying the police
- 12 for the service to come onto the land and deal with
- a situation, confrontation with herders?
- 14 A. You mean --
- 15 Q. Anyone at
- 16 A. You mean paying them to come to the farm
- 17 to deal with the problem?
- 18 Q. Uh-hum.
- 19 A. No, it's not necessary to pay them to do
- 20 that.
- 21 Q. And you haven't heard of anyone paying
- 22 them?
- 23 A. No.
- 24 Q. When was the first time that you saw this

- 1 that the police were required, then when they
- 2 arrive, it's over to them.
- 3 Q. Okay. Now, I hope you will be able to
- 4 help me with this, because I was told you would have
- 5 more knowledge. Could you tell me more about which
- 6 weapons, if any, Maasai warriors carry on them and
- what they are called?
- 8 A. Sure.
- 9 Q. Okay.
- 10 A. So I think we need a bit of background,
- 11 because, you know, I don't want you to think of
- 12 Maasai as these, you know, people living in these
- 13 rural areas and that Maasai are one of the 120
- 14 different ethnic groups that make up the country.
- 15 Some of them are politicians, you know. Some of
- them are lawyers, you know. I mean, they're all
- 17 walks of life. But what makes the Maasai unique is
- 18 that there's a small group of them that still live
- 19 in the real traditional way. And this part of
- Loliondo being a rural, remote community is one of those areas where you can find Maasai still living
- 22 like this. And when I say like this, it means, you
- 23 know, they live in a earthen floor house. They
  - 4 don't have running water, electric light. You know,

Page 92

Page 89	89
---------	----

- they live in the most primitive way. 1
- So these things that they wear, you 2
- know, I think they're more like tools. So, you 3
- 4 know, depending on where you stand in the community,
- whether you're an elder or junior or child or 5
- whatever, you know, it depends on what you might 6
- wear. But I suppose most people might think ever a 7
- Maasai warrior in all his regalia and his braided 8
- 9 hair and everything, and so that person would wear a
- belt with a knife, a long bladed knife on it that 10
- they're all identical. Every Maasai you come across 11
- 12 will have one of these. It's not like a different
- 13 brand or different shape. They're all the same
- color, even. And the belt is often beaded in some 14
- special way. He will also carry a spear, if he's, 15
- you know, walking a long distance across some, you 16
- know, more wilderness area or an area he's not 17
- familiar with. But more often than not they will 1.8
- have this stick we've been calling with the knob on 19
- the top, which is a throwing stick, and I suppose 20
- 21 also traditionally used in close quarter combat,
- but, you know, really isn't used in that manner 22
- these days. A lot of this is tradition. And they 23
- would then carry a very long, straight stick, which, 24

- Maasai warriors outside of the property?
- 2 A. Exactly, apart from the spear. There's no
- reason for them to be toting around a spear.
- 4 Q. For who, sorry?
- 5 A. For the scouts on
- 6 Q. So the scouts traditionally don't have a
- 7 spear?
- 8 A. Not, not while they're on duty on the
- farm. I mean, perhaps they do at home, but, you
- know, on duty on the farm they have no need for that 10
- and typically they wouldn't carry one. 11
- O. Do the Maasai from outside of the property 12
- who come onto the property traditionally carry a 13
- spear, do you know? 14
- 15 A. Generally not. Depends where they're
- going, what they're doing. I've come across a 16
- couple of Maasai just walking across the farm, you 17
- 18 know, heading somewhere and when stopped and
- questioned, oh, we're on our way to, you know, so 19
- 20 and so and we're coming from there. And you know,
- 21 so they're, you know, they're on a long walk and so
- they would have spears. 22
- 23 O. Does have a policy with
- respect to individuals crossing the land without 24

## Page 90

- you know, would probably reach from me to you for
- directing cattle and things. And even another
- shorter stick, straight stick, similar kind of 3
- thing. And they're often carried just bundled in
- the hand or stuck, the rungu might be stuck in the 5
- belt along with the knife. And that's kind of it, 6
- really. 7

8

- Once in a while, depending where
- they live, they might have a bow and arrows, but
- that's not really seen that often. So those are the 10
- things. And you know, I guess in those rural areas 11 and you're out grazing your cattle and whatever, 12
- 13 it's very handy to have these things. If you want
- to make a cattle enclosure, you need your knife to 14
- chop off some limbs off an acacia tree. I mean, 15
- like our scouts, for instance, walking the walking 16
- trails, they might chop off a thing that needs 17
- trimming, you know. It's just a tool for them. 18
- That's mostly what it's for.
- 20 Q. So they carry a lot of accessories?
- 21 A. Well, they carry those simple items, yeah.
- 22 Q. Would it be accurate to say that the
- Maasai scouts that employ
- carry very similar tools or accessories to the

- cattle, so, like these guys, for example, right of
- 2 way?
- 3 A. They too should ask permission, but they
- were strangers. They didn't really understand
- anything was going on. They weren't from that area.
- They were just knew where they were going and were
- crossing this area.
- 8 Q. If someone who doesn't --
- A. You know, so everyone ideally should seek
- permission to enter the property, just so we are
- aware of them being there and understand why they're 11
- 12 there.
- 13 Q. And what happens when your scouts
- encounter someone on the property who doesn't have
- cattle, but just is crossing and doesn't have 15
- 16 permission? Do you know what happens in that
- 17 circumstances?
- 18 A. We question them, ask them what they're
- doing there, understand why they're there and 19
- 20 perhaps allow them to carry on or perhaps even drive
- them, you know, to where they're going off the 21
- 22 property or something.
- 23 Q. Is it common for children to cross the
- land to go to school?

Page 96

Page 93

- 1 A. This is a huge issue that you read about
- 2 on the Internet a lot.
- 3 Q. Tell me what you --
- 4 A. It doesn't happen that often, because, you
- 5 know -- I mean, you just got to read it on the
- 6 Internet and you just got to wonder how can a kid
- 7 walk that far in a day? I mean, it's just nonsense.
- 8 And you know, once in a while we will find children
- 9 walking across the farm and going to school and we
- 10 will in fact give them a ride. But this business
- 11 of, oh, we don't allow children to cross and now
- they have to walk 16 kilometers each way to go to
- school, you know, it's just absurd. No kid is going to do that every day.
- 15 Q. So what do you believe is happening,
- 16 what's the truth?
- 17 A. Well, the truth is that, I mean, those
- 18 statements are nonsense.
- 19 Q. Just for the record, can you say which
- 20 statements are nonsense?
- 21 A. That kids are walking 16 kilometers a day
- 22 each way to get to school, because we're not, you
- 23 know, we're not, we're restricting them somehow.
- 24 That's nonsense.

- community that doesn't have its own school?
- 2 A. Not really. I mean, I've heard people
- 3 talk about this matter, but I don't really, I don't
- 4 really know names of areas or so on.
- 5 O. So I want to return to our discussion on
- 6 Mr. Lesingo and see if you have some additional
- 7 information about what happened in April 2008. Have
- 8 you ever met Lesingo Ole Nanyoi?
- 9 A. I don't believe so.
- 10 Q. You don't believe so. Are you aware of
- 11 the allegation that he was shot in the jaw in 2008
- on the property?
- 13 A. Yes.
- 14 Q. When did you first hear of the allegation?
- 15 A. Shortly after it happened, I believe. It
- 16 was by phone call.
- 17 Q. Who called you?
- 18 A. What was the date again, 2008?
- 19 Q. April 2008, I believe, but --
- 20 A. Yeah. I'm not sure. The more I think
- 21 about it, I'm not sure how I heard about it. I
- 22 think the impulse was to say a phone call, but I'm
- 23 not really sure.
- 24 Q. What do you believe happened that day?

