**Subject:** Parabe Production Shut-In

Sola,  
I understand Parabe is shut-in due to youths boarding the platform. Please keep me posted on this situation. I've been told the youths are looking for employment and have thus far been peaceful.

Should we receive any media on this, we'll confirm the event, that the Parabe facilities handle 70,000 b/d, and Chevron is optimistic that a resolution will be achieved as soon as possible.

Thanks.