Page 94

- 1 Q. So in fact, there is a policy to allow
- 2 them to cross, or is there no policy?
- 3 A. There's really no policy about children
- 4 crossing. If we see them, we in fact pick them up
- 5 and give them a ride when, once in a while when it
- 6 might happen.
- 7 Q. Okay. I hesitate to ask you to draw a
- 8 map, but maybe we can just do this out loud. Do you
- 9 have any knowledge of where the schools that the
- 10 children in the surrounding communities would attend
- 11 are located with respect to the property?
- 12 A. Well, there's the Sukenya school, which
- 13 I'm very familiar with, and there's a school at
- 14 Mondorosi, which I'm very familiar with. Those
- 15 would be the only two that come to mind as a
- 16 potential.
- 17 Q. Are there any schools -- Sorry. Are
- 18 those, both of those schools on the same side of the
- 19 property or are they on opposite sides of the
- 20 property?
- 21 A. Opposite sides.
- 22 Q. Okay. Do you know of any communities that
- 23 would require attending school across the property,
- the other side of the property, let's say, a

- 1 A. Well, I can tell you what didn't happen.
- 2 O. Okay.
- 3 A. There's no way he could have been shot on
- 4 that farm. You know, from what I understand, there
- 5 was a lot of people there. There would have been a
- ton of witnesses. You know, his injury was quite
- 7 extensive and I think that people would have been
- 8 there to assist him, to help him. People would have
  - been aware that this had happened to him.

10 And you know, the police were there

- 11 with automatic police weapons. You know, he was
- lucky he didn't lose his head if he got shot by oneof their weapons. How could it have just resulted
- in that wound to his jaw? It doesn't make sense to
- 15 me.
- But the main thing that bothers me
- 17 is, you know, people would have known. They
- 18 would -- There were people there. And then the
- 19 really weird thing is that instead of him crying out
- 20 for help immediately, he somehow gets himself to a
- 21 clinic in Kenya. Now, I don't understand that, for
- a start, and why he didn't just ask for help and
   people would have taken him immediately to Wasso
- Hospital, which was, in my way of thinking, the

Min-U-Script#

Page 97

- closest place to go. 1
- Instead, he goes to this clinic in 2
- Kenya. They refuse him because of this system that 3
- they have in Kenya and Tanzania where you have --4
- You know, I don't think it's just a police -- It's 5
- not just an assumed gun shot wound or some grievous 6
- injury. I think if there's any concern on the
- hospital side that this is something that police 8
- should know about, they force people, even when 9
- they're badly injured, to go and get some special 10
- form. I think it's called a PF-5. It's something 11
- -- I don't recall the exact number, but it's talked 12
- about by using this code. And if you don't have 13
- this, the clinic will refuse you care. And this is 14
- 15 what happened to him.
- So then he makes his way to Wasso 16
- and I don't know if he's refused care at the Wasso 17
- 18 Hospital. He finally goes and gets the thing from
- the Tanzania police and then is treated. 19
- I know that his injury was severe 20
- 21 enough that they flew him to Dar Es Salaam for
- treatment. So this guy was badly wounded and, you 22
- know, none of these things make sense about how he
- went, he had to get himself treated. And what I 24

- the confrontation that was going on happened?
- 2 A. No, I don't know exactly the spot, no.
- 3 Q. How far is Wasso Hospital from the
- property?
- 5 A. It's like twenty kilometers.
- 6 O. Is that to the east?
- 7 A. Yes.
- 8 O. Okay. And the Kenyan hospital that you
- mentioned, do you agree that it would be north?
- A. Yeah, it would be north. And you know, I
- mean, either way -- I mean, I think there's a better 11
- 12 chance of getting to Wasso Hospital with the roads
- and everything. To go north to the Kenyan clinic, 13
- 14 there's no roads. You would be walking in .
- wilderness the whole way. Chances of a vehicle 15
- helping you, zero to nil. I mean, if it was me, I'd 16
- 17 be heading for the main road and hoping for a lift.
- 18 Q. I'm just going to pull up a document here
- to give us some more information about the incident. 19
- MS. VAHLSING: Could you please mark 20
- 21 this as T-12?
- (Exhibit T-12 marked for 22
- identification.) 23
- 24 (Document handed to the witness.)

Page 98

- think has happened is, like, you know, the history
- of all of this is we're responsible for
- miscarriages, we're responsible for vehicle crashes, 3
- we're responsible, you name it that happens in the 4
- community, it's our fault. And I think this is just 5
- here's somebody who's got hurt. Let's use him and 6 fault. To me, that's what it was
- make it i 7
- all about, because the whole thing was such a 8 mystery. And I actually thought by now, you know, 9
- the guy might have spoken. And you know what it's 10
- 11 like after a few years, people start talking and it
- comes out, but it's really been kept tight and 12
- 13 nothing has really come out.
- 14 So I'm not sure how much more I can
- say about the man, but those are my feelings.
- Q. Did any of your staff go to speak to
- 17 Nanyoi to find out the truth of what happened?
- 18 A. Ithink may have. I hesitate when
- 19 but I think someone did try to chat
- with him. Or maybe it wasn't one of our staff. 20
- Maybe it was someone else in the community, one of 21
- 22 the chairmen or something.
- 23 Q. And I hope this doesn't require drawing a
- map either, but do you know where on the property

1 Q. So just to direct you to the most relevant

- part of this document for our discussion, it would
- be Page 2, which is perhaps on the back side of the
- first page. Have you seen this document before?
- 5 A. Yeah.
- O. Is this an e-mail from
- and
- 8 A. Yes.
- 9 Q. I'm just trying to understand what a few
- mentions in this e-mail mean, so we'll start in the
- first paragraph. It reads or writes, rather, 11
- There's a lot of info, here about the court case 12
- 13 that will be sent directly to Maanda and her
- 14 lawyers. I think you need to be more careful about
- what we reveal. Perhaps stick more to the Kenyan 15
- 16
- 17 Was this in relation to Nanyoi, as
- well, or just in relation to the court case, that 18
- statement?
- 20 A. I think it's to do with the court case.
- 21 Q. Okay. And then the remainder of the
- letter continues on --
- 23 A. Concerning Nanvoi.
- 24 Q. Concerning Nanyoi, okay.

Page 100

1

Page 101

- The second paragraph says, I have 1
- also recently reviewed a letter written by the 2
- officer commander in district, which he wrote in 3
- August of 2010 to the RC's office and PM's office.
- Did you ever see a copy of that 5
- letter? 6
- 7 A. I don't think I have, no.
- 8 Q. Further down the page there are some
- points that are made about the confrontation and the
- injuries to Nanyoi and it says the confrontation 10
- with the warriors happened after 4:00 p.m. and
- Nanyoi did not report to the police office in 12
- Loliondo until 7:00 p.m. He claimed to have first 13
- walked all the way to Postmoru, Kenya, to which it 14
- takes an hour to drive from Soitsambu and would take 15
- up to three hours to walk from Enashiva or a nearby 16
- village. Is Postmoru a location of a hospital in 17
- Kenya, to your knowledge? 18
- 19 A. That's where the clinic was.
- 20 O. That's where the clinic was, okay. And
- then further down it says, The warriors were armed 21
- and threatening and the police, if I 22
- 23 recall correctly what he said.
- Do you know how the warriors were 24

- 1 of those shots?
- 2 A. No.
- That were fired in the air? 3 O.
- 4 A. No.
- 5 O. Why not?
- 6 A. Well, because if he was, people would have
- tried to help him. He would have been, you know,
- seriously injured. I mean, this is a submachine
- gun, you know. It would have killed him, I think.
- But in any event, to have such an atrocious injury, 10
- people would know. People, like, there was a bunch 11 of people there, not just the warriors, but also 12
- 13 scouts and policemen and people around and he would
- have, he would have called for help. He would have
- been -- People would have tried to help him. I
- mean, I just can't imagine that, you know, it
- wouldn't have been like that. 17
- 18 Q. Do you think it was a gunshot that wounded
- him? 19
- 20 A. Well, I don't think it was an SMG bullet,
- that's for sure. 21
- Q. Small machine gun. 22
- A. But, you know, I don't know what he was up
- to and where he was. I mean, maybe he was over -- A

Page 102

2

- threatening and police?
- 2 A. I think it escalated even to the point of
- even shooting arrows, yeah. It got pretty bad and
- there were a lot of them.
- 5 O. A lot of arrows or a lot of warriors?
- 6 A. No. a lot of warriors.
- 7 Q. Do you know why they had come onto the
- land that day?
- 9 A. That's a good question, isn't it? No, I
- don't know. I don't know. I don't know what 10
- prompted this whole thing.
- 12 Q. And then it says, The police only fired
- warning shots in the air when they came to the 13
- scene. 14
- Do you believe that to be true? 15
- 16 A. That's what I've heard over and over from
- everybody, that they fired into the air.
- 18 Q. Okay. And who did you hear that from over
- and over again, that they fired shots into the air?
- 20 A. Scouts, you know, that work on the farm,
- you know. It was what people said happened.
- 22 Q. Were those scouts there that day?
- 23 A. Yeah.
- 24 Q. Do you believe that Nanyoi was hit by one

- lot of these Maasai living in this area, they go to Kenya, you know, to sell livestock or, I don't know.
- Buy stuff in the markets there or what. I, I mean,
- who knows what he was up to in Kenya? I don't know.
- And, you know, made his way home and eventually got
- home to Loliondo and got to the hospital and
- treatment. That sort of makes sense to me. And the 7 reason that he went first to that Kenyan dispensary
- or clinic was because he was probably in the area
- somewhere in Kenya. That makes much more sense to 10
- me than this story that he was shot by the police on 11
- the farm. That just does not add up. 12
- Q. Have you heard other explanations for his 13
- injury, for example, that he was shot by an arrow? 14
- A. No, I haven't. And I doubt very much an 15
- 16 arrow could have -- I mean, unless he was machete'd
- or something like that. From the photographs I've 17
- seen, you know, it must have been perhaps a machete 18
- 19 or some sort of vicious attack in that regard, you
- 20 know.
- 21 O. Have you heard about the possibility that
- he was mauled by a lion? Has that --22
- A. I never, I don't recall reading that and 23
- I -- I mean, if he was mauled by a lion, he

Page 105

- certainly wasn't on the farm. I can tell you that.
- 2 Q. Why do you say that?
- 3 A. Well, I've never, ever in all our years
- seen or even heard a lion. And it's the middle of
- Maasailand. A lion would have to be out to lunch 5
- to, you know, want to go there. It wouldn't last 6
- long if it did. So that doesn't make sense either. 7
- 8 O. Have any of your staff reported to you
- seeing lion tracks on the property?
- 10 A. They have, maybe once, one occasion there
- was thought, but I'm not sure whether there was 11
- definite, whether it was a leopard or not, but it 12
- was some kind of cat track. 13
- That's the nice thing about this 14
- area, you know. We can walk with our guests. There 15
- aren't buffalo there. There are no lion there.
- 17 It's really pleasant and safe walking, because we
- don't have to worry about some of these things.
- 19 Q. Is the buffalo the most dangerous animal
- 20 for guests?
- 21 A. Well, I don't know about for guests, but,
- you know, in the hunting fraternity, yes, I would
- say so. But as far as Tanzania citizens,
- hippopotamus is probably more dangerous.

- of the page, which are the notes from the examining
- physician, if I -- Let me see if I can read this
- correctly. The above named patient admitted
- following traumatic injury of the chin due to gun
- shot which led to upper mandibular fracture.
- When was the first time you saw this 6
- document?
- A. I don't know. I'm, I'm -- I don't know.
- I'm assuming I've seen it just because, you know,
- this was a major thing that happened and was 10
- connected to us. So I don't -- I'm not sure.
- O. You said connected to us. What did you
- mean by that?
- 14 A. Yeah, well, the allegations that this
- happened on the farm. 15
- 16 Q. Okay. Do you know how
- yourself came to possess this document?
- 18 A. No. Maybe we printed it off the Internet.
- Q. Do you know if hospital records are
- generally available in the Internet in Tanzania?
- 21 A. Well, no, no, no. It would have been
- someone else posting it and us finding it and
- 23 printing it up. I mean, there's even a receipt
- 24 here.

Page 106

- 1 Q. Just one last document to finish up this
- conversation about Mr. Nanyoi. Let's see.
- MS. VAHLSING: Would you please mark 3
- this as T-13? 4
- (Exhibit T-13 marked for 5
- identification.) 5
- (Document handed to the witness.) 7
- 8 Q. Have you seen this document before?
- A. I'm sure I have. I don't really recall it
- vividly, but I understand it's a Dar Es Salaam 10
- 11 hospital.
- 12 Q. Can we agree that the admission date from
- Mr. Nanyoi was April 20th, 2008? It says admitting
- date here? 14
- 15 A. Oh, yeah.
- 16 Q. And the discharge date was June 10th,
- 2008? 17
- 18 A. Correct, yeah.
- 19 Q. Am I correct to read the dates that way in
- Tanzania, with the date -- with the day first and 20
- 21 then the month?
- 22 A. Yup, that's right.
- 23 Q. And the year, okay. Just to direct your
- attention to the handwritten portion on the bottom

- 1 Q. Maybe you can tell me more about what you
- believe to, what you believe is going on in this
- document. For example, we see on the first page the
- discharge form from the hospital. On the second
- page we see a receipt from a hospital. We see a
- and then on the third page we statement by 6
- see what appear to be blood tests. Can you tell me 7
- what you understand to be taking place in this
- document?
- A. Well, I'm wondering if 10
- 11 was there because -- I'm just wondering if we have
- 12 this because of the thing in California, the Weebly
- thing. I wonder if this has something to do with 13
- this. We had to do all sorts of testimonies and 14
- 15 things regarding that. I really am not sure what is
- going on here. 16
- Q. Do you remember asking to prepare a 17
- statement?
- A. The only thing that makes sense to me is 19
- that this might have something to do write the 20
- 21 Weebly thing in California and was a document we
- 22 had, so we provided it to you as part of things we
- came across. Because we, for that we had to get 23
- statements and things. And I mean, you raise a good 24

Page 112

Page 109

- point, how we even have this paperwork. I would --
- 2 I don't know.
- 3 Q. Do you know if you have any other hospital
- records for anyone who was an alleged victim of
- violence on the property?
- 6 A. I would be surprised. I don't think so.
- 7 O. Okay. Do you know if anyone has been, any
- of your staff have ever undertaken to retrieve
- hospital records?
- 10 A. No.
- 11 O. Okay. There is one other hospital record
- that I discussed this morning with
- Let me see if you know anything about how that was 13
- acquired. So this was -- Let me find it. We 14
- introduced this this morning as W-28. 15
- MS. VAHLSING: Could I please mark 16
- this as T-14? 17
- (Exhibit T-14 marked for 18
- 19 identification.)
- (Document handed to the witness.) 20
- 21 A. Oh, yeah. This is what you showed
- earlier, right?
- 23 Q. Yes.
- 24 A. I thought this was pretty weird, actually,

- Khan Hospital. I think it's a little bit different
- to Wasso.
- Q. Do you know if the doctors at Wasso speak
- English?
- A. I've only ever met a Dutch guy there sort
- of who was in charge, but I mean, mostly it's
- staffed by Tanzanians.
- Q. Have you ever been treated at Wasso
- Hospital?
- 10 A. No, I haven't.
- 11 O. It's a good thing.
- 12 A. It's a good thing.
- 13 Q. That's a good thing. Okay. Why do you
- say you believe this is printed from the Internet?
- 15 A. Well, just because, well, I wonder how the
- heck, where it came from. You know, it doesn't I
- don't know. It doesn't make sense to me. 17
- Q. So to your knowledge, none of your staff 18
- have ever requested hospital records for these two 19
- individuals?
- 21 A. To my knowledge, no. And I can't -- If
- they did, I can't imagine why they would. It 22
- wouldn't make -- Why would that be valuable? It 23
- just doesn't, doesn't add up to me. 24

Page 110

- 1 Q. Okay. Do you know if, after the alleged
- incident with Mr. Nanyoi took place, if any
- reached out to his family? 3
- 4 A. Who are we talking about now Nanyoi, the
- jaw?
- 6 Q. We're still on Nanyoi.
- A. I don't think so, not to my knowledge.
- You know -- No.
- O. Do you know the elder Nanyoi?
- 10 A. Well, I only know him because he was part
- of a committee that we put together. And that 11
- 12 surprised me that he, of all people, would want to
- join this committee. But that actually made me feel 13
- quite good, you know. I felt like that was a real 14
- 15 positive thing. And if he felt that his son had
- actually, if he felt that we had something to do 16
- 17 with his son being injured on our farm, then there's
- no way he would ever want to be involved with us. 18
- So that kind of helped me with the whole affair. 19
- 20 And I felt that was, for us, a positive thing, but I
- don't know the man personally.
- 22 Q. When you said he was a part of a
- 23 committee?
- 24 A. Yes.

for starters, in English, which I thought was ī

- unusual. And I wondered if it was printed off the
- Internet, you know, off of, you know, a 3
- site or PWC site or, I don't know, someone's site.
- They might have posted it, because of -- I don't 5
- know -- to help with their story. I'm not sure how,
- where this came from.
- 8 Q. You don't remember asking anyone to --
- 9 A. No.
- 10 O. Obtain this?
- 11 A. No, I do not.
- 12 Q. Okay.
- 13 A. And it would really have no value to me.
- 14 Q. Okay. You say you thought it was weird.
- Can you tell me why else you thought it was weird, 15
- 16
- 17 A. No. I just think, immediate thought was,
- Oh, it's written in English. How strange.
- 19 Q. Now, the other exhibit I just showed you
- which was Mr. Nanyoi's hospital discharge statement,
- which was marked as T-13.
- 22 A. Yeah.
- 23 Q. That was also written in English?
- 24 A. Yeah, but it's in' Dar Es Salaam at the Aga

Page 113

- 1 Q. Is that the grazing committee?
- 2 A. I'm not sure if it was the grazing
- committee or -- You know, there's been many attempts
- to put together groups of people to help and help
- process some of these things so that they don't
- escalate, but it was one of these committees.
- 7 O. Do you know if
- provided any assistance to Mr. Nanyoi's family since
- the incident?
- 10 A. Not to my knowledge.
- 11 Q. Okay. One moment while I look for a
- 12 document, if that's okay.
- MS. VAHLSING: Would you please mark 13
- this as <u>T-15</u>? 14
- (Exhibit T-15 marked for 15
- identification.) 16
- (Document handed to the witness.) 1.7
- 18 O. Are you ready?
- 19 A. Uh-hum.
- 20 Q. Have you seen this document before?
- 21 A. Vaguely.
- 22 Q. Would you agree that it's a copy of an
- e-mail exchange between you and
- 24 A. Yeah. Well, there's a number of people

- 1 gave anything?
  - A. You know, I don't really know, but I would
  - hope we didn't.
  - O. Okay. Later in the e-mail there is a
  - mention of some different committees and I want to
  - see if you can help me understand what the different
  - committees are that have been formed over time in
  - collaboration with the villagers.
  - A. You know, just to go back a little bit,
- this family is asking if the company can give 10
- something. It's kind of like a request. Some of 11
- these requests can be very odd. 12
- One request that comes to mind, I'll 13
- never forget, is someone from a nearby village whose 14
- wife became ill. And he was giving us at that time 15
- a lot of grief. And I was there at the farm and he 16
- came to me and asked me if I could take his sick 17
- wife to hospital. This guy was giving us so much 18
- trouble, you know. And I said, Why don't you -- And 19
- 20 he's really close with Maanda. I said, Why don't
- you ask Maanda to take your wife to the hospital? 21
- Oh, no, she would charge me 200,000 shillings. You 22
- 23 know, it's, like, ridiculous. And here's this guy
  - who's been causing all this grief to me and then he

Page 114

- involved, but --
- Q. Okay. So who else is involved?
- A. Well, it says the first one is from
- and then the string is from t
- cc'd to So one, two,
- three, four of us, five of us.
- Q. I'd like to focus on the top e-mail, the
- exchange between yourself and
- 9 A. Yeah.
- 10 Q. It reads, beginning of the second
- sentence, I would recommend that we do not pay the 11
- 12 family directly, because it will be seen as
- admitting of guilt. I would give it to a group of 13
- elders and ask them if they want to give it to the
- family. It will promote us as community members,
- not as some company just there to help with hospital 16
- bills, etc. 17
- Do you know if you ever followed 18
- advice in this e-mail? 19
- 20 A. I would hope I didn't. I mean, I would
- hope I did not give anything.
- 22 Q. Did you give anything?
- 23 A. I sincerely hope not.
- 24 Q. Do you know if anyone at

- comes to me for help. And, you know, I don't know
- who -- This guy here is Nanyoi is pretending he got
- shot on the farm for whatever benefits him in his
- own, you know, agenda and making trouble for us, and
- then his family wants money from us. You know, it's
- one of those weird situations that you often find in
- these remote rural communities. People somehow -- I 7
- don't know. Their values are really wacky. And
- that, you know, so I just, you know, I hope that we
- didn't give any money for this. 10
- 11 Q. Do you know if any other alleged victims
  - of alleged violence have ever asked
- for payments, either as compensation or to
  - assist with hospital bills, for example?
- 15 A. You know, nothing that comes to mind.
- 16 Q. Would it be correct to say that to your
- knowledge neither 17
- 18 paid compensation to an alleged victim of violence
- 19 on the property?
- A. Yeah, I think that would be fair to say, 20
- 21 yeah.
- 22 Q. Can I ask you to explain to me what the
- security committee is, if you know what it is?
- 24 A. Is there reference to that here?

Page 117

- 1 Q. Well, there's reference to some committees
- 2 and I can show you a document where there's a
- 3 reference to a security committee, but I'm trying to
- 4 get a sort of a diagram or a mental diagram of the
- 5 different committees that have formed. It sounds in
- 6 this document from the second page like this is the
- 7 formation of the grazing committee.
- 8 A. This is about the ten people committee who
- 9 will be dealing with people bringing cattle to graze
- 10 on the farm. That's the one?
- 11 Q. Yes.
- 12 A. Yeah.
- 13 Q. Is that committee still operative?
- 14 A. I -- No. All of these attempts to try to
- 15 do this become unglued. And I think, you know, I
- truly think that a lot of this has been pushed by
- 17 the DC and even the police commander and stuff, but
- 18 and I think that when these are formed, I think the
- 19 people truly want it to work and want to get behind
- 20 it, but they're real busy. They all have livestock
- 21 to contend with and things are going on in their
- 22 lives and to pull them all together and to get them
- 23 in one place at one time is really difficult and to
- 24 have -- It becomes a real big chore for them and

- 1 don't -- I mean, as far as it being specific to the
- 2 farm, I think it's more, I can speak on more general
- 3 terms for the company.
- 4 Q. Okay. I'm going to show you a document
- 5 that I think might help.
- 6 A. Okay.
- 7 MS. VAHLSING: Could you please mark
- 8 this as T-16?
- 9 (Exhibit T-16 marked for
- 10 identification.)
- 11 (Document handed to the witness.)
- 12 Q. Have you seen this document before?
- 13 A. Yeah. This is what I was thinking of,
- 14 yeah.
- 15 Q. Can you tell me what it is?
- 16 A. Yeah. It's the way that we want staff to
- 17 perform themselves and, you know, rules for them to
- 18 follow as they go about their daily duties.
- 19 Q. I see on the back that there's a space for
- 20 a signature and a date. Is this document signed by
- all the staff to whom it applies?
- 22 A. Yeah, this is -- I mean, I think even
- annually we renew contracts with staff and they have
- 24 to sign various documents and this would be one of

Page 118

- half of them will turn up and it starts off really
- 2 great and it goes well and then it just sort of
- 3 fizzles out and quite quickly, too. It's quite
- 4 disappointing.
- 5 Q. Did the members of the grazing committee
- 6 mentioned in this document ever receive any sort of
- 7 per diem or compensation for the participation on
- 8 the committee?
- 9 A. No, no. It's not a paid position.
- 10 Q. It's not a paid position?
- 11 A. No. Which, you know, may be part of the
- 12 problem. But you start paying people and then that
- 13 becomes another issue.
- 14 Q. All right. Do you know anything about the
- 15 existence of a security committee?
- 16 A. No.
- 17 Q. You don't know, okay.
- 18 A. If we had a security committee for a
- while, it's not in action any more.
- 20 Q. Okay. To your knowledge does
- 21 have a written policy on security on
- 22 the farm or security protocol?
- 23 A. I think, you know, we have something about
- 24 emergencies and how to conduct ourselves, but I

- 1 them.
- Q. Just to go through the various companies,
- 3 would sign this? I
- 4 says on the top.
- 5 A. Yes, it would.
- Q. Would grant ign this?
- A. employs the scouts
- 8 at a state of that's what you're implying.
- 9 Q. So in that sense, the would
- 10 also sign this?
- 11 A. Would sign this, yes.
- 12 Q. And on Page 5 under Health and Safety in
- 13 Section 16, four bullet points down there's a
- 14 reference in a parentheses other policies that are
- 15 operative at
- 16 Emergency and Security Procedures. Does that policy
- 17 exist or was that an example of something that could
- 18 exist?
- 19 A. Well, we certainly have something I've
- 20 read about snake bite stuff. I'm not sure.
- 21 Q. You're not sure. The first policy
- 22 mentioned there in the parentheses is the Code of
- 23 Conduct Drivers and Guides.
- 24 A. Yeah.

Page 124

Page 121

- 1 Q. Are you familiar with that policy?
- 2 A. Yeah.
- 3 Q. Okay. I want to show it to you again,
- just so that we're all on the same page. It was
- submitted earlier as an exhibit, but I will show it
- again. 6
- MS. VAHLSING: This is 7
- Brendan. 8
- MR. MARX: Okay. And we're going to 9 remark it? 10
- MS. VAHLSING: Yeah, we'll remark 11
- it. 12
- Could we mark this as T-17, please? 13
- (Exhibit T-17 marked for 14
- identification.) 15
- (Document handed to the witness.) 16
- MR. MARX: Is there any particular 17
- section in this document that you want him to focus 18
- 19
- MS. VAHLSING: Yeah. I want to give 20

1 A. It's titled the Code of Conduct Drivers

3 Q. Okay. I'm wondering, I also see here a

7 A. Well, I think it's more, it's more

13 O. Just so I'm clear, for field staff, that

17 Q. Okay. Is there a difference between a

14 would include scouts, guides on

space for signatures and the position of the

who would be asked to sign this document?

relevant to field staff than it is for the office

staff. I mean, this general code of conduct and

ethics is for everybody and this is more for field

staff. So the office staff wouldn't be required to

employee, presumably, to sign. To your knowledge

- him a chance to sort of read it.
- 22 Q. Have you seen this document before?
- 23 A. Yeah.

2 and Guides.

6

24 O. What is this document?

- driving in a vehicle or perhaps a short lecture or
- something of that nature. And a scout, the only
- place that we have scouts is at a second and their
- duties are more of a basic nature. You know,
- keeping an eye on and all that's required
- there to operate tourism on the land. So they're
- the ones who, if we need a new walking trail of
- 45 minutes, you know, they can locate and suggest
- places and we can decide and then they'll make sure
- that path is clear and so on. They would do 10
- wildlife counts. They work with 11
- So they're not really, you know, 12
- they're not one-on-one with the guests like a guide 13
- would be. 14
- Q. Would it be fair to say that 15
- supervises the scouts?
- 17 A. Yes.
- 18 Q. And do you supervise
- 19 A.
- Do you supervise 20 Q.
- 21 A. Yes.
- 22 Q. So that's the chain of authority?
- 23 A. Right.
- 24 Q. As you understand it. Have you heard the

Page 122

- guards used in the past? term
- 2 A. On the Internet?
- 3 Q. Anywhere.
- 4 A. Yeah, people talk about that on the
- Internet. They would love us to have armed
- 6 that's for sure, but we don't.
- 7 Q. 1 has no guards?
- 8 A. No.
- 9 Q. When you hear this term on the Internet.
- 10 do you believe that guards are being mistaken for
- something else? 11
- 12 A. They're trying to pretend that our scouts
- are guards.
- 14 Q. What do your scouts wear?
- 15 A. They wear, like, a simple green uniform.
- 16 Q. Does it have a on it?
- 17 A. No. I think it says
- 18 Q. It says And just so I
- understand, so I'm clear, the scouts only carry the
- traditional Maasai weapons, if any, that we 20
- discussed earlier?
- 22 A. Correct.
- 23 Q. Have you ever heard of a scout carrying a
- 24 gun?

19 A. Yeah.

16 sense.

20 O. What's the difference?

18 scout and a guide?

acknowledge this.

- 21 A. A guide is a knowledgeable person who
- 22 leads and is responsible for a group of guests as

15 A. I mean, my gut says yes, that would make

- they go about their daily activities, you know, 23
- wildlife viewing in various ways, be it walking or

- 1 A. No.
- 2 Q. Have you ever heard of a ranger carrying a
- 3 gun?
- 4 A. A ranger? Describe or define ranger.
- 5 Q. So maybe we'll establish that we're using
- 6 the same words here that make sense to you, because
- 7 some might make sense to
- 8 A. Yeah.
- 9 Q. To your knowledge does

- 11 on the farm?
- 12 A. Yes.
- 13 Q. Who are those individuals?
- 14 A. We source security from two places, either
- 15 the wildlife department or the police department.
- 16 Q. Can you explain the difference between the
- 17 two to me?
- 18 A. Yeah. Wildlife department is, well, the
- 19 wildlife Division, I suppose is more the proper term
- 20 is a huge division that falls under the Ministry of
- 21 Natural Resources and Tourism. And I suppose one of
- 22 its main tasks is to control the hunting that
- 23 happens in Tanzania, the whole hunting fraternity.
- 4 But you can find wildlife department offices in most

- 1 organize the arrangement or procure the --
- 2 A. That would be
- 3 Q. would do that?
- 4 A. Yeah.
- 5 Q. And who actually pays that fee? Is that
- 6 the company?
- 7 A. That would be
- 8 Q. But in the name of
- 9 A. Yes, yeah.
- 10 Q. Is that listed as an expense?
- 11 A. Yes.
- 12 O. In the company records. These wildlife
- 13 division guards, is it fair to call them that?
- 14 A. Well, wildlife division, what do they
- 15 have? What do they call their people? I mean,
- 16 they're not guards, because wildlife division
- 17 doesn't provide, you know -- They're not guards, I
- 18 mean.
- 19 O. Are they rangers?
- 20 A. Yeah, I think rangers is more of a better
- 21 term, because these are people that have all kinds
- 22 of duties and would be involved -- If we found some
- 23 people poaching, for instance, the wildlife
- 24 department would be seriously on that and would send

Page 126

- 1 regions of the country.
- 2 O. Let's start with --
- 3 A. And there's one in Loliondo.
- 4 Q. Let's start with the wildlife department
- 5 first, just so I don't confuse the issue. Does
- have a contract with the wildlife
- 7 department with the provision of security on the
- 8 property?
- 9 A. No. I mean, it sounds like you're asking
- 10 to me a formal written contract, no.
- 11 Q. There's no formal written contract?
- 12 A. No.
- 13 O. There's an informal arrangement?
- 14 A. Yeah. I mean, informal in the sense that,
- 15 I just want to let you know that tomorrow we've got
- 16 some guests coming to the camp. We need a couple of
- 17 your wildlife department guys to come to the camp
- 18 and give us security, and that's that.
- 19 Q. Okay. Are they paid a standard fee for
- 20 that service?
- 21 A. Yeah. When they perform duties outside of
- 22 their station, we have to pay them, I believe it's
- 23 10,000 shillings a day, for that.
- 24 Q. Does someone in particular on your staff

- 1 the same officers to, you know, to investigate that
- 2 situation. So I think rangers is probably a better
- 3 term.
- 4 Q. Do these wildlife division rangers carry
- 5 firearms?
- 6 A. They do, yes.
- 7 Q. Do you know what kind of firearms?
- 8 A. Not exactly, no, but they could be a rifle
- 9 or even an automatic weapon.
- 10 Q. Have you ever heard of one of these
- 11 wildlife division rangers using their weapon on the
- 12 property?
- 13 A. No.
- 14 Q. Do you know if these wildlife division
- 15 rangers would sign the code of conduct?
- 16 A. No, they wouldn't.
- 17 Q. They would not. Would they be bound by
- 18 its terms in any way?
- 19 A. They're going to perform their duties to
- 20 what their boss wants, you know, and you know, I
- 21 don't know. Depends on what we wanted and what we
- asked them to -- Like, we might say to them, please don't sit around the fire. This is guest seating.
- 24 Can you, you know, take a walk, you know, around the

Page 132

Page 129

- back of the property and just, you know, do your 1
- security work? And they would go, Okay. You know. 2
- So in that sense, we can control them, I suppose.
- 4 But they're really there working for the wildlife
- department performing this duty they've been
- 6 assigned to.
- 7 O. Do you know what type of any uniform or
- dress they would wear when they come on to the
- property?
- 10 A. Well, the wildlife department is generally
- a uniform, wildlife department uniform, which is,
- again, a simple uniform.
- 13 O. Do they come with their own vehicles or
- provide them with transportation?
- 15 A. Almost always we have to go and get them.
- 16 O. Do they ever subsequently use the vehicles
- on the property, or is it mostly on foot?
- 18 A. Yeah, mostly -- Well, they're at the camp.
- You know, they're at the camp, so they really don't
- have anywhere to go. They're just patrolling around
- the camp itself. 21
- 22 Q. So then here in this Page 1 of the exhibit
- I just showed you, which is the Code of Conduct for 23
- Drivers and Guides, where it discusses walking in

- issue to them.
- 2 Q. Have any guides ever been approved to
- carry firearms?
- 4 A. No.
- 5 Q. Okay.
- A. And again, you're talking about company
- employees, company guides.
- Q. Yes.
- A. Yes. No one has, is allowed or is issued
- with a firearm to carry.
- Q. Okay. That makes more sense. So the
- wildlife division rangers, just one more question
- about them. Have you ever heard of any of them
- 14 being called to assist in an incident of
- confrontation on the property?
- A. No. That wouldn't happen. If there was
- an incident of confrontation, we would call the 17
- police.
- 19 Q. Okay. So then let's actually turn to the
- 20 police.
- 21 A. Okay.
- 22 Q. You mentioned earlier that that was a
- second possibility --
- 24 A. Yes.

- 1 Q. For security provision on the property.
- Can you tell me about that?
- 3 A. Yes. What happens is, you know, depending
- on the time of year. If the hunting is happening --
- It's a seasonal thing. Sometimes the wildlife
- department is busy or for whatever reason, their
- staff are on duties and they can't provide them to
- us tomorrow when our group comes, so in that case we
- resort to the police department. So we go to the
- police and we request, you know, a couple of 10
- officers to come and provide their security. So we 11
- work the two, the two providers, depending on who's 12
- available. 13
- 14 Q. Who from would go
- to the police to make that arrangement?
- A. That would be
- 17 Q. That would be And who would he
- talk to at the police?
- 19 A. I would think the commander in charge of
- 21 Q. Do you know if that's in Loliondo or
- 22 Wasso?
- 23 A. It's in Loliondo.
- 24 Q. It's in Loliondo. And for how long has

wildlife areas and it says in Section 2, Only guides

- approved by the company may carry a firearm while 2
- walking. 3
- Who are those guides?
- 5 A. We actually don't have any who are
- approved to carry firearms.
- 7 O. So if -- I have to make sure I have this
- right. The only people who carry firearms come in
- from the outside?
- 10 A. Right. So far we've mentioned the
- wildlife department, yeah.
- 12 Q. Who you said is not subject to this code
- of conduct? 13
- 14 A. Right. I think it would be really
- difficult to have them --
- 16 Q. So does this code of conduct apply to
- anyone who actually carries a firearm?
- 18 A. Are you talking about this bit, about
- guides approved by the company? 19
- 20 O. Yeah.
- 21 A. Well, our guys, just to be specific, are
- our safari leaders, the leaders of the safaris,
- they're our guides and none of them are approved to
- carry firearms. And the company has no firearms to

Page 133

- been using the police to provide
- security services on the property?
- 3 A. Hmm. You know, it's really hard. I'm not
- exactly sure. Sorry.
- 5 Q. Do you know who first decided to use
- police on the property to provide security?
- 7 A. Well, I think it might have been after a
- discussion with the DC or the police commander, one 8
- of those kind of meetings they might have brought up
- the topic and asked us to do something. 10
- 11 Q. Who would have asked you to do something?
- 12 A. Maybe the DC.
- 13 Q. Do you mean that the DC would have
- recommended that you use the police?
- 15 A. Yeah, that kind of thing, yeah, suggested
- to us that we do this. 16
- 17 Q. Do you know if other safari providers
- around Tanzania use the police to provide security 18
- on their property? 19
- 20 A. It happened in Robanda, another village in
- the western part of Tanzania -- of the Serengeti. 21
- They had some issues there and I think the police 22
- were used there for a while. You know, I'm sure it 23
- happens from time to time. 24

- 1 A. Nope.
- 2 Q. In the Nanyoi, what we will call the
- Nanyoi affair, do you know if those police that
- arrived at the scene came from, were dispatched from
- an external police station or unit or were they
- already present on the property providing security? 6
- A. Oh, no, I don't believe they were on the
- property providing security. I think they came in
- because of this escalation on the property. I don't
- think it had anything to do with -- They came in 10
- from somewhere. 11
- O. And just to ask the same question I asked.
- you about the wildlife division, what uniform, if
- any, do the police wear on the property?
- A. That's a good question. When they come
- and they're on duty for us, they're actually are in
- civvies, but --17
- Q. By civvies, do you mean plain clothes? 18
- A. Right, civilian clothes. And when they
- come, you know, when we call them, they're on duty
- at the police station or wherever they are, so they
- have police uniform. But when they come and do the
- I don't know what do you call it when they're 23
  - sent by their boss to come and do this duty away

Page 134

- have a formal 1 Q. Does written agreement with the police?
- 3 A. No.
- 4 O. For the provision of security?
- 5 A. No. It's the same as the wildlife
- division.
- 7 Q. Is it still a line item expense?
- 8 A. Yes.
- 9 O. Standard fee?
- 10 A. Yeah, yeah, yeah.
- 11 Q. And who makes those payments? Is it
- 12
- 13 A.
- 14 Q. Okay. Do you know if the police carry a
- firearm? 15
- 16 A. Yes, they do.
- 17 Q. What type of firearm?
- 18 A. I don't know exactly, but it's an
- 19 automatic looking thing.
- 20 Q. Have you ever heard of the police using a
- firearm on the property?
- 22 A. Well, the only incidents when that
- happened was the Nanyoi affair.
- 24 Q. You haven't heard of any other time?

- from their station. They always come in civvies. 2
  - And in fact, that helped us just the
- 3 other day, because some people came and they
- 4 harassed one of our scouts and it escalated. The
- 5 other one ran off and told the police, who were
- actually at the camp. And they came over to see б
- what was going on and the guy started harassing the 7
- police, because I don't think they recognized who
- they were in fact the police. And then the police 9
- arrested them on the spot. Nabbed them just like 10
- 11
- 12 Q. Are you saying the word harassed there?
- A. Yes, they were harassing our scout and 1.3
- when it escalated, the other guy ran off to get the 14
- police and the harassers didn't realize this was the 15
- 16 police coming towards them because they were in
- civvies. 17
- Q. When you say harassed, can you tell me
- more about what you mean?
- A. Yeah. They were really threatening our 20
- 21 staff.
- 22 Q. With weapons, or?
- 23 A. I'd have to review the e-mail for the real
- detail on that, but it escalated to the point where

Page 137

- the staff members, they were getting really worried 1
- and concerned to the point where they felt like they 2
- needed help. And they knew the police were over 3
- there at the camp, so they went and got them. 4
- O. And in a situation like that, who would
- write an e-mail to you describing the incident?
- 7 A. That was, I think it was
- 8 Q. Okay. The police that are paid to come on
- to the property to provide security, are they
- provided with vehicles? 10
- 11 A. No.
- 12 Q. They use their own vehicles?
- 13 A. Well, they're stationed at the camp. They
- don't need a vehicle. 14
- 15 O. Okay. Are they given transportation to
- come and go to the camp?
- 17 A. Oh. Mostly we have to go and get them.
- You know, they have really limited access to 18
- vehicles and they're busy using them or they're 19
- broken down or it's a real headache. And if we need 20
- 21 their help they're willing to give us help, but they
- say, you know, you have to come and get us. Or if 22
- we're fortunate enough that there's a car in the 23
- area somewhere or maybe it's returning from 24

- and stuff. So they don't really -- They know
- they're not there for guest contact and to chat with
- the guests and so on, so --3
- 4 Q. When they're doing their patrols what are
- they patrolling for?
- I don't know. Just keeping the area safe,
- you know. They're just, it's just prudent, I think,
- to have some sort of security.
- 9 Even when we're in the national
- parks. You know, the Serengeti National Park, 10
- Tarengeti, we're not free to put up a camp. They 11
- assign a park ranger to the camp. You know, we're 12
- 13 in a wilderness area --
- It's surprising, you know. As much 14
- 15 as we talk to guests, you know, it's a wonderful
- 16 sunset. I've just had a glass of wine and, Honey,
- they start going off for a stroll. You know, you 17
- 18 have to run after them and remind them where they
- are. You're in a wilderness area and you just can't
- do that. So for all kinds of reasons, I suppose. 20
- Q. What would you name, if any, as the main 21
- threats that you have to protect against with the 22
  - use of security?
- 24 A. You know, the reality is there really

Page 138

Page 140

- Soitsambu or who knows, maybe it's nearby, and they
- can come. But invariably it's that situation that 2
- I'm describing. It's a real drag. We have to, you 3
- know, get in our own car and go there. And they're
- willing to help us and whatever and do their duty, 5
- but the problem is how do we get to the site.
- Q. Are the police that are paid to come onto
- the property to provide security subject to the code
- of conduct that we have before us? 9
- 10 A. No, we can't. They would never sign that.
- They're doing their duty, you know, as police
- officers. They're not going to, you know. They act 12
- as police. They're not, they're not going to sign 13
- 14 this thing.

19

- 15 O. Does provide them
- with any guidelines on unapproved or unapproved
- 17 behavior or actions?
- 18 A. Yeah, the camp manager, you know, and
- routine and they know that they shouldn't be 20

I mean, over time I, I think they know the

- strutting about in front of the guests and all this 21
- 22 sort of thing. They tend to stay back at the camp.
- And at night mainly they're out doing their patrols, 23 you know, wandering around the perimeter of the camp

- aren't too many threats. So if you ask me what have the wildlife division or what have the police done
- 2 3 to save our guests or prevent them from injuring
- themselves, I don't think I could come up with much of a list. So even in the national parks, nothing 5
- much goes on. It's not like people are gored by
- buffalo left and right and all this. You know, it's
- 7
- pretty calm. But I think it's just kind of protocol 8
- somehow, you know. And I think it's prudent to 9
- offer security when you have got guests in a 10
- 11 wilderness camp.
- Q. I heard mention earlier of poachers. Do
- the poachers come from -- Where do the poachers come 13
- 14 from, if you know?
- A. Well, generally, it's sort of town people. 15
- They come in a vehicle. They'll have a permit, you
- know, and they'll be, they could even be from 17
- Arusha. And you know, residents are allowed to go 18
- 19 out and shoot if they have a permit.
- So you can go and procure a permit 20
- and go and shoot. And so Loliondo is an area with 21
- 22 wildlife and it's not a national park. So if they
- get a permit, they can go there and hunt. And people might find themselves on 24

Page 144

Page 141

- 1 the property just because a friend told them
- 2 something years ago, or who knows. So it can happen
- 3 like that. And they're not, those people aren't
- 4 even actually poachers. You know. What they are, I
- 5 suppose, is trespassers. And what we tell them, I'm
- 6 sorry. This is private property. You can't hunt
- 7 here. And usually it's, Oh, I'm sorry, and they go
- 8 off.
- 9 But at the same time, we have had,
- 10 you know, honest to God poachers come and shoot with
- 11 an arrow or whatever, animals on the farm.
- 12 Q. Do you know where those poachers are from?
- 13 A. No. Sometimes we just find the dead
- 4 animal and we don't ever see the people. They might
- 15 have ran off. Other times we have actually caught
- 16 them. We've got, perhaps, photographs of them with
- 17 zebra and so on. But, you know, as to where they're
- 18 originally from and come from, I don't know about
- 19 that.
- 20 Q. Do you know if the company's ever pressed
- 21 charges against the poachers when they found them?
- 22 A. No. We tend not to do that. You know,
- 23 the wildlife department will take care of that.
- 4 It's generally a wildlife division matter rather

- 1 the police acting in a way that was not agreeable to
- 2 the company?
- 3 A. Not appropriate?
- 4 Q. Yeah.
- 5 A. You know, I think that I would say no, but
- 6 if, you know, perhaps an officer might want to sit
- 7 by the fire and, you know, hang out in a guest area
- 8 when he really shouldn't be and, no, he shouldn't be
- there. But no, apart from that sort of thing, I
- o think they act as professionals and do the job.
- 11 Q. Okay. Great. So I just want to finish up
- with a few questions to fill in some gaps, if that's
- okay.MR. MARX: Would it be convenient to
- take a break?MS. VAHLSING: Take a short break,
- 17 yes.
- 18 MR. MARX: While we're still on the
- 19 record also, there was a lot of discussion, there
- 20 has been a lot of discussion again about
- 21 and I believe from the context of your
- 22 questioning and the answers that we're talking about
- 23 And I just want to try to
  - clarify that issue, if we could, for the record.

Page 142

1

- 1 than the police. So the wildlife department,
- 2 they're the ones who will take those people away, if
- 3 they've been caught, and prosecute them.
- 4 Q. So would it be fair to say you call the
- 5 wildlife department?
- 6 A. Yeah.
- 7 O. Rather than the police?
- 8 A. Yeah.
- 9 Q. Okay. When the police provide security on
- 10 the property in the way we've just been discussing
- 11 did, they have any approved uses for their weapons?
- 12 A. I don't know. You'd have to talk to the
- police, I suppose. I -- You know, they're there
- 14 acting as acting policemen. So whatever duties they
- 15 carry out, whatever their -- I'm not, I don't really
- 16 understand what they're allowed to do and not
- 17 allowed to do.
- 18 Q. And you don't, or
- 19 impose any additional guidelines on them about when

doesn't

- 20 they're approved or not approved to use their
- 21 weapons?
- 22 A. I'm not -- They're the police. We have no
- 23 control over the police.
- 24 Q. Okay. Have you ever had any problems with

MS. VAHLSING: Sure.

- 2 Q. when you were responding in
- 3 the affirmative to taking some
- 4 action over the past hour or so, did you intend to
- 4 action over the past hour of so, and you intend to
- mean the Tanzania company?
- 6 A. Yes, I did.
- 7 Q. Was there any moment when you meant to a
- 8 refer to the
- 11 discussing the Tanzanian company.
- 12 Q. Okay. I agree. So that's clear for the record.
- 14 MR. MARX: Okay. Thank you for
- 15 clarifying.
- 16 MS. VAHLSING: Okay. So very quick
- 17 break. Off the record.
- 18 (Brief recess.)
- 19 Q. Thank you for your patience,
- 20 This shouldn't take long. It's really only a few
- 21 questions.
- 22 Can you explain to me when
- 23 came on and when he left and who was there in
- 24 the meantime, and he came back? Could you tell me

Page 148

Page 145

- more about that? 1
- 2 A. Yeah. Gosh. I mean, it's hard for me to
- think of exact dates with It goes back a 3
- long way. He came on pretty early. So I would say
- 2007 or early 2008. I don't know. Something like 5
- that. And then he was with us for a number of 6
- 7 years. And he got lured away by Frankfurt
- Zoological Society and he went off and worked with
- them for -- not so long. I think perhaps a year or 9
- a year and a half. I doubt if it was two years. 10
- 11 And then he had a hankering to come back.
- who was, who took over 12
- 13 from him, he had an NGO or something like that going
- in Arusha and he felt he could balance the boat. 14
- And it ended up really not working out. And he was 15
- 16 away from his family a lot and so when he started to
- want to exit, was thinking about coming back. 17
- always had a passion for and really, 18
- you know, like, enjoys the situation there. So now 19
- he's back with us. I'm sorry I can't give you exact 20
- dates, but that's the general story. 21
- 22 Q. Okay. And were the policies of \{\)
- policies any different when 23
- was there versus when was there or have the 24

- know about ones we let go?
- 2 Q. Yes.
- 3 A. He's really the only one that comes to
- mind. There was someone else I can think of, but we
- didn't let him go. He left of his own accord.
- O. Would it be fair to say that, in general,
- you trust your staff?
- 8 A. Yeah, I think they're a good, dedicated
- bunch. They're good to work with. They are excited
- about the project. They see the benefits. I think 10
- 11 they do a nice job, yeah.
- 12 Q. Would you agree that you're in fairly
- consistent communication with the staff about what's 13
- 14 going on on the ground?
- A. Well, I would say that and
- more so than me. I'm, you know, a few lavers
- is there on a day-to-day basis. So removed. 17
- naturally, you know, he's connected at the hip. 18
- 19
- see each other fairly frequently. 20
- 21 I'm going to turn to one last document,
- which actually has already been introduced, so we 22
- can actually just go back to T-8 and I'll tell you 23
- which document this is. It has a Bates number 871

Page 146

- to 872 -- Or actually, it doesn't have a Bates
- number, because it's the supplemental production.
- (Document handed to the witness.)
- 4 A. Oh. Didn't we look at this earlier.
- 5 Q. Yes, we did look at this earlier.
- 6 A. Oh. Here it is.
- 7 Q. The first line is, Good questions and
- great answers.
- MR. MARX: Actually, that's not it. 9
- Okay. Look at this. 10
- 11 Q. Do you agree that this is an e-mail that
- 12 you say saw earlier, an exchange between you and
- Judi with others on the exchange further down? Make
- sure we're looking at the same document. 14
- 15 A. At first glance, I thought it was, and now
- it seems similar. 16
- Q. It looks like this. You already have my
- copies, but it looks like this. 18
- A. I don't believe --19
- 20 MR. MARX: Well, it must be in this
- 21 pile.
- 22 Q. Jonathan actually handed it to you
- 23 earlier.
- 24 A. Oh, it's in that pile. No wonder I was

policies been similar? 1

- 2 A. Well, you know, we're always tweaking
- these things and playing with them and tidying them 3
- up and, you know, just over time. So I think
- generally speaking, I mean, they're similar, but I'm 5
- sure they're a little different, you know, just 6
- 7 through time.
- 8 Q. That would include the grazing policy, for
- example?
- 10 A. Yeah. I mean, that's depending upon what
- committee and what advice and so on, that can be a 11
- bit of a moving target, by yeah. 12
- 13 O. Has Tanzania ever
- dismissed staff or let them go, fired? 14
- 15 A. Tanzania, yes. 16 Q. Can you explain the circumstances for
- those dismissals? 17
- 18 A. Well, you know, we've been there since
- 1981. I mean, there's been many instances.
- 20 Q. Okay. Let's narrow it to:
- staff working
- 22 A. Oh, okay. Well, I remember we had a
- 23 driver in the very early days who started to drink
- and we actually had to let him go. And you want to

Min-L-Script#

Page 149

confused. 1

- 2 (Document handed to the witness.)
- 3 A. Yes. So this is the one that I talked
- with Jonathan about, yes.
- 5 Q. Okay. So on the second sentence on the
- first page writes, My concern for
- burn out, so this is another reason that we need to 7
- get this sorted out. 8
- Can you tell me what you know about 9
- any concern that small anyone else at might 10
- have had about burning out? 11
- A. Well, I can understand burning out,
- but not n that same sentence. It could have 13
- been just worried about something. I'm not 14
- sure to tell you about that. was our, one of 15
- our general managers and she, I think, had some
- difficulties and there was some concern about her 17
- burning out. But for no. I think he was 18
- just really drawn by Frankfurt Zoological. You 19
- 20 know, it was a pretty nice job and big organization
- and I think that -- I mean, if I was in his boots, I
- probably would have done the same thing. 22
- 23 Q. Can I direct you to the second e-mail on
- the first page, which is from you to

- was like, I know what the answer is going to be, but
- I have to ask.
- Q. To your knowledge has ever lied to
- you?
- 5 A. No.
- 6 O. Has --
- 7 A. He's really solid.
- O. Hast
- 9 A. No, no. I mean, they have no reason to,
- really. Well, put it this way. I've never caught 10
- them out. I mean, I think they're really so solid
- guys, both of them. And is, he's really 12
- committed to this thing.
  - You go for a walk with him around
- the community especially, like, on a market day or 15
- something, you can't even move. You can't walk
- anywhere because people come up to him and say hi 17 and all the rest. I mean, he's, he's really, you 18
- know, well known and accepted member of the 19
- 20 community there.
- 21 O. Do you know if he has any hostilities or
- conflict with any members of the community at all?
- A. Well, you know, yes, I'm sure there's a
  - small fringe element of people that would think ill

Page 150

Page 152

- where you write: Hi all. Last week I thought that
- I would ask a series of pointed questions so
- that we are all 100% clear on recent events. Here
- are his answers.
- 5 A. Yeah.
- 6 Q. Do you see that paragraph?
- 7 A. Yeah.
- 8 Q. Could you tell me why you thought it was
- necessary to ask
- 10 questions?
- 11 A. Well, when was this? June 20, 2008. You
- know, I think there was probably a big event
- 13 happened and a lot of questions being asked on the
- Internet or something, so I was just wanting to get 14
- clear on some stuff. I think I saw it as my job to 15
- 16 get to the bottom of, you know, some of these
- allegations and ask some pointed questions and just 17
- put it out there in the open.
- 19 Q. I'm interested in the use of the phrase
- "pointed questions", so I just want to ask --20
- 21 A. Yeah.
- 22 Q. Have you ever doubted veracity in
- 23 the past?
- 24 A. Never, never. And I had no -- To me it

- of him, but they have their own agenda. You know.
- Generally speaking I think he's, you could easily
- learn that he's a welcome member of the community.
  - MS. VAHLSING: Okay. That ends
- actually all of my questions for you, but I wanted 5
- to discuss something now together with everyone 6
- while we're on the record to see if we could come to 7 some kind of agreement about an issue.
  - So I did not have the chance to ask
- about the hospital records for Mr. 10
- Nanyoi. I was under the impression that 11
- 12 have more knowledge about where they came from, but
- 13 then has said that he doesn't know how they
- ended up in your files. 14
  - So I don't know, Brendan, what you
- 16

15

17

9

- MR. HERZ: I think
- that for other hospital records, that would be 18
- 19 the guy that knew.
- 20 MS. VAHLSING: Would know, yeah.
- 21 But it's also our understanding that as the 30(b)(6)
- deponent, that should have studied to find out 22
- where those came from. So we don't want to have 23
  - go back on record unless you thought

24

			Julie 10, 201-
	Page 153		Page 155
1	that that was a possibility just for a moment, or we	1	assuming that we have information on that, we will
